**Teaching in Unequal Societies** John Russon, 2021-12-30 This book considers teaching in modern institutional settings among other things as the ethical questioning and reversal of passively accepted prejudices particularly in contexts of diversities and inequalities Its thematic focus is the ethics of teacher learner and learner learner relationships within the democratic setup and the possibilities of critique and transformation emerging out of such a relationship The first theme of the book is diversity and pluralism the second is the question of inequality in such contexts of radical diversity With respect to this question an unavoidable phenomenon of our times is the capitalisation of education and the reductionist view of learners as customers and consumers of knowledge The approach to education that sees students merely as skilled human resources to be readied for the job market militates against critical thinking and do not respond appropriately to the questions of diversity and inequality Thus a significant focus of the book is the impact of inherited inequalities of caste and race on classroom ambience and teachers interventions in the modern institutional context The pertinent question is the increasing unwillingness of teachers to recognise and challenge discriminatory views and play their role in social

transformation In this regard the teaching and learning of the humanities is also investigated Teaching and the traditional classroom it is often said may not be required in the future as machines and remotely located teachers explicators might claim their place Hence another question of focus is whether such a future would be hospitable to the critical task of education to cultivate young citizens of democracies      **Sociological Bulletin** Indian Sociological Society,2003      **The Construction of History and Nationalism in India** Sylvie Guichard,2010-06-25 Most studies on nations and nationalism argue that history or more precisely a common past is crucial for the process of national identity building This book focuses on the construction elaboration and negotiation of the narratives that have become official history in India      Modernity, Globalization and Identity Avijit Pathak,2006 Enough Has Already Been Said And Written About Modernity Globalization And Identity What However Distinguishes The Book Is Its Reflexivity\_The Politico Ethical Questions It Raises And The Way It Makes Us Confront Our Own Ambiguities And Life Experiences It Uses Contemporary Sociological Literature Negotiates With Diverse Sources Of Creative Imagination And Remains Immensely Sensitive To The Specificity Of Our Own Social Reality The Trajectory Of Indian Modernity The Dynamics Of Cultural Memory And Globalization And The Dialectic Of Identity Politics With Its Argumentative Style It Pleads For A Humane Reflexive Modernity Narrates The Possibility Of A Profound Art Of Resistance Against Asymmetrical Globalization And Strives For A More Open And Dialogic Society That Inspires One To Overcome Segmented Identities Here Is A Book That Needs To Be Read By Sociologists Social Activists And All Those Who Celebrate Criticality And Reflexivity      **Drama and Theatre with Children** Charru Sharma,2015-12-14 Drama as a process centred form is a popular and valued methodology used to develop thinking and learning in children while theatre provides a greater focus on the element of performance In recent years offering drama and theatre as a shared experience is increasingly used to engage children and to facilitate learning in a drama classroom Using drama and theatre as a central component with children this book is an amalgamation of theory research and practice from across the globe offering insights into differing educational contexts Chapters provide an exploration of the methodologies and techniques used to improve drama in the curriculum and highlight the beneficial impact drama has in a variety of classrooms enriching learning and communication Contributions from 17 authors ranging from teachers in schools or universities to researchers and drama practitioners examine a variety of perspectives related to drama and children in an attempt to bridge gaps and move ahead collectively as educators practitioners and researchers in drama and theatre Divided into two parts Part I reflects on the use of drama in its varied forms with children while Part II focuses on projects and experiments with children using theatre in order to draw links between drama theatre and pedagogy Drama and Theatre with Children will be key reading for researchers academics and postgraduate students in the fields of drama education theatre education curriculum studies and child development The book will also be of interest to drama practitioners school teachers and teacher training leaders      **Rechaerarchitektur** John Impagliazzo,2008-07-17 These proceedings derive from an international conference
