Contemporary Perspectives On Masculinity Ken Clatterbaugh, 2018-10-08 What is social reality for men in modern society What maintains or explains this social reality What condition might we imagine that would be better for men How might we achieve this better condition These are the questions Kenneth Clatterbaugh brings to seven different visions of men in modern society considered in this newly updated edition In clear and insightful language Clatterbaugh surveys not just conservative liberal and radical views of masculinity but also the

alternatives offered by the men's rights movement, spiritual growth advocates, and black and gay rights activists. Each of these is explored both as a theoretical perspective and as a social movement, and each offers distinctive responses to the questions posed. The first edition of this book was the first to survey the range of responses to feminism that men have made, as well as the first to put political theory at the center of men's awareness of their own masculinity. This new edition adds chapters on recent highly publicized movements such as the Promise Keepers, Million Man March, and the evolution of gay men's rights. Clatterbaugh treats all views with fairness and timeliness as he develops and defends a vision of men and masculinity consistent with feminist ideals and a just society.

**Balls** Ron Johnson, Deb Brock, 2025-01-14 *Balls* is a call to arms for men to be the best that they can be. Being at their best starts with men being honest with themselves and then with the people in their lives. *Balls* is about courage, namely for men to courageously and honestly face the four challenges in their lives: words, women, work, and wine addictions. The authors describe how men can develop emotional maturity, which then leads to maturity in all other aspects of life. The authors further suggest that the problems with anger avoidance and addiction that visibly trouble most men are based on a deep-seated anxiety, which itself is due to the fact that most men have not had direction and encouragement to face the multitude of challenges and responsibilities that they face in life. This book is a blend of psychological theory and research, and the authors combined one hundred years of psychotherapy practice, leading to practical suggestions for men to find courage in their lives.
