The Currency of Solidarity Vestert Borger,2020-10-08 In their fight against the debt crisis the European Union and its member states took measures that have profoundly changed the euro It now differs fundamentally from when it was introduced by the Treaty of Maastricht Surprisingly this change has come about with hardly any formal amendment to the Union s basic constitutional charter the Treaties How then to understand it This book argues that the constitution of the EU has transformed which occurs when constitutions change without amendment The transformation is characterized by a broadening of the currency union s stability conception from price stability to also financial stability Using solidarity as a lens the book conceptualises the unity of the member states and analyses how this was preserved during the crisis Subsequently it explains how that changed the currency union s set up and why the European Court of Justice could not turn against the change in Pringle and Gauweiler A Political Theology of the Bureaucratic State Steven T. Lane,2024-10-29 Liberal democracies of the twenty first century face the continuing economic tensions of globalization and the various populist political responses In A Political Theology of the Bureaucratic State Steven T Lane argues that a deeper problem exists

underneath the neoliberal system of contemporary democratic capitalism the bureaucratic state and the ways it deploys its sovereignty Yet these problems have received little attention from Christian political thinkers in the fields of ethics or political theology By bringing thinkers from across the academic disciplines from political philosophy and economics to biblical interpretation and public policy and using modern case studies related to public health and welfare state Lane address the foundational issues affecting liberal democracies and the claims to power they make against their citizens

#### **From Class to Race**

Charles Mills, 2003-11-19 In *From Class to Race* Charles Mills maps the theoretical route that brought him to the innovative conceptual framework outlined in his academic bestseller *The Racial Contract* 1997 Mills argues for a new critical theory that develops the insights of the black radical political tradition While challenging conventional interpretations of key Marxist concepts and claims the author contends that Marxism has been white insofar as it has failed to recognize the centrality of race and white supremacy to the making of the modern world By appealing to both mainstream liberal values and the structuralism traditionally associated with the left Mills asserts that critical race theory can radicalize the mainstream Enlightenment and develop a new kind of contractarianism that deals frontally with race and other forms of social oppression rather than evading them
