Danna Demetre, 2010-05 Personal lifestyle coach Danna Demetre offers readers a 40 day plan for renewing passion purpose and joy Nurturing A Child's Mental Health (8th-9th Body, Mind & Life Conference Presentations) in their lives (Mr.) Tsultrim Namgyal, BML Dept, Mr. Tenzin Kalden, Translator, BML Dept, 2020-03-23 MESSAGE OF HIS HOLINESS THE 14TH DALAI LAMA Leaving aside the complex question of the creation and evolution of our universe we can at least agree that each of us is the product of our own parents In general our conception took place not just in the context of sexual desire but from our parents decision to have a child Such decisions are founded on responsibility and altruism the parent s compassionate commitment to care of their child until it is able to take care of itself Thus from the very moment of our conception our parents love is directly in our creation Moreover we are completely dependent upon our mothers care from the earliest stages of our growth According to some scientists a pregnant woman's mental state be it calm or agitated has a direct physical effect on her unborn child The expression of love is also very important at the time of birth Since the very first thing we do is suck milk from our mothers breast we naturally feel close to her and she must feel love for us in order to feed us properly if she feels anger or resentment her milk may not flow freely Then there is the critical period of brain development from the time of birth up to at least the age of three or four during which time loving physical contact is the single most important factor for the normal growth of the child If the child is not held hugged cuddled or loved its development will be impaired and its brain will not mature properly Since a child cannot survive without the care of others love is its most important nourishment. The happiness of childhood the allaying of the child's many fears and the healthy development of its self confidence all depend directly upon love Nowadays many children grow up in unhappy homes If they do not receive proper affection in later life they will rarely love their parents and not infrequently will find it hard to love others This is very sad As children grow older and enter school their need for support must be met by their teachers If a
