Social Inequalities Health And Health Care Delivery:

Social Inequalities, Health and Health Care Delivery Jennie J. Kronenfeld, 2002 Over the past decade much sociological research has examined some of the links between social status and health status The results show how higher childhood status predicts better health and lower mortality rates throughout adulthood *Health and Health Care Inequities, Infectious Diseases and Social Factors* Jennie Jacobs Kronenfeld, 2022-03-28 This next volume in Research in the Sociology of Health Care covers a variety of important social factors and their relationship to health and health care inequities both in the United States and the rest of the world

Social Determinants, Health Disparities and Linkages to Health and Health Care Jennie Jacobs Kronenfeld, 2013-09-23 This volume looks at the key links between social determinants health disparities and health and health care There is a particular focus on macro level systems and micro level issues including the examination of issues for patients carers and providers of care *Social Factors, Health Care Inequities and Vaccination* Jennie Jacobs Kronenfeld, 2023-08-28 Employing a sociological and broader social sciences approach this volume draws on a variety of contexts including the COVID 19 pandemic to explore wider trends in healthcare and the impact they may have on historically disadvantaged communities *Issues in Health and Health Care Related to Race/Ethnicity, Immigration, SES and Gender* Jennie Jacobs Kronenfeld, 2012-09-03 The 30th Anniversary volume of Research in the Sociology of Health Care looks at the important links between major social factors and health and health care The four main factors analysed in the book are race ethnicity immigration Socioeconomic Status SES and gender *Impact of Demographics on Health and Healthcare* Jennie Jacobs Kronenfeld, 2010-09-30 Focuses on differences in health and health care as linked to important social factors This title includes six articles looking at racial disparities on a variety of topics such as knowledge of hepatitis C Virus health services received and patients experiences in seeking health care use of CAM services and more

Health Systems, Health Services and Inequality in Population Health Peter P. Groenewegen, Ilmo Keskimäki, Alastair H. Leyland, 2025-10-29 This open access book shows the scientific and policy added value of combining health systems health services and population health research In doing so the authors create awareness among researchers to look beyond the boundaries of their own discipline and promote cross disciplinary collaboration The book also gives an overview of what is known in the scientific literature about the relationships between the structure of health systems health service provision and utilisation and inequalities in population health Health inequalities are unjust and avoidable and as a focus of health policy in many governments are widely studied in public health research But studies of health inequalities too often ignore the role that health systems and health services play in the production of inequalities in population health and as a consequence their potential to create or reduce inequalities in health Studies of inequalities in health often incorporate the social determinants of health The same societal structures that form the social determinants of health also determine the health system structure and their impact on access to and the provision of health services and the

benefits of health service use to patients with different socioeconomic backgrounds This means that attempts to reduce health inequalities by addressing the social determinants of health must also consider the potential pathway through the health system and the provision of health services In the final chapter the authors discuss ways of breaking down the barriers between the three approaches After reading this compact volume researchers will be more aware of the theoretical and methodological approaches in the three areas and more inclined to look beyond the boundaries of their own discipline Health Systems Health Services and Inequality in Population Health is essential reading for researchers in health systems research health services research and population health research In addition the brief is relevant for health policy researchers health impact researchers health economists epidemiologists public health practitioners and professionals in health services planning and management

OECD Health Policy Studies Health for Everyone? Social Inequalities in Health and Health Systems OECD,2019-09-27 Good health is a key component of people s well being It is a value in itself but through its influence on social education and labour market outcomes being in good or bad health has also wider implications on people s chances of leading a fulfilling and productive life Yet even in the OECD countries health inequality persists with severe consequences on the goal of promoting inclusive growth This report documents a comprehensive range of inequalities in health and health systems to the detriment of disadvantaged population groups in a large set of OECD and EU countries

Race, Ethnicity, Gender and Other Social Characteristics as Factors in Health and Health Care Disparities Jennie Jacobs Kronenfeld,2020-09-28 This volume investigates race ethnicity and gender as factors in health and health care Chapters focus on linkages to health disparities among races health experiences for incarcerated women and issues of hospital and health care spending

Access To Care and Factors That Impact Access, Patients as Partners In Care and Changing Roles of Health Providers Jennie Jacobs Kronenfeld,2011-10-08 Part of the Research in the Sociology of Health Care series this title deals with both macro level system issues and micro level issues involving access to care factors that impact access patients as partners in care and changing roles of health providers
