Cline,2021-12-17 Journalists began to call the Korean War the Forgotten War even before it ended Without a doubt the most neglected story of this already neglected war is that of African Americans who served just two years after Harry S Truman ordered the desegregation of the military Twice Forgotten draws on oral histories of Black Korean War veterans to recover the story of their contributions to the fight the reality that the military desegregated in fits and starts and how veterans service fits into the long history of the Black freedom struggle This collection of seventy oral histories drawn from across the country features interviews conducted by the author and his colleagues for their American Radio Works documentary Korea The Unfinished War which examines the conflict as experienced by the approximately 600 000 Black men and women who served It also includes narratives from other sources including the Library of Congress s visionary Veterans History Project In their own voices soldiers and sailors and flyers tell the story of what it meant how it felt and what it cost them to fight for the freedom abroad that was too often denied them at home     **Actions of Their Own to Learn** ,2017-01-01 What does it mean to take actions of one s own to learn How do human beings create meaning for themselves and with others How can learners active efforts to build knowledge be encouraged and supported In this edited compilation scholars from a diverse range of academic and professional backgrounds address these questions grounded in the conviction that the ability to take effective action of one s own to learn

is itself an essential form of knowledge In an era of dramatic social environmental and political change the need to access vast amounts of information to make decisions demands that learners become active agents in their own knowledge development Educators are transforming ideas about their role s as they strive to provide guidance to help learners take the lead in their own learning Learners are building new ideas about their capacities to gather and organize information while working with others No longer simply consumers of information they are beginning to see themselves as capable and effective researchers Researchers are also expanding ideas about their knowledge gathering work and identities No longer simply reporters of information researchers are seeing themselves as learners as they engage in deeper more collaborative ways with participants in their research Chapter authors describe their dedicated and often career long journeys to show the vital connections between knowledge acting to learn identity and being To engage in this work means disrupting traditional ideas about how knowledge is most effectively acquired This book will inspire researchers educators and educational planners as they build the kinds of new participative structures needed to support individual and collective actions to learn See inside the book     The Chicago Schools Journal ,1923
