Socialism In Russia Lenin And His Legacy 1890 1991:

Socialism in Russia J. Gooding, 2001-12-03 This book asks three fundamental questions about the socialist experiment in twentieth century Russia How did Marxist ideas come to be implemented in Russia a country entirely unsuited to them Why did the experiment lead to such suffering and upheaval and prove so fruitless And why did the attempt to return to a proper Marxism Leninism bring about the rapid collapse of the experiment In its answers this book pays special attention to the shadow cast by Lenin throughout the entire Soviet era **Revolution, Democracy, Socialism** V. I. Lenin, 2008-09-20 Part of Pluto's 21st birthday series Get Political which brings essential political writing in a range of fields to a new audience This is an entirely new collection of Lenin's writing For the first time it brings together crucial shorter works to show that Lenin held a life long commitment to freedom and democracy Le Blanc has written a comprehensive introduction which gives an accessible overview of Lenin's life and work and explains his relevance to political thought today Lenin has been much maligned in the mainstream accused of viewing man as modeling clay and of social engineering of the most radical kind However in contrast to today's world leaders who happily turn to violence to achieve their objectives Lenin believed it impossible to reach his goals by any other path than that of political democracy This collection will be of immense value to students encountering Lenin for the first time and those looking for a new interpretation of one of the 20th century's most inspiring figures Historical Dictionary of Socialism Peter Lamb, 2024-02-20 Socialism has been an influential force for social change for almost two centuries Its philosophy and ideology have inspired millions while simultaneously arousing fear and revulsion in its enemies Having emerged after the French Revolution in the effort to build upon and develop the egalitarian ideas of the Enlightenment socialism has taken many forms It has furthermore sometimes been manipulated and reformulated by opportunists who have built authoritarianism and totalitarian dictatorships in its name Opponents seize on such examples to frighten away people who may otherwise have found socialism attractive Socialism has survived such criticism and misrepresentation as its core principles have struck a chord with generations of people concerned with social justice Historical Dictionary of Socialism Fourth Edition contains a chronology an introduction a glossary and an extensive bibliography The dictionary section has over 500 cross referenced entries on activists politicians political thinkers political parties and organizations and key topics concepts and aspects of socialist theory This book is an excellent access point for students researchers and anyone wanting to know more about socialism AQA A-level History: Tsarist and Communist Russia 1855-1964 Chris Corin, Terry Fiehn, 2015-07-31 Exam Board AQA Level AS A level Subject History First Teaching September 2015 First Exam June 2016 AQA approved Enhance and expand your students knowledge and understanding of their AQA breadth study through expert narrative progressive skills development and bespoke essays from leading historians on key debates Builds students understanding of the events and issues of the period with authoritative well researched narrative that covers the specification content Introduces the key concepts of change continuity cause and consequence

Socialism Betrayed Roger Keeran, Thomas Kenny, 2010-10-20 A fresh multi faceted look at the overthrow of the Soviet State the dismemberment of the Soviet Union and the campaign to introduce capitalism from above Roger Keeran and Thomas Kenny have given us a clear and powerful Marxist analysis of the momentous events which most directly shaped world politics today the destruction of the USSR the Superpower of socialism Norman Markowitz author of *The Rise and Fall of the People s Century* I have not read anything else with such detailed and intimate knowledge of what took place This manuscript is the most important contribution I have read Phillip Bonosky author of *Afghanistan Washington s Secret War* A well researched work containing a great deal of useful historical information Everyone will benefit greatly from the mass of historical data and the thought provoking arguments contained in the book Bahman Azad author of *Heroic Struggle Bitter Defeat Factors Contributing to the Dismantling of the Socialist State in the USSR* **Lenin's Terror** James Ryan, 2012 This book explores the development of Lenin s thinking on violence throughout his career from the last years of the Tsarist regime in Russia through to the 1920s and the New Economic Policy and provides an important assessment of the significance of ideological factors for understanding Soviet state violence as directed by the Bolshevik leadership during its first years in power It highlights the impact of the First World War in particular its place in Bolshevik discourse as a source of legitimating Soviet state violence after 1917 and explains the evolution of Bolshevik dictatorship over the half decade during which Lenin led the revolutionary state It examines the militant nature of the Leninist worldview Lenin s conception of the revolutionary state the evolution of his understanding of dictatorship of the proletariat and his version of just war The book argues that ideology can be considered primarily important for understanding the violent and dictatorial nature of the early Soviet state at least when focused on the party elite but it is also clear that ideology cannot be understood in a contextual vacuum The oppressive nature of Tsarist rule the bloodiness of the First World War and the vulnerability of the early Soviet state as it struggled to survive against foreign and domestic opponents were of crucial significance The book sets Lenin s thinking on violence within the wider context of a violent world Sovietology in Post-Mao China Jie Li, 2023-02-13 The breakup of the Union of Soviet Socialist Republics USSR in 1991 had significant repercussions on Chinese politics foreign policy and other aspects In this book Jie Li examines the evolution of Chinese intellectual perceptions of the Soviet Union in the 1980s and 1990s before and after the collapse Relying on a larger body of updated Chinese sources Li re evaluates many key issues in post Mao Chinese Sovietology arguing that the Chinese views on the Soviet Union had been influenced and shaped by the

ups and downs of Sino Soviet and later Sino Russian relations China's domestic political climate and the political developments in Moscow By researching the country of the Soviet Union Chinese Soviet watchers did not focus on the USSR alone but mostly attempted to confirm and legitimize the Chinese state policies of reform and open door in both decades By examining the Soviet past Chinese scholars not only demonstrated concern for the survival of the CCP regime but also attempted to envision the future direction and position of China in the post communist world The Encyclopedia of the Industrial Revolution in World History Kenneth E. Rediscovering Lenin

Michael Brie, 2019-07-31 Translated from the original German Lenin Neuentdecken and available in English for the first time this volume rediscovers Lenin as a strategic socialist thinker through close examination of his collected works and correspondence Brie opens with an analysis of Lenin's theoretical development between 1914 and 1917 in preparation for his critical decision to dissolve the Constituent Assembly in January 1918 in a struggle for power This led from the dialectics of revolutionary practice and social analysis to a new understanding of socialism which is compared and contrasted to the alternative Marxist ideas and conceptions of the state posited by Karl Kautsky and Rosa Luxemburg Rediscovering Lenin then moves to 1921 when Lenin begins a new stage of his theoretical development concerned with resolving the reversal of the revolution's aims and its results This process remains unfinished and the questions raised a hundred years ago remain How can one intervene successfully and responsibly in social and political crises What role do social science theories ideological frameworks and other practices play in transforming the economic political and cultural power structures of a society Brie concludes with a retrospective on the ideas developed by Marx and in the Second International and their impact on Lenin's strategic thinking Placing Lenin's writing itself in the foreground and arguing from inside his own self-learning Rediscovering Lenin focuses on the reflective relationship between ideology theory and practice
