Paul Diesing,1992-03-15 The culmination of a lifetime spent in a variety of fields sociology anthropology economics psychology and philosophy of science How Does Social Science Work takes an innovative sometimes iconoclastic look at social scientists at work in many disciplines It describes how they investigate and the kinds of truth they produce illuminating the weaknesses and dangers inherent in their research At once

an analysis a critique and a synthesis this major study begins by surveying philosophical approaches to hermeneutics to examine the question of how social science ought to work It illustrates many of its arguments with untraditional examples such as the reception of the work of the political biographer Robert Caro to show the hermeneutical problems of ethnographers The major part of the book surveys sociological political and psychological studies of social science to get a rounded picture of how social science works Paul Diesing warns that social science exists between two opposite kinds of degeneration a value free professionalism that lives only for publications that show off the latest techniques and a deep social concern that uses science for propaganda He argues for greater self awareness and humility among social scientists although he notes that some social scientists will angrily reject the thought that their personality affects their research in any way This profound and sometimes witty book will appeal to students and practitioners in the social sciences who are ready to take a fresh look at their field An extensive bibliography provides a wealth of references across an array of social science disciplines

Chicago, an Experiment in Social Science Research Thomas Vernor Smith, Leonard Dupee White, 1929 **Underclass** John Welshman, 2013-10-10 Who are those at the bottom of society There has been much discussion in recent years on both Left and Right about the existence of an alleged underclass in both Britain and the USA It has been claimed this group lives outside the mainstream of society is characterised by crime suffers from long term unemployment and single parenthood and is alienated from its core values John Welshman shows that there have always been concerns about an underclass whether constructed as the social residuum of the 1880s the problem family of the 1950s or the cycle of deprivation of the 1970s There are marked differences between these concepts but also striking continuities Indeed a concern with an underclass has in many ways existed as long as an interest in poverty itself This book is the first to look systematically at the question providing new insights into contemporary
