was radically altered by the Depression and whose photography helped transform the nation The book begins with her childhood in immigrant metropolitan New York shifting to her young adulthood as a New Woman who apprenticed herself to Manhattan s top photographers then established a career as portraitist to San Francisco s elite When the Great Depression shook America s economy Lange was profoundly affected Leaving her studio Lange confronted citizens anguish with her camera documenting their economic and social plight This move propelled her to international renown This biography synthesizes recent New Deal scholarship and photographic history and probes the unique regional histories of the Pacific West the Plains and the South Lange s life illuminates critical transformations in the U S specifically women s evolving social roles and the state s growing capacity to support vulnerable citizens The author utilizes the concept of care work the devalued nurturing of others often considered women s work to analyze Lange s photography and reassert its power to provoke social change Lange s portrayal of the Depression s ravages is enmeshed in a deeply political project still debated today of the nature of governmental responsibility toward citizens basic needs Students and the general reader will find this a powerful and insightful introduction to Dorothea Lange her work and legacy Dorothea Lange Documentary Photography and Twentieth Century America makes a compelling case for the continuing political and social significance of Lange s work as she recorded persistent injustices such as poverty labor exploitation racism and environmental degradation **Milton Rogovin** Melanie Herzog, Milton Rogovin, University of Arizona. Center for Creative Photography, 2006 Milton Rogovin celebrates the non celebrated the ones who make the world go round These words spoken by prize winning author Studs Terkel are a fitting lens through which to view the work of Milton Rogovin optometrist political activist and photographer Milton Rogovin The Making of a Social Documentary Photographer chronicles the story behind that life and the man behind the acclaimed photographs that invite us to see for the first time or to see anew the tenacity profound dignity and resilience of people living in extremely difficult circumstances Born in New York in 1909 to a Russian Jewish immigrant family Rogovin was radicalized by the widespread deprivations he witnessed and experienced during the Depression and he dedicated himself to working for social and economic justice After military service in World War II he began an optometry practice in Buffalo and he and his wife became active politically engaging in union organizing and voter registration in Buffalo s African American community His activism led him to be called before the House Committee on Un American Activities and after refusing to testify he was dubbed Buffalo s Number One Communist Much of his optometry clientele vanished but as he would realize there was also a positive result to the attacks His political voice silenced he turned to photography as a way to speak about social inequities In the years that have followed Rogovin has devoted himself to chronicling the lives of people in New York Appalachia Scotland Cuba Zimbabwe Mexico France Czechoslovakia Spain Germany and China Scholar Melanie Herzog locates Rogovin within a tradition of social documentary photography that began when nineteenth and early twentieth century sociologists took up the camera or more often enlisted the service of photographers to advocate for social

reform through visual representations of the plight of the poor But while Rogovin s work is undoubtedly political he does not romanticize his subjects or seek to portray them as victims or heroes he seeks simply to convey the effects of material reality on people and their agency to show how people live in relation to social conditions This richly illustrated retrospective features Rogovin s own narrative of his development and life as a documentary photographer amplified by an account of the historical events and circumstances that shaped his politics and social consciousness Milton Rogovin has dedicated his life s work as an optometrist an activist and a photographer to enabling people to see more clearly His photographs demand witness and to witness is to see For more information go to <http://www.miltonrogovin.com>      **Photography and the USA**

Mick Gidley,2010-11-15 From Ansel Adams to Carleton Watkins Diane Arbus to Weegee Richard Avedon to James VanDerZee American photographers have recorded their vast multicultural nation in images that for more than a hundred years have come to define the USA In *Photography and the USA* Mick Gidley explores not only the medium of photography and the efforts to capture key events and moments through photographs but also the many ways in which the medium has played a formative role in American culture *Photography and the USA* encompasses the major movements figures and works that are crucial to understanding American photography but also pays attention to more obscure aspects of photography s history Focusing on works that reveal many different facets of America its landscapes and its people Gidley explores the ambiguities of American history and culture We encounter images that range from an anti lynching demo in 1934 to Dorothea Lange s poster *All races serve the crops in California* an early photographic view of Niagara Falls against the painstaking detail of Edward Weston s *Pepper No 30* a fireman s fight in the San Francisco earthquake of 1906 to the Ground Zero images of 2001 by Joel Meyerowitz an 1890s *Wanted* image to Elliot Erwitt s shot of the Nixon Kruschchev Kitchen Debate Organizing his narrative around the themes of history technology the document and the emblem Mick Gidley not only presents a history of photography but also reveals the complexities inherent in reading photographs themselves A concise yet comprehensive overview of photography in the United States this book is an excellent introduction to the subject for American Studies or visual arts students or for anyone interested in US history or culture      **Witness in Our Time, Second Edition** Ken

Swensen,2015-10 As time passes personal memories of the Great Depression die with those who lived through the desperate 1930s In the absence of firsthand knowledge John Steinbeck s *The Grapes of Wrath* and the photographs produced for the New Deal s Farm Security Administration FSA now provide most of the images that come to mind when we think of the 1930s That novel and those photographs as this book shows share a history Fully exploring this complex connection for the first time *Picturing Migrants* offers new insight into Steinbeck s novel and the FSA s photography and into the circumstances that have made them enduring icons of the Depression Looking at the work of Dorothea Lange Horace Bristol Arthur Rothstein and Russell Lee it is easy to imagine that these images came straight out of the pages of *The Grapes of Wrath* This should be no surprise James R Swensen tells us because Steinbeck explicitly turned to photographs of the period to create his visceral narrative of hope and loss among Okie migrants in search of a better life in California When the novel became an instant best seller upon its release in April 1939 some dismissed its imagery as pure fantasy Lee knew better and traveled to Oklahoma for proof The documentary pictures he produced are nothing short of a photographic illustration of the hard lives and desperate reality that Steinbeck so vividly portrayed In *Picturing Migrants* Swensen sets these lesser known images alongside the more familiar work of Lange and others giving us a clearer understanding of the FSA s work to publicize the plight of the migrant

in the wake of the novel and John Ford's award winning film adaptation *A New Perspective* on an era whose hardships and lessons resonate to this day *Picturing Migrants* lets us see as never before how a novel and a series of documentary photographs have kept the Great Depression unforgettably real for generation after generation *Building the Body Politic* Margaret E. Farrar, 2008 Power language and urban planning politics in Washington D C *The Bonds Between Us*, 2001 Portraits of families from around the world by this acclaimed documentary photographer Seventy duotones portray people acclaimed documentary photographer Milton Rogovin met as he traveled the world These are not glitzy celebrities seen in magazines they are common people both working class and poor for whom family is true wealth Taken over five decades Rogovin rather than taking candid shots or placing his subjects in a formal pose let them determine how they would be photographed What was created was an intimate window on their lives that revealed how they wanted to be perceived and recorded for posterity Milton Rogovin's photographs are in many major collections and his archives were recently acquired by the Library of Congress A true national treasure Rogovin now in his ninth decade received the W Eugene Smith Memorial Award in 1983 *Encyclopedia of Twentieth-Century Photography, 3-Volume Set* Lynne Warren, 2005-11-15 The *Encyclopedia of Twentieth Century Photography* explores the vast international scope of twentieth century photography and explains that history with a wide ranging interdisciplinary manner This unique approach covers the aesthetic history of photography as an evolving art and documentary form while also recognizing it as a developing technology and cultural force This *Encyclopedia* presents the important developments movements photographers photographic institutions and theoretical aspects of the field along with information about equipment techniques and practical applications of photography To bring this history alive for the reader the set is illustrated in black and white throughout and each volume contains a color plate section A useful glossary of terms is also included *Making Connections* Margaret Walsh, 2017-05-15 This book argues that legal persuasion results from making and breaking mental connections To support this argument it follows a cognitive science roadmap while the authors road test the directions through rhetorical analysis By taking a rhetorical approach to persuasion the authors are able to integrate research from cognitive science with classical and contemporary rhetorical theory and then to apply both to the taking apart and the putting together of effective legal arguments The combination of rhetorical analysis and cognitive science yields a new way of seeing and understanding legal persuasion one that promises theoretical and practical gains The work has three main functions First it brings together the leading models of persuasion from cognitive science and rhetorical theory blurring boundaries and leverage connections between the often separate spheres of science and rhetoric Second it illustrates this persuasive synthesis by working through concrete examples of persuasion from real life legal contexts In this way the book demonstrates the advantages of a deeper and more nuanced understanding of persuasion Third the volume assesses and explains why how and when certain persuasive methods and techniques are more effective than others The book is designed to appeal to scholars in law rhetoric persuasion science and

psychology to students learning the practice of law and to judges and practicing lawyers who engage in persuasion
