Tales Of Nanabozho:

Tales of Nanabozho Dorothy M. Reid,1964 In retelling the stories for this book I have drawn on many sources and used incidents from the mythology both of the Ojibwa and of other tribes in the Algonkian language group to which the Ojibwa belong But I have tried to make my own versions true to the spirit of the original material and above all to the qualities of humour adventure and fantasy in which it is so rich Preface **Tales of Nanabozho [by] Dorothy M. Once Upon a Time Sheila Egoff,2005-09-01 In *Once Upon a Time My Life with Children's Books* Sheila Egoff tells the story of her working life from her early voracious reading through all her significant contributions to libraries in Canada and to our national understanding of our own literature for children She brings both a critical eye and a personal touch to this book which reads as a memoir and as an account of important developments in Canadian writing and librarianship In this time of cuts to budgets for books and for librarians there is much here to reflect upon *Quests for Fire* ,2012-09-04 It is hard to imagine life without fire Heat light food where would we be without these essentials Although we do not rely on fire as much today as in times past nor have as much direct contact with it fire was often crucial to survival when the stories in this collection were first told People often told stories about it what their lives were like without fire how they first acquired it and how it changed their lives This collection of nine traditional tales retold by Jon C Stott draws from eight different

countries Learn how Maui stole fire twice New Zealand how Coyote and his friends captured fire United States how Opossum brought fire back to the people Mexico and how Vasilisa used the Baba Yaga s fire Russia The main characters of these stories differ in many aspects Some are well known heroes and some are insignificant members of their groups Some made their quests for fire alone and some worked with others Some were brave and unselfish and some sought personal glory But all knew that fire was essential for their people Healing the Mind through the Power of Story Lewis

Mehl-Madrona,2010-06-18 Psychiatry that recognizes the essential role of community in creating a new story of mental health Provides a critique of conventional psychiatry and a look at what mental health care could be Includes stories used in the author s healing practice that draw from traditional cultures around the world Conventional psychiatry is not working The pharmaceutical industry promises it has cures for everything that ails us yet a recent study on antidepressants showed there is no difference of success in prescribed pharmaceuticals from placebos when all FDA reported trials are considered instead of just the trials published in journals Up to 80 percent of patients with bipolar depression remain symptomatic despite conventional treatment and 10 to 20 percent of these patients commit suicide In Healing the Mind through the Power of Story Dr Mehl Madrona shows what mental health care could be He explains that within a narrative psychiatry model of mental illness people are not defective requiring drugs to fix them What needs fixing is the ineffective stories they have internalized and succumbed to about how they should live in the world Drawing on traditional stories from cultures around the world Dr Mehl Madrona helps his patients re story their lives He shows how this innovative approach is actually more compatible with what we are learning about the biology of the brain and genetics than the conventional model of psychiatry Drawing on wisdom both ancient and new he demonstrates the power and success of narrative psychiatry to bring forth change and lasting transformation **A Book of Tricksters** Jon C. Stott,2011-02-01 For centuries people around the world

have been telling stories about tricksters characters who solve problems by using their wits to fool others Sometimes these tricksters want to help people Other times they use their cleverness for selfish reasons Occasionally they aren t as clever as they think and are tricked themselves Although trickster tales from different countries are similar in many ways story details problems to be solved and the personalities of characters reflect the beliefs and values of the culture from which they come Not only are trickster stories entertaining they also teach readers things about themselves And they show how through wit and inventiveness unlikely or underappreciated characters often can succeed In A Book of Tricksters Jon C Stott has collected traditional trickster tales from 14 different countries including How Anansi Brought Stories to the People Ghana How Zhao Paid His Taxes China How Kancil Built a Crocodile Bridge Indonesia and How Maui Discovered the Secret of Fire Hawaii **Earth Tales from around the World** Michael J. Caduto,2016-11-29 Stories come from around the world but they grow from the very earth upon which they are first told Michael J Caduto invites readers to listen while the Earth tells these stories through his lyrical retellings of tales such as Hare Rescues the Sun and The Coming of Fire *Whispers of the*
