Social and Emotional Aspects of Learning Sanna Jarvela, 2011-02-17 Social and emotional aspects of schooling and the learning environment can dramatically affect one's attention, understanding and memory for learning. This topic has been of increasing interest in both psychology and education, leading to an entire section being devoted to it in the third edition of the International Encyclopedia of Education. Thirty-three articles from the Encyclopedia form this concise reference which focuses on such topics as social and emotional development, anxiety in schools, effects of mood on motivation, peer learning and friendship, and social networks. Saves researchers time in summarizing in one place what is otherwise an interdisciplinary field in cognitive psychology, personality, sociology and education. Level of presentation focuses on critical research, leaving out the extraneous and focusing on need to know information. Contains contributions from top international researchers in the field. Makes MRW content affordable to individual researchers.

Handbook of Self-Regulation of Learning and Performance Dale H. Schunk, Barry Zimmerman, 2011-05-15 Self-regulated learning or self-regulation refers to the process whereby learners personally activate and sustain cognitions, affects and behaviours that are systematically oriented toward the attainment of learning goals. This is the first volume to integrate into a single volume all aspects of the field of self-regulation of learning and performance: basic domains, applications to content areas, instructional issues, methodological issues and individual differences. It draws on research from such diverse areas as cognitive, educational, clinical, social and organizational psychology. Distinguishing features include:

- Chapter Structure: To ensure uniformity and coherence across chapters, each chapter author addresses the theoretical ideas underlying their topic, research evidence bearing on these ideas, future research directions and implications for educational practice.
- International: Because research on self-regulation is increasingly global, a significant number of international contributors are included (see table of contents).
- Readable: In order to make the book accessible to students, chapters have been carefully edited for clarity, conciseness and organizational consistency.
- Expertise: All chapters are written by leading researchers from around the world who are highly regarded experts on their particular topics and are active contributors to the field.

Artificial Intelligence in Education C.-K. Looi, G. McCalla, B. Bredeweg, 2005-07-14 The field of Artificial Intelligence in Education includes research and researchers from many areas of technology and social science.
