**Support Processes in Intimate Relationships** Kieran T. Sullivan,Joanne Davila,2010-06-11

In the past twenty years or so research on support processes in relationships has emerged as a distinct development in the field. Researchers have drawn from studies in the fields of communication, social support, and intimate relationships to conduct research examining support processes in relationships on micro and macro levels. Theoretical models of support processes in intimate relationships have been developed, and increasingly sophisticated methodologies and data analytic techniques are being used to accumulate considerable and convincing evidence of the importance and complexity of support processes in intimate relationships. This edited book offers a broad yet coherent view of the field, showcasing novel state-of-the-art research and theory on support processes in intimate relationships. Cutting-edge scholarly work is compiled in one accessible volume which is designed to provoke and guide new research on social support. The book is divided into five sections designed to reflect emerging themes in the literature on support processes and intimate relationships: Getting What One Wants, Perceived Support in Intimate Relationships, highlights the importance of offering support that is consistent with the needs of the recipient; Providing What Partners Need, Interpersonal Aspects of Support, focuses on the importance of empathic understanding, validation of support seekers' needs, attachment styles, and the emotional context for effective support provision; Complexities of Support Processes in Individual and Couple Well-Being, highlights the complex nature of support, presenting research on the effects of partner support on coping with stress, differential responses to daily support, and the importance of providing support for positive events; Support in the Context of Health-related Problems and Behaviors, is comprised of chapters describing the effects of support on health, illness, and injury; Finally, Culture and Gender presents research that explores the role of gender and culture in support processes in couples.

**Promoting Patient Engagement and Participation for Effective Healthcare Reform** Graffigna, Guendalina,2016-04-20 Industry professionals government officials and the general public often agree that the modern healthcare system is in need of an overhaul With organizations concerned with the long term care of patients new strategies practices and organizational tools must be developed to

optimize the current healthcare system Recent literature suggests that patient participation may be the ideal solution as patients and caregivers who are more actively involved in their healthcare experience better outcomes Promoting Patient Engagement and Participation for Effective Healthcare Reform outlines models that can be used to harness the power of patient involvement as a way to instill change in the healthcare industry This book features a convergence of healthcare professionals and scholars providing insights into the best practices of interventions and reform as well as practical applications to foster patient engagement and participation It is a useful reference source for healthcare providers students and professionals in the fields of nursing therapy and public health as well as managers and policy makers     Social Support, Well-being, and Teacher Development Bick-har LAM,2018-12-19 This book uses social support as a central theme to provide a sound underpinning for guiding teachers to play more supportive roles in schools It comprises a series of empirical studies that address the psychological processes involved in feeling supported and providing support and which demonstrate how students and teachers well being can be enhanced through learning and teaching in the classroom The distinction between teachers who are caring mentors and those who simply impart knowledge has attracted considerable interest among researchers however in the twenty first century education seems to be playing a more restricted role due to the predominant focus on performance outcomes This book addresses and identifies teachers expanding role in education It describes various types of support that teachers can offer students and which serve to enhance a range of learning outcomes Further it provides evidence suggesting that teachers commitment to learner development is a prerequisite for a satisfying teaching career and that teachers knowledge skills and ability to provide social support in the classroom form a pathway of professional learning that can take their teaching expertise to a higher level Lastly the book offers policymakers suggestions on how to rekindle social support in an increasingly globalised setting in which people are becoming more and more disconnected Given its multidisciplinary approach the book is a unique contribution within its subject area and will be of interest to practitioners in education and beyond     *Social and Interpersonal Dynamics in Pain* Tine Vervoort,Kai Karos,Zina Trost,Kenneth M. Prkachin,2018-07-18 This groundbreaking analysis moves our knowledge of pain and its effects from the biomedical model to one accounting for its complex psychosocial dimensions Starting with its facial and physical display pain is shown in its manifold social contexts in the lifespan in a family unit expressed by a member of a gender and or race and as observed by others These observations by caregivers and family are shown as vital to the social dynamic of pain as observers react to sufferers pain and as these reactions affect those suffering The book s findings should enhance practitioners understanding of pain to develop more effective individualized treatments for clients pain experience and inspire researchers as well Among the topics covered Why do we care Evolutionary mechanisms in the social dimension of pain When how and why do we express pain On the overlap between physical and social pain Facing others in pain why context matters Caregiving impact upon sufferers cognitive functioning Targeting individual and interpersonal processes in therapeutic

interventions for chronic pain Social and Interpersonal Dynamics in Pain will be a valuable resource for clinicians who deal in pain practice and management as well as for students and researchers interested in the social interpersonal and emotional variables that contribute to pain the processes with which pain is associated and the psychology of pain in general
