Social Stress And Family Development:

Social Stress and the Family Hamilton I. McCubbin, Marvin B. Sussman, 1983 An informative anthology of recent theory and research developments pertinent to family stress *Sourcebook of Family Theories and Methods* Pauline Boss, William J. Doherty, Ralph LaRossa, Walter R. Schumm, Suzanne K. Steinmetz, 1993-03-31 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i e sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production

Social Stress and Family Development David M. Klein, Joan Aldous, 1988 *Development According to Parents* W. Andrews Collins, Jacqueline J. Goodnow, 2014-01-02 To their everyday life with children parents bring a number of ideas about development and about parenting Some of these ideas are about their own children and about themselves as parents Others are more general ideas for instance about what babies are like how children change with age what kinds of affection and control they need the responsibilities of mothers and fathers or the degree of influence each parent has over the way a child develops Moreover the ideas that parents hold shape their actions with children and the way they assess both their children and their own performance as parents With the recognition of parental thinking as a powerful factor in family life research has turned to the study of this everyday or informal psychology Some of the studies deal with the nature of parents ideas What ideas are held Which are most widely shared How do these ideas differ from one another Some deal with the sources of parents ideas with the factors that give rise to differences among parents from different backgrounds different cultures different economic groups different degrees of experience with children Others concentrate on the consequences of parents ideas for themselves and for children This monograph summarizes the research with an eye to several audiences researchers clinicians educators and with an emphasis on the questions that remain A major goal is to point not only to significant gaps but also to some specific ways in which they might be addressed by further research **Developmental Perspectives on Children With High-incidence Disabilities** Ronald Gallimore, Lucinda P. Bernheimer, Donald L. MacMillan, Deborah L. Speece, Sharon R. Vaughn, 1999-04 This volume in honor of the career of Barbara K Keogh offers a summary of what is known of developmental constructs in the study of high incidence disabilities Written for an audience of scholars policy makers and grad students in special education Development During the Transition to Adolescence Megan R. Gunnar, W. Andrew

Collins,2013-05-13 Research on the processes of change during the transition from middle childhood to adolescence has been a relatively neglected area of scholarship until recently This volume features prominent researchers who provide integrative accounts of their research programs focusing on processes of physical social and cognitive change during this important transition period in development Also included in this volume is an overview discussion and critical analysis of core conceptual issues in the study of adolescent transition Advances in the Conceptualization of the Stress Process William R. Avison,Carol S. Aneshensel,Scott Schieman,Blair Wheaton,2009-10-21 In 1981 Leonard Pearlin and his colleagues published an article that would radically shift the sociological study of mental health from an emphasis on psychiatric disorder to a focus on social structure and its consequences for stress and psychological distress Pearlin et al 1981 proposed a deceptively simple conceptual model that has now influenced sociological inquiry for almost three decades With his characteristic penchant for reconsidering and elaborating his own ideas Pearlin has revisited the stress process model periodically over the years Pearlin 1989 1999 Pearlin et al 2005 Pearlin and Skaff 1996 One of the consequences of this continued theoretical elaboration of the stress process has been the development of a sociological model of stress that embraces the complexity of social life Another consequence is that the stress process has continued to stimulate a host of empirical investigations in the sociology of mental health Indeed it is no exaggeration to suggest that the stress process paradigm has been primarily responsible for the growth and sustenance of sociological research on stress and mental health Pearlin et al 1981 described the core elements of the stress process in a brief paragraph The process of social stress can be seen as combining three major conceptual domains the sources of stress the mediators of stress and the manifestations of stress Each of these extended domains subsumes a variety of subparts that have been intensively studied in recent years **Family Empowerment** Katherine Dunlap,2019-06-04 First published in 2000 Routledge is an imprint of Taylor Consortium for Longitudinal Studies 1983 Deutsch Jordan Lazar Darlington 1982 This study considers positive benefits for caregivers who participate in cooperative preschool education Since not all caregivers are parents the study includes grandparents who have custody of children and kin with responsibility for child **Handbook of U.S. Latino Psychology** Francisco A. Villarruel,Gustavo Carlo,Josefina M. Grau,Margarita Azmitia,Natasha J. Cabrera,T. Jaime Chahin,2009-07-24 Congratulations to Aida Hurtado and Karina Cervantez winners of the 2009 Women of Color Psychologies Award This award given by the Association of Women in Psychology Association is voted on by AWP members for contributions of new knowledge and importance to the advancement of the psychology of women of color Offering broad coverage of all U S Latino groups this volume synthesizes cutting edge research and methodological advances and provides culturally sophisticated information that can be used by researchers policy makers and practitioners The editors and contributing authors summarize theories and conceptual models that can further our understanding of the development and adaptation of U S Latino populations In addition they focus on the importance of cultural sensitivity and competence in research and intervention approaches and how to achieve it Key Features Highlights

the normative development and strengths of U S Latino populations Elaborates on the heterogeneity of Latinos in that it does not assume that all Latino populations and the contexts of their development are identical Emphasizes on cultural sensitivity and competence at all levels Focuses on the importance of cultural identity amongst Latinos and its contribution to healthy developmental outcomes The Corsini Encyclopedia of Psychology, Volume 2 Irving B.
