Strategic Debate:

Strategic Debate: Reason, argumentation, and strategy for winning scholastic debates, **Chinese Strategic Thought toward Asia** G. Rozman, 2012-10-15 This book traces the development of Chinese thinking over four periods from the 1980s on and covers strategies toward Russia and Central Asia Japan the Korean peninsula Southeast and South Asia and regionalism It compares strategic thinking arguing that the level was lowest under Jiang Zemin and highest under Hu Jintao

The New U.S. Strategic Debate Ronald D. Asmus, 1993 Discusses how the old bipartisan consensus that placed containment and deterrence of the Soviet Union at the center of U S national security strategy has given way to a contentious debate over what constitutes U S security interests **The Nuclear Dilemma In American Strategic Thought** Robert E.

Osgood, 2019-06-18 Since the end of World War II the United States has faced moral and strategic issues in its management of force that are unique in the history of international politics At the heart of these issues is the heavy reliance of the United States and its allies on the deterrent effect of nuclear weapons and the fact that their use would very likely lead **Strategic**

Decisions Vassilis Papadakis, Patrick Barwise, 2012-12-06 Over the past ten years there has been growing interest in the process of strategic decision making among both managers and researchers Strategic decisions are important for five main reasons They are large scale risky and hard to reverse they are a bridge between deliberate and emerging strategies they can be a major source of organizational learning they play an important part in the development of individual managers and they cut across functions and academic disciplines Strategic Decisions summarizes the current state of the art in research on strategic decision making with chapters prepared by leading strategy researchers The editors also present implications for current application and proposed directions for future research *The Chinese Tactical Air Forces and Strategic Weapons Program* Paul H. B. Godwin, 1978 The purpose of this analysis is to present a description and analysis of the growth

of the People's Liberation Army Air Force the Chinese nuclear weapons program and the associated doctrinal and strategic thought It is designed to bring together the results of considerable research mostly completed by analysts other than this author into a single essay to serve the interests of the students attending the various schools associated with the Air University A second purpose of this essay is to review the current debate over the modernization of the Chinese armed forces within a specific focus on the People's Liberation Army Air Force and the strategic weapons program *Analyzing Strategic Nuclear Policy* Charles L. Glaser, 2014-07-14 With sweeping changes in the Soviet Union and East Europe having shaken core assumptions of U S defense policy it is time to reassess basic questions of American nuclear strategy and force requirements In a comprehensive analysis of these issues Charles Glaser argues that even before the recent easing of tension with the Soviet Union the United States should have revised its nuclear strategy rejecting deterrent threats that require the ability to destroy Soviet nuclear forces and forgoing entirely efforts to limit damage if all out nuclear war occurs Changes in the Soviet Union suggests Glaser may be best viewed as creating an opportunity to make revisions that are more than twenty years

overdue Glaser's provocative work is organized in three parts. The Questions behind the Questions evaluates the basic factual and theoretical disputes that underlie disagreements about U.S. nuclear weapons policy. Alternative Nuclear Worlds compares mutual assured destruction capabilities (MAD) a world in which both superpowers societies are highly vulnerable to nuclear retaliation to the basic alternatives: mutual perfect defenses, U.S. superiority and nuclear disarmament. Would any basic alternatives be preferable to MAD? Drawing on the earlier sections of the book, Decisions in MAD addresses key choices facing American decision makers. History of Strategic Air and Ballistic Missile Defense: 1945-1955, 2009. From the book's Foreword: In the early 1970s the U.S. Army Center of Military History contracted with BDM Corporation for a history of U.S. efforts to counter Soviet air and missile threats during the Cold War. The resulting two volume History of Strategic Air and Ballistic Missile Defense covers the years 1945-1972 when the strategic arms competition between the United States and the Soviet Union was at its height. The study was first published for limited distribution in 1975 and recently declassified with minimal redaction. These volumes address the passive and active defense strategies, technologies and techniques adopted by both U.S. and Soviet defense planners. Much of their actions centered around three common questions: How might we be attacked? How shall we defend our country? What can technology do to solve the basic problems of defending against this new intercontinental threat?

Strategic Studies and Public Policy
Colin S. Gray, 2021-09-15. Strategic studies as a field of civilian scholarship has developed along distinctive lines in the United States since World War II. The rapid proliferation and increasing sophistication of weapons technology have required constant revision of strategic theory while the shifting political climate both internationally and in the United States has had an equally powerful impact. One of the field's leading theorists now examines the history and development of American strategic studies: the varied roles assumed by civilian strategists and their relationship with those charged with developing and carrying out American military and diplomatic policy. This provocative book clearly demonstrates the importance of a sound strategic theory if America is to survive in an age of high arms technology and increased world tensions.

History of Strategic and Ballistic Missile Defense: Volume I Barry Leonard, 2010-11. As part of a larger study of the strategic arms competition which developed after World War II between the U.S. and the U.S.S.R., this study of the two countries' strategies for air and ballistic missile defense addresses two broad subjects: 1. How did each country approach the problem of defense against the threat from the air? 2. Why did each country accent particular elements of an air defense strategy at various periods between 1945 and 1972? The first question concerns the means that leaders chose for defense against an increasingly

sophisticated offensive threat Includes several appendices of chronologies tables charts maps and notes **History of Strategic Air and Ballistic Missile Defense, Volume I, 1945--1955, 2009** ,2009 **Strategic Review** ,1975 dedicated to the advancement and understanding of those principles and practices military and political which serve the vital security interests of the United States **U.S. Intelligence and the Soviet Strategic Threat** Lawrence Freedman,2014-07-14 The author examines in detail the organization of the U S intelligence community its attempts to monitor and predict the development of Soviet forces from the early days of the cold war and how these attempts affected American policy and weapons production Originally published in 1987 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **India's Strategic Vision And Foreign Policy: Options And Challenges** Mohanan Bhaskaran Pillai,2023-02-15 Prime Minister Narendra Modi reiterated Second Raisina Dialogue New Delhi on 17th January 2017 that the civilisational legacy of Realism Co existence Cooperation and Partnership moulded India s strategic vision The above statement reflects India s ambitious project to attain great power status which has been a constant element in India s foreign and strategic policy since its independence The quest for great power status is a shared belief and behaviour Moreover Prime Minister Modi has been continuing at a fast pace with the reforms initiated in 1991 by Prime Minister Narasimha Rao and pursued by his immediate predecessors We can notice in Narendra Modi s approach of strategic interconnectedness or multi vectored engagement or panchamrit a continuity that aligns perfectly with the policies of his immediate predecessors At the dawn of independence the non alignment approach facilitated liberal capitalist economic development with socialist flavours on an upward trajectory Narasimha Rao rehabilitated India into the orbit of neoliberal political and financial architecture Modi s objective is to take India into the league of leading countries in the multipolar world order through his Multivector Alignment There exists a symbiotic relationship between foreign policy strategy and domestic economic growth Modi s Make in India project Atmanirbhar Bharat and similar initiatives constructed on multi vectored alignment or strategic interconnectedness have given India unprecedented visibility worldwide This book is a collection of essays penned by a few established scholars in the field and budding scholars under the guidance of established scholars One retired diplomat and one retired Vice Admiral contributed each piece rooted in their own experiences The attempt is to comprehensively analyse India s strategic culture doctrine and foreign policy behaviour The Strategic Options of Middle Powers in the Asia-Pacific Chien-Wen Kou,Chiung-Chiu Huang,Brian Job,2022-06-23 This book analyses the responses of middle powers in the Asia Pacific toward the contemporary great powers rivalry of the United States and China through specific cases studies of South Korea Australia Japan India
