Social Policy and Social Work Robert M. Moroney, Judy Krysik, In the short time between the publication of the first edition of this book and the present edition there have been radical changes in the relationships between the public and private sectors and within the public sector among federal state and local governments The first edition examined the perceived dichotomy between two major approaches to social welfare the institutional and residual models arguing that the former assumes a sense of community while the latter is concerned with the extension of rights to the individual In expanding this argument Moroney and Krysik incorporate notions of citizenship suggesting that elements of both approaches can be integrated in such a way that the modified framework attempts to deal with critics from both sides Current data are presented in each of the original chapters and two new chapters cover the areas of health and employment

Privatization in Central and Eastern Europe June G.

Hopps, Demetrius S. Iatridis, 1998-08-27 Central and Eastern European countries are facing the transition from central to market systems with different strategies and capacities As the task of societal transformation is without precedent in world history the massive economic restructuring has revealed the need for distributive justice and general well being As the editors and contributors to this volume point out the monolithic preoccupation with economic restructuring in a market economics framework is implemented at the expense of social protection and security In contrast to traditional views of privatization as only an economic or managerial phenomenon this collection approaches privatization as a broader integrated process of societal transformation Privatization as defined here consists of integrated processes of societal restructuring that affect sociopolitical economic and ideological constructs as well as human and physical capital development transformation of family structures market stabilization and organization of social care Public policymakers as well as scholars and researchers of contemporary Eastern Europe will find this collection of great interest and an important challenge to the economic models of privatization which undervalue social costs Journal of Human Services Abstracts, 1976

capture the SE phenomenon This strategy made it possible to take into account and give legitimacy to locally embedded approaches thus resulting in an analysis encompassing a wide diversity of social enterprises while simultaneously allowing for the identification of major SE models to delineate the field on common grounds at the international level These SE models reveal or confirm an overall trend towards new ways of sharing the responsibility for the common good in today's economies and societies We tend to consider as good news the fact that social enterprises actually stem from all parts of the economy Indeed societies are facing many complex challenges at all levels from the local to the global level The diversity and internal variety of SE models are a sign of a broadly shared willingness to develop appropriate although sometimes embryonic responses to these challenges on the basis of innovative economic business models driven by a social mission In spite of their weaknesses social enterprises may be seen as advocates for and vehicles of the general interest across the whole economy Of course the debate about privatisation deregulation and globalised market competition all factors that may hinder efforts in the search for the common good has to be addressed as well The first of a series of four ICSEM books Social Enterprise in Asia will serve as a key reference and resource for teachers researchers students experts policy makers journalists and other categories of people who want to acquire a broad understanding of the phenomena of social enterprise and social entrepreneurship as they emerge and develop across the world
