## **The Hammonds A Marriage In History:**

The Hammonds Stewart Angus Weaver, 1997 Here for the first time is the story of one of history's great scholarly and marital collaborations J L and Barbara Hammond were among the most innovative and influential historians of the twentieth century Between 1911 and 1934 they wrote eight books together that amount in effect to the first sustained social history of modern England Three of their books in particular *The Village Labourer* 1911 *The Town Labourer* 1917 and *The Skilled Labourer* 1919 not only anticipated what came to be known as history from below but also permanently changed the way most people think about the Industrial Revolution which they defined in the apocalyptic terms to which we have become accustomed The Hammonds were also public figures prominently involved along with L T Hobhouse J A Hobson C P Scott and others in the definition and dissemination of the new liberalism From the point of involvement in the politics of one century they helped give enduring historical shape to another and thus exercise like their friends Sidney and Beatrice Webb a dual fascination Of the two Hammonds J L was the more prolific writing six books on his own and serving as a political journalist for virtually his entire professional life which saw him intervene editorially in every public crisis from the Boer War to the Second World War Ireland was after the Industrial Revolution arguably his greatest passion one to which he devoted much of his editorial life and his supreme literary effort *Gladstone and the Irish Nation* 1938 Barbara Hammond was an accomplished classicist the first woman to earn a First Class degree in Greats at Oxford She is shown here to have done much more work on the labourer books than has been previously recognized and to sustain through her letters an artful running commentary on the foibles of her age Through her especially the author evokes a radical but also doggedly Victorian sensibility that survived uneasily into the age of Bloomsbury and beyond The Hammonds were unique in the extent of their fused identity in the extent to which they became as G M Trevelyan once put it one flesh and one author The Hammonds is part dual biography part evocation of an age but it is also a study of marriage a marriage at a particular moment in history a marriage in the art and craft of history

**A History of the Northern Peninsula of Michigan and Its People** Alvah Littlefield Sawyer, 1911 **A History and Genealogy of the Descendants of William Hammond of London, England, and His Wife Elizabeth Penn** Roland Hammond, 1894 *Death and Survival in Urban Britain* Bill Luckin, 2015-05-19 The narratives of disease hygiene developments in medicine and the growth of urban environments are fundamental to the discipline of modern history Here the eminent urban historian Bill Luckin re-introduces a body of work which published together for the first time along with new material and contextualizing notes marks the beginning of this important strand of historiography Luckin charts the spread of cholera fever and the everyday but frequently deadly infections that afflicted the inhabitants of London and its new manufacturing districts between the 1830s and the end of the nineteenth century A second part *Pollution and the Ills of Urban Industrialism* concentrates on the water and smoke problems and the ways in which they came to be perceived defined and finally brought under a degree of control *Death and Survival in Urban Britain* explores the layered and

interacting narratives within the framework of the urban revolution that transformed British society between 1800 and 1950

Labour and the Countryside Clare V. J. Griffiths, 2007-05-10 The common reputation of the British Labour Party has always been as a thing of the town an essentially urban phenomenon which has failed to engage with the rural electorate or identify itself with rural issues Yet during the inter war years Labour viewed the countryside as a crucial electoral battleground even claiming that the party could never form a majority administration without winning a significant number of seats across rural Britain Committing itself to a series of campaigns in rural areas during the 1920s and 30s Labour developed a rural and often specifically agricultural programme on which to attract new support and members Labour and the Countryside takes this forgotten chapter in the party's history as a starting point for a fascinating and wide ranging re examination of the relationship between the British Left and rural Britain The first account of this aspect of Labour's history this book draws on extensive research across a wide variety of original source material from local party minutes and trade union archives to the records of Labour's first two periods in government Historical literary and visual representations of the countryside are also examined along with newspapers magazines and propaganda materials In reconstructing the contexts within which Labour attempted to redefine itself as a voice for the countryside the resulting study presents a fresh perspective on the political history of the inter war years

**A History of Washington County, Maryland** Thomas John Chew Williams, 1906 Historians and the Church of England James Kirby, 2016 In the Victorian and Edwardian era history was one of the most prized forms of cultural and intellectual activity it was quite simply the lens through which most of the educated population understood human society Historians and the Church of England uncovers for the first time the extent to which this historical understanding was conditioned by religious ideas and institutions Rejecting the traditional chronology of intellectual secularization it contends that the Church of England in particular remained an active force in the development of scholarship leaving a deep impression on history just as it was becoming a modern discipline It therefore challenges readers to revise their understanding of the history of both historiography and religion in the nineteenth and early twentieth centuries

**History of Kentucky** William Elsey Connelley,Ellis Merton Coulter,1922 **History of Virginia** ,1924 **Time's Anvil** Richard Morris,2012-11-22 A personal and lyrical rediscovery of the history of England through archaeology and the imagination History thrives on stories TIME S ANVIL explores archaeology s influence on what such stories say how they are told who tells them and how we listen In a dazzlingly wide ranging exploration Richard Morris casts fresh light on three quarters of a million years of history in the place we now think of as England Drawing upon genres that are usually pursued in isolation like biography poetry or physics he finds potent links between things we might imagine to be unrelated His subjects range from humanity s roots to the destruction of the wildwood from the first farmers to industrialization and from Tudor drama to 20th century conflict Each topic sits at a different point along the continuum between epoch and the fleeting moment In part this is a history of archaeology in part too it is a personal account of the author s history in archaeology But mainly it is about how the past is read and about what we bring to the reading as well as what we find The result is a book that defies categorisation but one which will by turns surprise enthrall and provoke anyone who cares for England who we are and where we have come from TIME S ANVIL was longlisted for the Samuel Johnson Prize for Non Fiction 2013

**The Blitz and its Legacy** Peter J. Larkham,2016-12-05 Triggered in part by contemporary experiences in the Balkans the Middle East and elsewhere there has been a rise in interest in the blitz and the subsequent reconstruction of cities especially as many of the buildings and areas rebuilt after the Second World War are now facing demolition and reconstruction in their turn Drawing together leading scholars and new researchers from across the fields of planning history architecture and geography this volume presents an historical and cultural commentary on the immediate and longer term impacts of wartime destruction The book s contents in 14 chapters cover the spread of themes from experiencing the war to reconstruction and its

experiences and although many chapters draw upon the UK experience there is deliberate inclusion of some material from mainland Europe and Japan to emphasise that the experiences processes and products are not London specific A comparative book tracing destruction to reconstruction is a relative rarity and yet of the utmost importance in possessing wider relevance to post disaster reconstructions The Blitz and Its Legacy is a fascinating volume which includes war experiences of destruction architecture urban design the political process of planning and reconstruction and also popular perceptions of rebuilding Its findings provide very timely lessons which highlight the value of learning from historical precedent
