TOM SCOTT

Society And Economy In Germany 1300 16

Spencer Dimmock

Society And Economy In Germany 1300 16:

Germany and the Holy Roman Empire Joachim Whaley, 2012 In the first single author account of German history from the Reformation to the early nineteenth century since Hajo Holborn's study written in the 1950s Dr Whaley provides a full account of the history of the Holy Roman Empire Volume I extends from Maximilian I to the Peace of Westphalia

German Histories in the Age of Reformations, 1400-1650 Thomas A. Brady Jr., 2009-07-13 This book studies the connections between the political reform of the Holy Roman Empire and the German lands around 1500 and the sixteenth century religious reformations both Protestant and Catholic It argues that the character of the political changes dispersed sovereignty local autonomy prevented both a general reformation of the Church before 1520 and a national reformation thereafter The resulting settlement maintained the public peace through politically structured religious communities confessions thereby avoiding further religious strife and fixing the confessions into the Empire's constitution The Germans emergence into the modern era as a people having two national religions was the reformation's principal legacy to modern Germany

I Prezzi Delle Cose Nell'età Preindustriale Istituto internazionale di storia economica F. Datini. Settimana di studio, 2017-01-01 La dinamica dei prezzi uno degli argomenti classici della storia economica L'attenzione per questo tema fu particolarmente viva a partire dagli anni trenta del novecento in tutti i paesi europei I materiali raccolti e pubblicati a quell'epoca continuano a costituire una base documentaria importante per ogni ricerca sull'andamento economico delle economie pre industriali L'interesse per i prezzi si ridusse dagli anni settanta agli anni novanta ripreso tuttavia negli ultimi quindici venti anni come conseguenza della rinnovata attenzione per il tema della crescita e per i cambiamenti di lungo periodo nelle economie del passato Il confronto fra i livelli di sviluppo di economie diverse come quella europea e quella asiatica insieme con l'uso di strumenti statistici più avanzati nel campo della storia economica ha rafforzato l'interesse per i prezzi I contributi presenti in questo volume si articolano intorno a due macro temi La formazione dei prezzi nelle economie e società pre industriali durante i secoli dal XII all'inizio del XIX e il movimento dei prezzi nel lungo periodo nonché il rapporto esistente con quello di altre variabili economiche e non economiche quali la popolazione la massa monetaria il prodotto la produttività la velocità di circolazione della moneta i cambiamenti nelle istituzioni

The Origins of the German Principalities, 1100-1350 Graham A. Loud, Jochen Schenk, 2017-07-06 The history of medieval Germany is still rarely studied in the English speaking world This collection of essays by distinguished German historians examines one of the most important themes of German medieval history the development of the local principalities These became the dominant governmental institutions of the late medieval Reich whose nominal monarchs needed to work with the princes if they were to possess any effective authority Previous scholarship in English has tended to look at medieval Germany primarily in terms of the struggles and eventual decline of monarchical authority during the Salian and Staufener eras in other words at the failure of a centralised monarchy Today the federalised nature of late medieval and early modern Germany seems a more

natural and understandable phenomenon than it did during previous eras when state building appeared to be the natural and inevitable process of historical development and any deviation from the path towards a centralised state seemed to be an aberration In addition by looking at the origins and consolidation of the principalities the book also brings an English audience into contact with the modern German tradition of regional history *Landesgeschichte* These path breaking essays open a vista into the richness and complexity of German medieval history

The Origin of Capitalism in England, 1400-1600 Spencer Dimmock, 2014-06-05 Incorporating original archival research and a series of critiques of recent accounts of economic development in pre modern England in *The Origin of Capitalism in England 1400 1600* Spencer Dimmock has produced a challenging and multi layered account of a historical rupture in English feudal society which led to the first sustained transition to agrarian capitalism and consequent industrial revolution Genuinely integrating political social and economic themes Spencer Dimmock views capitalism broadly as a form of society rather than narrowly as an economic system He firmly locates its beginnings with conflicting social agencies in a closely defined historical context rather than with evolutionary and transhistorical commercial developments and will thus stimulate a thorough reappraisal of current orthodoxies on the transition to capitalism

Labour, Coercion, and Economic Growth in Eurasia, 17th-20th Centuries, 2012-09-28 The history of the forms of free labour is intimately linked to that of coerced labour In this book worldwide acknowledged specialists of Russia China Russia Japan India the Indian Ocean France and Britain show that between the seventeenth and the twentieth century forms of labour and bondage were defined and practised in reference to each other Labour relationships found their sources not only in the global circulation of models peoples goods and institutions but also in market dynamics Proto industry agriculture trade and manufacturing experienced unprecedented growth throughout Eurasia Mostly labour intensive this long term growth put considerable pressure on labour resources and contributed to increased coercion and legal constraints on labour mobility in both Asia and Europe

Comparative Economics in a Transforming World Economy, third edition J. Barkley Rosser, Jr., Marina V. Rosser, 2018-01-26 An approach to comparative economic systems that avoids simple dichotomies to examine a wide variety of institutional and systemic arrangements with updated country case studies Comparative economics with its traditional dichotomies of socialism versus capitalism private versus state and planning versus market is changing This innovative textbook offers a new approach to understanding different economic systems that reflects both recent transformations in the world economy and recent changes in the field This new edition examines a wide variety of institutional and systemic arrangements many of which reflect deep roots in countries cultures and histories The book has been updated and revised throughout with new material in both the historical overview and the country case studies It offers a broad survey of economic systems then looks separately at market capitalism Marxism and socialism and new traditional economies with an emphasis on the role of religions Islam in particular in economic systems It presents case studies of advanced capitalist nations including the United

States Japan Sweden and Germany alternative paths in the transition from socialist to market economies taken by such countries as Russia the former Soviet republics Poland China and the two Koreas and developing countries including India Iran South Africa Mexico and Brazil The new chapters on Brazil and South Africa complete the book's coverage of all five BRICS nations the chapter on South Africa extends the book's comparative treatment to another continent The chapter on Brazil with its account of the role of the Amazon rain forest as a great carbon sink expands the coverage of global environmental and sustainability issues Each chapter ends with discussion questions

Church Robbers and Reformers in Germany, 1525-1547 Christopher Ocker, 2006-07-01 This is a study of the religious controversy that broke out with Martin Luther from the vantage of church property The controversy eventually produced a Holy Roman Empire of two churches This is not an economic history Rather the book shows how acceptance of confiscation was won and how theological advice was essential to the success of what is sometimes called a crucial if early stage of confessional state building It reviews the character of sacred property in the late Middle Ages surveys confiscations in Reformation Germany on illustrative examples summarizes the League of Schmalkalden's defense of confiscations systematically studies theological memoranda that shaped a common policy in the League and shows the role of that common position in religious politics

Lordship, State Formation and Local Authority in Late Medieval and Early Modern England Spike Gibbs, 2023-07-27 Shows how lordship and state formation affected local authority in the transition between medieval and early modern England

Luther, Conflict, and Christendom Christopher Ocker, 2018-08-30 Martin Luther was the subject of a religious controversy that never really came to an end The Reformation was a controversy about him

The Oxford Handbook of Early Modern European History, 1350-1750 Hamish M. Scott, 2015 This Handbook re-examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350-1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity Volume I examines Peoples and Place assessing structural factors such as climate printing and the revolution in information social and economic developments and religion including chapters on Orthodoxy Judaism and Islam

Society and Economy in Early Modern Europe, 1450-1789 Barry Taylor, 1989

The Empire at the End of Time Frances Courtney Kneupper, 2016 In *The Empire at the End of Time* Frances Courtney Kneupper introduces popular eschatological prophecies of the late medieval

Empire Demonstrating how these prophecies operated to create a vision of the German community as the ordained reformers of Christendom Kneupper also examines their connection to contemporary discourses on Church reform and political identity

Associative Political Culture in the Holy Roman Empire Duncan Hardy, 2018-08-21 What was the Holy Roman Empire in the fourteenth to sixteenth centuries At the turning point between the medieval and early modern periods this vast Central European polity was the continent's most politically fragmented The imperial monarchs were often weak and distant while a diverse array of regional actors played an autonomous role in political life The Empire's obvious differences compared with more centralized European kingdoms have stimulated negative historical judgements and fraught debates which have found expression in recent decades in the concepts of fractured territorial states and a disjointed imperial constitution Associative Political Culture in the Holy Roman Empire challenges these interpretations through a wide ranging case study of Upper Germany the southern regions of modern day Germany plus Alsace Switzerland and western Austria between 1346 and 1521 By examining the interactions of princes prelates nobles and towns comparatively Associative Political Culture in the Holy Roman Empire demonstrates that a range of actors and authorities shared the same toolkit of technologies rituals judicial systems and concepts and configurations of government Crucially Upper German elites all participated in leagues alliances and other treaty based associations As frameworks for collective activity associations were a vital means of enabling and regulating warfare justice and arbitration and even lordship and administration On the basis of this evidence Associative Political Culture in the Holy Roman Empire offers a new and more coherent depiction of the Holy Roman Empire as a sprawling community of interdependent elites who interacted within the framework of a shared political culture

The Abbot and his Peasants Katherine Brun, 2016-09-26 Der Abt und seine Bauern Territorialisierung als Prozess in Salem vom Späten Mittelalter bis zum Dreißigjährigen Krieg Die Studie über die reichsunmittelbare Zisterzienserabtei Salem eröffnet neue Einsichten über grundlegende politische Entwicklungen in der Frühen Neuzeit Sie beleuchtet die Möglichkeiten und die Grenzen kirchlicher Herrschaft und weist auf breiter Quellengrundlage den dauerhaften politischen Einfluss der Bauernschaft nach In der untersuchten Periode von 1473 bis 1637 festigte die Abtei ihre politische Herrschaft über Land und Leute Im Zuge der Territorialisierung verdichtete sie verschiedene Herrschaftsrechte in ihrer Hand und schloss das Herrschaftsgebiet ab Dies wurde auf zwei Ebenen erreicht Erstens wurden die Grenzen des Territoriums gegen Außen eindeutig definiert in räumlich physischer rechtlicher und symbolischer Hinsicht Zweitens wurden die Untertanen vollständig in das eigene Territorium integriert Diesen Prozess kann man jedoch nicht einfach als Staatsbildung von oben durch die Aktivitäten der Abtei charakterisieren Deren Herrschaft wurde zwar gestärkt und zentralisiert aber durchaus nicht vornehmlich auf Kosten der Bauernschaft Deren materielle Bedürfnisse und Interessen wurden aufgegriffen so dass gegenseitige Vergleiche zustande kamen Das Beispiel Salem zeigt das Moment politischer Inklusion auf einer breiten sozialen Basis Durch kleinteiliges Agieren und auf dem Wege direkter Kommunikation brachten sich die kommunalen Entscheidungsträger aus der Bauernschaft

wirkungsvoll ein So entwickelte sich die Herrschaft in der Abtei aufgrund interaktiver Prozesse fort Wir begegnen also in der Arbeit vielseitigen Aushandlungsprozessen bei denen sowohl wechselnde Bndnisse und ungleiche Partnerschaften als auch das Prinzip der Gegenseitigkeit sowie direkte Kooperation zwischen sozialen Gruppen mitwirkten Dieses Primat des Verhandlungsprinzips brachte wechselseitige Vorteile nicht weil die sozialen Gruppen von vornherein gemeinsame Interessen hatten sondern da sich Kommunikationskanäle öffneten und Konflikte abschwachten Die Kommunikation im Territorium lief über zwei zentrale Institutionen das Sidelgericht und das Verhör Diese beiden Körperschaften vermochten es nicht nur Konflikte zu dämpfen und diverse soziale Gruppen zu integrieren sondern auch deren Anliegen zu berücksichtigen und hier lag das Fundament der bemerkenswerten politischen und sozialen Stabilität in Salem So ist dieses kleine Territorium ein Beispiel dafür wie ein erfolgreiches Gemeinwesen vorgeht wie es ständig neue Ziele entwickelt und sich dabei selbst erhält Durch diese Forschungsarbeit über Salem werden die Potenziale und Grenzen der Staatsbildung im Reich grundlegend beleuchtet sie zeigt auf wie die Beziehungen zwischen Herren und Untertanen in der Frühen Neuzeit miteinander verflochten waren

The Dreadful History and Judgement of God on Thomas Müntzer Andrew Drummond, 2025-06-17 You will be gripped and inspired by this exciting story I couldn't put it down Lyndal Roper author of Martin Luther Renegade and Prophet On the 500th anniversary of the German Peasant Wars a brilliant portrait of Thomas Munzter radical millenarian preacher revolutionary and iconoclast The princes are nothing but tyrants who flay the people they fritter away our blood and sweat on their pomp and whoring and knavery These were the words of Thomas Müntzer at the head of the massed ranks of a peasant army in the year 1525 Ranged against him were the might of the princes of the German Nation How did Müntzer the son of a coin maker from central Germany rise in just a few short years to become one of the most feared revolutionaries in early modern Europe In this brilliant work of historical excavation Andrew Drummond charts the life and times of the man Martin Luther denounced as a Ravening Wolf and False Prophet Drummond shows us Müntzer as a human being Far from the bloodthirsty devil of legend he was a man of considerable learning and principle deeply sympathetic to the misery of the peasantry and the poor In his short life he was beheaded at thirty five Müntzer promised to fundamentally upend German society Seeking to save Müntzer from the condescension of history Drummond guides us through the religious and political disputes of the Reformation placing his life and thought in the context of those turbulent years The result is a portrait of an often contradictory but always radical figure one who continues to inspire movements of the poor across the globe

Lordship and the Decentralized State in Late Medieval Europe Erika Graham-Goering, Jim van der Meulen, Frederik Buylaert, 2025-01-23 Lordship and the Decentralized State in Late Medieval Europe rethinks the rise of modern European states as a process of decentralization The idea that states made lordships obsolete is challenged by showing how the distribution of authority among local lords reinforced the development of new political systems

Strangers and Misfits Jason Coy, 2008-09-30 Banishment was crucial to law enforcement in early modern Europe as magistrates used expulsion to

punish and control thousands of offenders convicted of crimes ranging from adultery to theft While early modern social control has attracted considerable scholarly attention in recent decades banishment has been largely neglected This book examines the role of banishment in sixteenth century Ulm an important south German city state using the town s experience to uncover how early modern magistrates used expulsion to regulate and reorder society This investigation sheds new light on the application of authority the intersection between official disciplinary efforts and customary behavioral norms and the function of public expulsion in displaying and defending social hierarchies issues central to our historical understanding of the period

Competing to Win in a Global Economy ,1994

After the Black Death Mark Bailey,2021-02-11 The Black Death of 1348-9 is the most catastrophic event and worst pandemic in recorded history After the Black Death offers a major reinterpretation of its immediate impact and longer term consequences in England After the Black Death reassesses the established scholarship on the impact of plague on fourteenth century England and draws upon original research into primary sources to offer a major re interpretation of the subject It studies how the government reacted to the crisis and how communities adapted in its wake It places the pandemic within the wider context of extreme weather and epidemiological events the institutional framework of markets and serfdom and the role of law in reducing risks and conditioning behaviour The government s response to the Black Death is reconsidered in order to cast new light on the Peasants Revolt of 1381 By 1400 the effects of plague had resulted in major changes to the structure of society and the economy creating the pre conditions for England s role in the Little Divergence whereby economic performance in parts of north western Europe began to move decisively ahead of the rest of the continent After the Black Death explores in detail how a major pandemic transformed society and in doing so elevates the third quarter of the fourteenth century from a little understood paradox to a critical period of profound and irreversible change in English and global history

Yeah, reviewing a books **Society And Economy In Germany 1300 16** could ensue your near contacts listings. This is just one of the solutions for you to be successful. As understood, execution does not suggest that you have astonishing points.

Comprehending as competently as accord even more than further will allow each success. next to, the proclamation as without difficulty as keenness of this Society And Economy In Germany 1300 16 can be taken as capably as picked to act.
