Sociedad Sitiada:

La sociedad sitiada Bauman, Zygmunt, 2023-10-21 El Estado nació y la sociedad actual enfrentan un doble problema el de la globalización y el de la biodiversidad ambas minan las fronteras que la modernidad ha considerado s lidas e infranqueables Las instituciones políticas confinadas territorialmente son incapaces de hacer frente a la extraterritorialidad y al libre flujo de las finanzas el capital y el comercio Frente a esto la sociología debe modificar los marcos conceptuales que dieron cuenta de la modernidad para elaborar modelos que expliquen las nuevas experiencias humanas

Empowering citizenship through journalism, information, and entertainment in Iberoamerica, 2009 **Fear and Crime in Latin America** Lucía Dammert, 2012 The feeling of insecurity is a little known phenomenon that has been only partially explored by social sciences However it has a deep social cultural and economic impact and may even contribute to define the very structures of the state In Latin America fear of crime has become an important stumbling block in the region's process of democratization After long spells of dictatorships and civil wars violence in the region was supposed to be under control yet crime rates have continued to skyrocket and citizens remain fearful This analytical puzzle has troubled researchers and to date there is no publication which explores this problem Based on a wealth of cutting edge qualitative and quantitative research Lucía Dammert proposes a unique theoretical perspective which includes a sociological criminological and political analysis to understand fear of crime She describes its linkages to issues such as urban segregation social attitudes institutional trust public policies and authoritarian discourses in Chile's recent past Looking beyond Chile Dammert also includes a regional comparative perspective allowing readers to understand the complex elements underpinning this situation Fear and Crime in Latin America challenges many assumptions and opens an opportunity to discuss an issue that affects everyone with key societal and personal costs As crime rates increase and states become even more fragile fear of crime as a social problem will continue to have an important impact in Latin America

El derecho a la vivienda.

Reflexiones en un contexto socioeconómico complejo González Ordovás, María José, 2013-10-29 El que sabe s lo de Derecho tampoco sabe de Derecho podría decirse aplicando al ámbito jurídico lo que Lichtenberg dijera respecto a la química en el siglo XVIII Y es que sin la inclusión de consideraciones políticas sociológicas y económicas una análisis sobre el derecho a la vivienda no podrá ir más allá de presentar una necesaria pero limitada recopilación de las normas nacionales e

internacionales que rigen la materia En la medida en que la finalidad de este libro no es otra que la de aportar las principales claves para comprender la situaci n actual del derecho a la vivienda en nuestro pa s as como las causas que la han motivado se opta por abordar aqu la cuesti n desde y con una perspectiva jur dica complementada por apuntes interdisciplinarios Por otro lado el crecimiento urbano derivado de una determinada interpretaci n del derecho a la vivienda ocupa un lugar propio en este trabajo Tampoco aqu existen l mites herm ticos entre Derecho Pol tica y Econom a Tambi n aqu la realidad transversalidad Una de las cuestiones a tratar es si con los valores y principios vigentes es posible otro tipo de urbanismo que permita una mayor eficacia del art culo 47 de la Constituci n Espa ola
