In sociology, agents of socialization refer to the individuals, groups, institutions, and experiences that facilitate the socialization process. Agents of socialization can be classified into primary and secondary agents.

## PRIMARY AGENTS

Primary agents of socialization are the individuals and groups that have the most direct and sustained contact with an individual during their formative years. The family is the primary agent of socialization, as it is the first and most influential group to socialize an individual. Family members teach children basic social norms, values, language, manners, and social conduct.

## SECONDARY AGENTS

Secondary agents of socialization are the individuals, groups, and institutions, that individuals encounter later in life, after their primary socialization has occurred. They include: peers, education, media, and religion. Peers are a significant influence on socialization, especially during adolescence.
