International Status in the Shadow of Empire Cait Storr, 2020-09-17 Nauru is often figured as an anomaly in the international order This book offers a new account of Nauru's imperial history and examines its significance to the histories of international law Drawing on theories of jurisdiction and bureaucracy it reconstructs four shifts in Nauru's status from German protectorate to League of Nations C Mandate to UN Trust Territory to sovereign state as a means of redescribing the transition from the nineteenth century imperial order to the twentieth century state system The book argues that as international status shifts imperial form accretes as Nauru's status shifted what occurred at the local level was a gradual process of bureaucratisation Two conclusions emerge from this argument The first is that imperial administration in Nauru produced the Republic's post independence failures The second is that international recognition of sovereign status is best understood as marking a beginning not an end of the process of decolonisation

The Hansa Towns Helen Zimmern, 1889

War, Politics and Finance in Late Medieval English Towns Christian Drummond Liddy, 2005 The strengthening of ties between crown and locality in the fourteenth century is epitomised by the relationships between York and Bristol then amongst the largest and wealthiest urban communities in England and the crown This book combines a detailed study of the individuals who ruled Bristol and York at the time with a close analysis of the texts which illustrate the relationship between the two cities and the king thus offering a new perspective on relations between town and crown in late medieval England

Beginning with an analysis of the various demands financial political and commercial made upon the towns by the Hundred Years War the author argues that such pressures facilitated the development of a partnership in government between the crown and the two towns meaning that the elite inhabitants became increasingly important in national affairs The book goes on to explore in detail the nature of urban aspirations within the kingdom arguing that the royal charters granting the towns their coveted county status were crucial in binding their ruling elites into the apparatus of royal government and giving them a powerful voice in national politics
