Transported to Botany Bay Dorice Williams Elliott, 2019-04-30 Literary representations of British convicts exiled to Australia were the most likely way that the typical English reader would learn about the new colonies there In Transported to Botany Bay Dorice Williams Elliott examines how writers from canonical ones such as Dickens and Trollope to others who were themselves convicts used the figure of the felon exiled to Australia to construct class race and national identity as intertwined Even as England's supposedly ancient social structure was preserved and venerated as the true England the transportation of some 168 000 convicts facilitated the birth of a new nation with more fluid class relations for those who didn't fit into the prevailing national image In analyzing novels broadsides and first person accounts Elliott demonstrates how Britain linked class race and national identity at a key historical moment when it was still negotiating its relationship with its empire The events and

incidents depicted as taking place literally on the other side of the world she argues deeply affected people's sense of their place in their own society with transnational implications that are still relevant today **Routledge International**

Handbook of Critical Policing Studies Nicole L. Asquith, Jess Rodgers, James Clover, Gary Corder, Angela Dwyer, Rishweena Ahmed, 2025-06-06 Critical analyses of policing have accompanied accounts of the police since the early days of modern police organisations More so than ever police and policing are subject to close and critical scrutiny from governments and the public It is timely therefore to consider what is critical about police and policing The Routledge International Handbook of Critical Policing Studies brings together scholars and practitioners to critically explore the full continuum of safety governance from police reforms to the redistribution of policing resources to the replacement of state police In offering the three Rs of policing reform redistribute replace we provide a conceptualisation of critical policing studies that acknowledges a continuum of policing that mirrors the different trajectories priorities and possibilities that exist across different cultural and historical contexts This collection is composed of 65 scholars and practitioners across 39 chapters edited by a team of police academics and policing scholars to showcase accounts of policing from outside the Anglo European metropole privileging works from First Nations people and from the Global South and presenting contextualised solutions to the problems facing police and communities This Handbook identifies the key issues facing the police and safety governance across the globe and offers insights into the implications for policing theory and practice proposing solutions to some of the most intransigent problems facing contemporary societies Individually and as a collection this Handbook will be an essential read for scholars practitioners and activists alike Personality and Dangerousness

David McCallum, 2001-09-06 In the aftermath of the Port Arthur shootings Dunblane or the schoolyard killings in America communities try to come to terms with private and public trauma and there is a need to understand what kind of person can commit such terrible acts The problem of how to understand dangerousness often centres on the role of the mental health and criminal justice systems and it is from the intersection of these two institutions that the categorisation of dangerous persons has emerged This 2001 book traces the history of the category of antisocial personality disorder and shows how it is linked to particular kinds of governing It examines key legal and institutional developments in Australia the UK and the US and also parallel developments within psychiatry and psychological medicine Applying a social theoretical analysis to this material McCallum challenges our assumptions about the formation and control concepts of dangerousness and personality
