## **Social Research In The Judicial Process:**

**Social Research in the Judicial Process** Wallace D. Loh, 1984-09-17 How to inform the judicial mind Justice Frankfurter remarked during the school desegregation cases is one of the most complicated problems Social research is a potential source of such information Indeed in the 1960s and 1970s with activist courts at the forefront of social reform the field of law and social science came of age But for all the recent activity and scholarship in this area few books have attempted to create an intellectual framework a systematic introduction to applied social legal research Social Research in the Judicial Process addresses this need for a broader picture Designed for use by both law students and social science students it constructs a conceptual bridge between social research the realm of social facts and judicial decision making the realm of social values Its unique casebook format weaves together judicial opinions empirical studies and original text It is a process oriented book that teaches skills and perspectives cultivating an informed sensitivity to the use and misuse of psychology social psychology and sociology in appellate and trial adjudication Among the social legal topics explored are school desegregation capital punishment jury impartiality and eyewitness identification This casebook is remarkable for its scope its accessibility and the intelligence of its conceptual integration It provides the kind of interdisciplinary teaching framework that should eventually help lawyers to make knowledgeable use of social research and social scientists to conduct useful research within a legally sophisticated context *Language in the Judicial Process* Judith N. Levi, Anne Graffam Walker, 2013-11-11 Legal realism is a powerful jurisprudential tradition which urges attention to social conditions and predicts their influence in the legal process The relatively recent social science in the law phenomenon in which social research is increasingly relied on to decide court cases is a direct result of realistic jurisprudence which accords much significance in law to empirical reports about social behavior The empirical research used by courts has not however commonly dealt with language as an influential variable This volume of essays coedited by Judith N. Levi and Anne Graffam Walker will likely change that situation *Language in the Judicial Process* is a superb collection of original work which fits well into the realist tradition and by focusing on language as a key variable it establishes a new and provocative perspective on the legal process The perspective it offers and the data it presents make this volume a valuable source of information both for judges and lawyers who may be chiefly concerned with practice and for legal scholars and social scientists who do basic research about law **The Judicial Process** Christopher P. Banks, David M. O'Brien, 2015-02-19 The Judicial Process Law Courts and Judicial Politics is an all new concise yet comprehensive core text that introduces students to the nature and significance of the judicial process in the United States and across the globe It is social scientific in its approach situating the role of the courts and their impact on public policy within a strong foundation in legal theory or political jurisprudence as well as legal scholarship Authors Christopher P. Banks and David M. O'Brien do not shy away from the politics of the judicial process and offer unique insight into cutting edge and highly relevant issues In its distinctive boxes Contemporary

Controversies over Courts and In Comparative Perspective the text examines topics such as the dispute pyramid the law and morality of same sex marriages the hardball politics of judicial selection plea bargaining trends the right to counsel and pay as you go justice judicial decisions limiting the availability of class actions constitutional courts in Europe the judicial role in creating major social change and the role lawyers juries and alternative dispute resolution techniques play in the U S and throughout the world Photos cartoons charts and graphs are used throughout the text to facilitate student learning and highlight key aspects of the judicial process      **Social Science Methods in the Legal Process** Noreen L. Engaging Displaced Populations in a Future Syrian Transitional Justice Process Grace Mieszkalski, Benjamin Zyla, 2021-08-23 This book offers an analysis of a prospective transitional justice process in Syria As the Syrian conflict enters into its tenth year this book asks how the sustained human rights violations and war crimes could possibly be addressed in a post conflict setting particularly in the context of the widespread displacement crisis Despite a recent movement in scholarship toward bottom up peacebuilding approaches and participatory transitional justice models the transitional justice and local peacebuilding nexus remains under theorized particularly as it relates to the engagement of displaced populations This book seeks to address this gap through the conceptualization of a locally driven transitional justice process for Syria that is founded on the integration of refugees and displaced populations Through offering a series of policy recommendations on how to implement such a process it aims to make a contribution to building a bridge of exchange between the policy practitioner world and the academy in this area of study
