All Things Medieval Ruth A. Johnston,2011-08-15 This insightful survey of the things of medieval Europe allows modern readers to understand what they looked like what they were made of how they were created and how they were used All Things Medieval An Encyclopedia of the Medieval World covers the widest definition of medieval Europe possible not by covering history in the traditional textbook manner of listing wars leaders and significant historic events but by presenting detailed alphabetical entries that describe the artifacts of medieval Europe By examining the hidden material culture and by presenting information about topics that few books cover pottery locks and keys shoes weaving looms barrels toys pets ink kitchen utensils and much more readers get invaluable insights into the nature of life during that time period and area The heartland European regions such as England France Italy and Germany are covered extensively and information regarding the objects of regions such as Byzantium Muslim Spain and Scandinavia are also included For each topic of material culture the entry considers the full scope of the medieval period roughly 500 1450 to give the reader a historical perspective of related traditions or inventions and describes the craftsmen and tools that produced it The Complete Story of the Grail

Chrétien (de Troyes), 2015 The mysterious and haunting Grail makes its first appearance in literature in Chrétien de Troyes Perceval at the end of the twelfth century But Chrétien never finished his poem leaving an unresolved story and an incomplete picture of the Grail It was however far too attractive an idea to leave Not only did it inspire quite separate works his own unfinished poem was continued and finally completed by no fewer than four other writers The Complete Story of the Grail is the first ever translation of the whole of the rich and compelling body of tales contained in Chrétien's poem and its four Continuations which are finally attracting the scholarly attention they deserve Besides Chrétien's original text there are the anonymous First Continuation translated here in its fullest version the Second Continuation attributed to Wauchier de Denain and the intriguing Third and Fourth Continuations probably written simultaneously with no knowledge of each other's work by Manessier and Gerbert de Montreuil Two other poets were drawn to create preludes explaining the background to Chrétien's story and translated here also are their works The Elucidation Prologue and Bliocadran Only in this The Story of the Grail's complete form can the reader appreciate the narrative skill and invention of the medieval poets and their surprising responses to Chrétien's theme not least their crucial focus on the knight as a crusader Equally Chrétien's original poem was almost always copied in conjunction with one or more of the Continuations so this translation represents how most medieval readers would have encountered it Nigel Bryant's previous translations from Medieval French include Perlesvaus the High Book of the Grail Robert de Boron's trilogy Merlin and the Grail the Medieval Romance of Alexander The True Chronicles of Jean le Bel and Perceforest
