The Health Of The Elderly In Hong Kong:

The Health of the Elderly in Hong Kong Shiu-kum Lam, 1997-06-01 9 79E 12 *Principles and Practice of Geriatric Medicine* M.S. John Pathy, Alan J. Sinclair, John E. Morley, 2006-02-03 The fourth edition of the highly acclaimed *Principles and Practice of Geriatric Medicine* provides an account of the fundamental changes associated with ageing which are essential to our understanding and management of the elderly sick population. The title has been extensively revised and updated to reflect the enormous changes in treatment options and medical conditions emerged since publication of the third edition. Written by worldwide experts of international repute, this is the most up to date and comprehensive single reference source currently available. *Principles Practice of Geriatric Medicine Fourth Edition* incorporates more than 30 new chapters including Preventive geriatrics, Anorexia of Aging, Management of Weight Loss, Dehydration, Vitamins and Minerals in the Elderly, Cancer and Aging, Mild Cognitive Impairment, Treatment of Behavioral Disorders, The Older Patient with Down's Syndrome, Drug Abuse in Older People, Breast Cancer, Women's health, A truly global perspective including new chapter on Care of the elderly in Israel, old age in a young land, Geriatric Medicine in China, Geriatric medicine education in Europe, Geriatrics from the European Union, Perspective India, Day Hospitals, Perspectives from Latin America. The title will be indispensable for all those involved in the treatment of older patients: Gerontologists to keep up to date with the latest developments in the field; General practitioners and specialists in health policy and community care who increasingly have to deal with a significant number of older people; Academic researchers in geriatric medicine who are in need for an all encompassing reference work; Medical registrars, UK residents, US in order to pass their exams; Teachers of Geriatric Medicine; Hospital libraries with increasing budgets to spend on much needed resource in this growing field; Professionals within the pharmaceutical industry in order to monitor treatment options and new prescription developments. *Pathy's Principles and Practice of Geriatric Medicine* Alan J. Sinclair, John E. Morley, Bruno Vellas, 2012-03-13 This new edition of the comprehensive and renowned textbook *Principles and Practice of Geriatric Medicine* offers a fully revised and updated review of geriatric medicine. It covers the full spectrum of the subject, features 41 new chapters and provides up to date evidence based and practical information about the varied medical problems of ageing citizens. The three editors from UK, USA and France have ensured that updated chapters provide a global perspective of geriatric medicine as well as reflect the changes in treatment options and medical conditions which have emerged since publication of the 4th edition in 2006. The book includes expanded sections on acute stroke, dementia, cardiovascular disease and respiratory diseases and features a new section on end of life care. In the tradition of previous editions, this all encompassing text continues to be a must have text for all clinicians who deal with older people, particularly geriatric medical specialists, gerontologists, researchers and general practitioners. This title is also available as a mobile App from MedHand Mobile Libraries. Buy it now from Google Play or the MedHand Store. Praise for the 4th edition: an excellent reference for learners at all clinical and preclinical levels and a

useful contribution to the geriatric medical literature Journal of the American Medical Association November 2006 5th edition selected for 2012 Edition of Doody's Core Titles™ **Artificial Intelligence in Healthcare for the Elderly** Sandeep Sharma, Preeti Nagrath, Bhawna Singla, Joel J. P. C. Rodrigues, 2025-07-14 Artificial Intelligence in Healthcare for the Elderly provides valuable insights into how artificial intelligence can transform healthcare through personalized monitoring ethical considerations and real world applications Artificial intelligence has the potential to revolutionize healthcare for the elderly by providing efficient and personalized monitoring and care Though this technology has the potential to revolutionize care there is currently little information on the potential of this technology in elderly healthcare Artificial Intelligence in Healthcare for the Elderly explores AI algorithms that can transform health monitoring for older adults by analyzing data from wearable devices electronic health records and other sources that provide real time data analysis detect early warning signs of diseases and offer personalized treatment This book addresses the critical ethical societal and practical aspects of elderly care that are often overlooked with insights from various disciplines including healthcare technology ethics and sociology to offer a holistic perspective on AI's impact on aging Artificial Intelligence in Healthcare for the Elderly offers an all encompassing perspective on AI technologies employed in elderly healthcare by examining the specific types of technology used and delineating its role in elderly healthcare drawing insights from existing research and case studies

Aging in Hong Kong Jean Woo, 2012-09-06 With the longest life expectancy for men and the second longest for women Hong Kong typifies our planet's aging population The daily lives of its older adults closely match the advantages and disadvantages experienced by urban elders in other developed countries For these reasons Hong Kong's elderly serve as a salient guide to older people's social psychological and healthcare needs concerns of increasing importance as the world grows older Aging in Hong Kong examines this emblematic population as a case study specifically in comparison with their counterparts in the West shedding light on diverse interrelated currents in the aging experience Referencing numerous international studies the book contrasts different health service arrangements and social factors and relates them to a variety of health outcomes Its wide ranging coverage documents health and illness trends reviews age friendly policy initiatives relates health literacy to patients active role in their own care and discusses elders as an underserved group in the division of limited health funding and resources This multiple focus draws readers attention to policies that need revisiting or retooling as chapters analyze major life areas including Living environment Retirement and post retirement employment issues Financial asset management Health literacy regarding aging issues Elder positive service delivery models Ageism in the prioritization of healthcare End of life issues By assembling such a wealth of data on its subject Aging in Hong Kong puts ongoing challenges into clear focus for gerontologists sociologists health and cross cultural psychologists public health policymakers and others involved in improving the quality of elders lives **Ageing in the Asia-Pacific Region** David R. Phillips, 2002-11-01 First Published in 2004 The Asia Pacific region is now clearly witnessing the rapid ageing of many of its

nations and Asia is already the region with relatively the largest number of older persons This book focuses on the challenges that this demographic trend poses to economies and societies in the region and the policies that have evolved to date to meet new demands It looks forward over the coming decades to consider how societies and economies will deal with ageing and the necessary structural and behavioural changes that this will entail The book is organized into two main sections The first introduces the key features demography research and long term care issues of the region and provides region wide context and analysis The second section offers in depth case studies of thirteen countries including China Japan Korea and Indonesia As well as providing a wealth of original research material the book also offers valuable comparative analysis while the larger economies have had to develop policies to maintain their social and economic successes in the face of demographic ageing developing countries must find ways to build their economies around an ageing population With contributors drawn from a range of academic and professional disciplines including many practising social gerontologists this book will be of interest to scholars in economics sociology social policy health policy politics and development studies With its particular emphasis on the future it will also be an essential reference for anybody with a professional interest in policy making in the region

Sustainable Development Goal 3 Ben Y. F. Fong, Vincent T. S. Law, 2021-12-24 Sustainable Development Goals SDGs aim to develop a better and sustainable future for the world and the goals are part of an action plan to address poverty hunger health gender equity and various pressing world issues One of these goals looks at health and wellness Ageing populations have become a crucial issue worldwide and this short monograph explores ageing and how the consequences of an ageing population may affect our healthcare system through a case study on Hong Kong's population The book looks at several critical health issues related to ageing The elderly particularly those with low socio economic status rely more on acute centric care rather than primary care The book suggests that secondary care service may only be effective to a limited extent as a healthcare measure and an optimum healthcare system should be one that focuses on primary care The authors put forth a compelling argument for disease prevention and screening schemes and explain how they are more cost effective and beneficial to society and the system This thoughtful book will provide beneficial insights into the relationship of ageing and Sustainable Development Goals in the context of health and wellness for policymakers and healthcare professionals The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
