

Society and Deviance in Communist Poland: Attitudes Towards Social Control

Kwasniewski, Jerzy

Note: This is not the actual book cover

Society And Deviance In Communist Poland

Scott C. Dulebohn

Society And Deviance In Communist Poland:

Society and Deviance in Communist Poland Jerzy Kwaśniewski, 1984 *The End of Communist Power* Leslie Holmes, 1993 Account of the collapse of the communist ruled states Analyses the nature of the legitimization crisis that developed following the failure of the economic reforms of the 1960s and 1970s and considers the role of official corruption and anti corruption campaigns Includes a bibliography and an index The author is Professor of Political Science at the University of Melbourne **Crime and Social Control in Central-Eastern Europe** Aleksandar Fatic, 2018-12-17 First published in 1997 This work provides a criminological introduction to the current situation of criminal justice systems in the politically changing Central Eastern Europe after 1989 It explores concrete problems which the countries are facing such as the release of political prisoners and those sentenced excessively under the communist regime The concluding part illuminates the case studies in the previous sections from the point of view of their possible interaction into a cohesive and coherent criminological discipline *Webs of Resistance in a Newly Privatized Polish Firm* Jennifer Lynn Roney, 2000 This study examines how the shared cultural values of employees in a Polish firm influenced management attempts to transform organizational practices in a newly privatized factory By introducing a foreign management approach Total Quality Management TQM the management of this factory presents a potential conflict of values between the employees and the management philosophy Tracing the historical and contemporary impact of traditional political and religious influences in Poland and utilizing ethnographic techniques of observation interviews and secondary source data the author identifies four patterns of shared mindsets These mindsets insecurity and instability distrust reluctance to assume responsibility and a struggle between individualism and collectivism generate resistance to the successful implementation of TQM in this factory Organizational studies research has identified cultural differences in values but previous studies have not examined the congruence assessment that employees make when confronted with a management intervention such as TQM The author finds that an incongruence between societal values and the values the employees perceive are embedded in the TQM approach produced actual outcomes that are not consistent with TQM objectives of empowerment teamwork visionary leadership and continuous improvement of quality Employees demonstrated a reduced sense of empowerment team goals that are counterproductive to organizational goals autocratic leadership and an increased focus but not sustainable effort toward improving quality The book examines the reasons for these results through detailed description and extensive quotations from employees both inside the Polish firm and throughout Polish society [Crime, Shame and Reintegration](#) John Braithwaite, 1989-03-23 Crime Shame and Reintegration is a contribution to general criminological theory Its approach is as relevant to professional burglary as to episodic delinquency or white collar crime Braithwaite argues that some societies have higher crime rates than others because of their different processes of shaming wrongdoing Shaming can be counterproductive making crime problems worse But when shaming is done within a cultural context of respect for the

offender it can be an extraordinarily powerful efficient and just form of social control Braithwaite identifies the social conditions for such successful shaming If his theory is right radically different criminal justice policies are needed a shift away from punitive social control toward greater emphasis on moralizing social control This book will be of interest not only to criminologists and sociologists but to those in law public administration and politics who are concerned with social policy and social issues

Webs of Resistance in a Newly Privatized Polish Firm Jennifer Lynn Roney, 2021-11-18 First Published in 2000 This is a research study that includes deep description supported by research in organizational studies as well as Polish history sociology and anthropology of the perceptions of employees in a single Polish factory This factory is experiencing the uncertainties and opportunities of tremendous change in external contingencies and internal operations The employees in this factory are trying to adjust to a new owner and many new managers the fear of lay offs and confusion about the world in which they now find themselves

Mega-sociology Adam Podgórecki, 2016-06-08 Mega sociology is the last book written by Adam Podg recki He was working on its final version when he died on August 18 1998 of heart attack The revisions he intended to make did not concern the main ideas of this book rather he planned a thorough re working of its structure to make their presentation more focused and effective After much deliberation I have decided to have the manuscript published without any editing that might have inadvertently distorted the Author s intentions The concept of megasociology is about making sociology relevant by placing it in the social context of specific societies and their values and thereby enabling a culturally appropriate organic social action It grew out of Podg recki s concern with the invasion of dilettantes in sociology led by ideologues who created abstract detached from social reality pseudo theories designed primarily for their own aggrandizement It was also a next step in his almost life long search for the best way to approach the task of helping societies to live better

Russia and Eastern Europe, 1789-1985 Raymond Pearson, 1989 *Rebirth* Cyril Black, 2018-05-04 Rebirth A History of Europe Since World War II examines the transition of Europe from a period of crisis to an era of political confidence and economic strength As the title suggests the pervasive theme of the book is that of rebirth The most recent decades are set in the context of modern European history as a whole The authors trace the disillusionment and uncertainty that overcame Europe at the turn of the twentieth century and that culminated in the devastation of the Second World War In their analysis of the political and economic causes of the renaissance that has followed the demise of the Cold War the authors highlight the themes of national integration and economic modernization The chapters are uniquely organized to present both international and domestic developments in Europe as coherent wholes as well as the importance of their interaction The initial analysis of key international developments in the twentieth century helps students to understand the relationship between foreign and domestic events and provides background for the substantial discussion of the major European countries that follows in chapters devoted to each national experience The political and economic histories of these nation states are considered in terms of their individual traditions and challenges and the authors explore

difficult issues such as the overall costs and benefits of the scientific technological revolution the pursuit of social justice the proper role of the state and of political parties and contrasting national paths of economic and political development *Rebirth* is designed as a text for use in courses on modern European history especially twentieth century Europe and for students of comparative politics who are seeking a substantial consideration of the historical factors of European politics In this revised edition the authors have updated the text with an analysis of developments since 1991 and added recent scholarship to the lists of Suggested Readings

Historical Dictionary of Poland George Sanford, 2003 Poland has had an exceptionally turbulent thousand year history marked by extremes of national greatness and decline including partition and foreign occupation Currently undergoing another dramatic transformation Poland has been building a democratic and market system since the fall of communism The largest and most important nation in Eastern Europe outside the ex Soviet Union is now returning to the European mainstream from which she was for long periods isolated politically and economically although not culturally Although Poland has been widely popularized in journalistic clichés in recent years because of Solidarity the Polish Pope and the like there is still much to be learned about the particular individuals and specific factors which have shaped her history in the past and which are molding her present development The dictionary strikes a judicious balance in covering past and contemporary figures as well as Poland's richly textured political social and cultural dimensions The Dictionary has more than four hundred entries and a most comprehensive and up to date bibliography It provides a stimulating and knowledgeable introduction for students scholars and librarians as well as a helpful overview guide for tourists and for those involved in teaching business politics journalism and public service

The Cumulative Book Index, 1985 A world list of books in the English language

Social Deviance In Eastern Europe Ivan Volgyes, 2019-06-18 During the last thirty years under Communist rule the East European states have attempted to eradicate activities that are deemed deviant from the point of view of the government But despite all efforts such activities as prostitution murder robbery private profiteering and even political dissidence continue to flourish In this book five

Advances in Criminological Theory William S. Laufer, Freda Adler, 2017-11-30 Criminology has developed strong methodological tools over the past decades establishing itself as a competitive and sophisticated social science Despite and perhaps because of its emphasis on research design methodology and quantitative analysis criminology has had few significant advances in theory This is the first publication exclusively dedicated to the dissemination of original work on criminological theory It encourages theory construction and validation in existing criminological publications as well as furthering the free exchange of ideas propositions and postulates This volume is dedicated to a pioneer in criminology Donald Cressey and is especially noteworthy for its comparative and international dimension

Poland George Sanford, Adriana Gozdecka-Sanford, 1993

Polish Sociological Review, 1997

New Books National Defense University. Library, The Polish Sociological Bulletin, 1992

Totalitarian and Post-totalitarian Law Adam Podgórecki, Vittorio Olgiati, 1996 This volume aims to take a socio legal perspective as a general

guideline and from this point of view to focus on the reciprocal interrelations between totalitarian systems and their legal structures

Sociology of Law Jacek Kurczewski, 1999

Anti-Communist Student Organizations and the Polish Renewal Charles Wankel, 1992-06-18 Offers an account of the key role of Polish student movements in the rebirth of their country It provides a history of student activism in Poland and explains the context in which recent changes have occurred
