Social Movements In France Towards A New Citizenship:

Social Movements in France S. Waters, 2003-07-24 Contemporary France has witnessed a rise of new forms of social movement mobilising around new causes and articulating changing demands Sarah Waters examines the new generation of movements in the last decade from anti racism and the movement of the unemployed to solidarity or the associations of the Sans She argues that emerging movements share a profoundly civic dimension these are movements about rights and are concerned with who has rights and what those rights are They manifest a desire to reinvent citizenship in the present day in relation to a new set of social struggles and conflicts **French Politics, Society and Culture** Robert Elgie, 2003-01-01

European Social Movements and Muslim Activism Timothy Peace, 2015-07-20 How do progressive social movements deal with religious pluralism In this book Timothy Peace uses the example of the alter globalisation movement to explain why social movement leaders in Britain and France reacted so differently to the emergence of Muslim activism *France, Social Capital and Political Activism* F. Vassallo, 2010-01-27 This book deals with the theme of political participation in France focusing on conventional and unconventional forms of political activism over the last three decades Measures of social integration and political involvement are used to question the validity of social capital theory **5/1/1968** J. Jackson, A. Milne, J. Williams, 2011-08-26 The events of 1968 are often seen purely as a student revolution but impacted on every aspect of French society theatre film sexuality race the countryside the factories This volume explores the full diversity of this extraordinary upheaval and shows how 1968 continues to reverberate in France today **The Radical Left Party Family in Western Europe, 1989-2015** Paolo Chiochetti, 2016-10-04 This book provides an innovative analysis and interpretation of the overall trajectory of the Western European radical left from 1989 to 2015 After the collapse of really existing communism this party family renewed itself and embarked on a recovery path seeking to fill the vacuum of representation of disaffected working class and welfarist constituencies created by the progressive neoliberalisation of European societies The radical left thus emerged as a significant factor of contemporary political life but despite some electoral gains and a few recent breakthroughs SYRIZA in Greece PODEMOS in Spain it altogether failed to embody a credible alternative to neoliberalism and to pave the way for a turn to a different developmental model This book investigates why this was the case combining aggregate 17 countries case study Germany Italy and France and comparative methods It accurately charts the evolution of the nature strength cohesion and influence of the Western European radical left offering new insights in explaining its behaviour success and limits It is essential reading for scholars students and activists interested in the radical left and in contemporary European politics *The End of the French Exception?* T. Chafer, E. Godin, 2010-06-01 Analyzes the notion of the French exception and the ways in which it has informed both academic analysis and political commentary on France today Adopting a comparative and interdisciplinary approach it examines the resilience of the notion of French exceptionalism and evaluates its relevance in a changing domestic and global context **Memories of 1968** Ingo

Cornils, Sarah Waters, 2010 Some years figure more keenly in the collective memory than others This volume explores how 1968 has come to be perceived in France Germany Italy U S Mexico China how various national preoccupations with order political violence individual freedom youth culture self expression have been reflected **French Presidential Elections**

M. Lewis-Beck, R. Nadeau, É. Bélanger, 2012-01-06 An original and comprehensive study of the sociological and psychological forces driving individual choices in French Presidential elections Based on a unique comparative analysis of four French presidential contests over the last two decades this book presents a rigorous examination of long term and short term voter motivations *The Sarkozy Presidency* G. Raymond, 2013-02-18 Sarkozy came to power promising radical political and social change while simultaneously developing a presidential persona that melded the public and the personal under the glare of media attention unparalleled in the French Fifth Republic This volume provides a detailed analysis of the fit between his ambitions and the outcomes of his presidency **The 2012 French Presidential Elections** J. Evans, G. Ivaldi, 2013-11-21 Was the victory of François Hollande the Socialist challenger to Nicolas Sarkozy inevitable in the 2012 French Presidential elections This book argues that a combination of economic downturn policy choices and personal unpopularity meant that the Right wing incumbent faced an almost impossible task in holding onto power for another five years **Contemporary French Cultures and Societies** Frédéric Royall, 2004 An interdisciplinary collection of writings on various aspects of change in contemporary French speaking society spanning the broad fields of politics and society arts and culture the French language and francophone literatures *Reinventing France* S. Milner, N. Parsons, 2003-11-25 Undermined from above by economic globalization and European integration and from below by the rise of identity politics the French state has attempted to redefine its relationship to its citizens Reinventing France examines the ways in which state action has endeavoured to promote social integration in an increasingly fragmented nation and has challenged traditional concepts of an indivisible Republic and universal citizenship rights in order to achieve the core republican ideals of freedom equality and solidarity *The French Communist Party During the Fifth Republic* Gino G. Raymond, 2005-08-10 The demise of the French Communist Party PCF has been a recurrent feature of overviews of the Left in France for the past two decades and yet the Communists survive This study examines the factors that undermined the position of the PCF as the premier party of France but also highlights the challenges that the party faces in a society disillusioned with politics and the new strategies that it is developing in order to revive its fortunes *The Presidents of the French Fifth Republic* D. Bell, J. Gaffney, 2013-01-29 In the French Republic political leadership is normally provided by the presidency albeit from a very narrow constitutional base This volume examines the strengths and weaknesses of that leadership as well as the way that executive power has been established in the republican context **How To Do Politics With Art** Violaine Roussel, Anurima Banerji, 2016-10-26 A major issue in the relation of art to the rest of society is the question of how art penetrates politics From the perspective of most art scholars this is a question of aesthetics whether politics necessarily pollutes and debases

the quality of the arts From the perspective of social science it has been primarily a question of meaning how political messages are conveyed through artistic media Recent work has begun to broaden the study of the arts and politics beyond semiosis and content focus Several strands of scholarship are converging around the general issue of the social relationships within which art takes political form that is how art and artists do politics This perspective of doing moves analysis beyond addressing the meaning of culture to focus on the ways that art is embedded in and intervenes in social relationships activities and institutions This volume brings together an interdisciplinary group of scholars from France and the United States to investigate these directions and themes by exploring the question of how to do politics with art from a comparative standpoint putting sociological approaches in conversation with other disciplinary prisms It will be of interest to scholars of social movements and politicization the sociology of art art history and aesthetics *Politicians, Bureaucrats and Leadership in Organizations* J. Burnham, 2009-04-28 This is the first book in English on the French agency DATAR DIACT that has been the envy of regional planners worldwide It sheds new light on political leadership in a bureaucracy and demonstrates convincingly the impact of political leaders on institutions It is a study of France with lessons for other political and administrative systems *The Senate of the Fifth French Republic* P. Smith, 2009-10-21 Paul Smith examines how the Senate has attempted since 1958 to locate itself within the French semi presidential system how it asserts its place in relation to the President Government and National Assembly and how it has sought in recent years to develop an autonomous and particular sense of identity **Bourdieu's Politics** Jeremy F. Lane, 2006-11-22 In the last decade of his career the French sociologist Pierre Bourdieu became involved in a series of high profile political interventions defending the cause of striking students and workers speaking out in the name of illegal immigrants the homeless and the unemployed challenging the incursion of the market into the field of artistic and intellectual production The first sustained analysis of Bourdieu's politics this study seeks to assess the validity of his claims as to the distinctiveness and superiority of his own field theory as a tool of political analysis **The Oxford Handbook of Governance** David Levi-Faur, 2012-03-29 This Oxford Handbook will be the definitive study of governance for years to come Governance has become one of the most popular terms in contemporary political science this Handbook explores the full range of meaning and application of the concept and its use in a number of research fields
