Harriet Martineau,2019-10-05 The British scholar Harriet Martineau spent two years travelling throughout the United States before writing her three volume commentary *Society in America* in 1837 Her lengthy journey began in New York in the autumn of 1834 less than sixty years after the birth of the United States and she immersed herself in the politics economics civilisation and religions of the country before returning to England in the summer of 1836 Her travels took her to the nation s capital where she enjoyed the hospitality of the president witnessed Supreme Court proceedings and visited both houses of Congress She also went to prisons hospitals and mental institutions literary and scientific foundations factories plantations and farms around the land lived in farmhouses and log cabins and travelled by horse stagecoach and steamboat This second volume is devoted to the United States economy of the 1830s examining American agriculture transportation manufacturing and commerce *Society in America* Harriet Martineau,2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1837 edition Excerpt 155 PART II ECONOMY That thou givest them they gather Thou openoat hand they are filled with good thine 104th Psalm The traveller from the Old World to the New is apt to lose himself in reflection when he should be observing Speculations come in crowds in the wilderness He finds himself philosophizing with every step he takes as luxuriously as by his study fireside or in his rare solitary walk at home In England everything comes complete and finished under notice Each man may be aware of some one process of formation which it is hia business to conduct but all else is presented to him in its entireness The statesman knows what it is to compose an act of parliament to proceed from the first perception of the want of it through the gathering together of facts and opinions the selection from these the elaborating adjusting moulding specifying excluding consolidating till it becomes an entire something which he throws down for parliament to find fault with When it is passed the rest of society looks upon it as a whole as a child does upon a table or a doll without being aware of any process of formation The shoemaker thus takes his loaf of bread and the clock that ticks behind his door as if they came down from the clouds as they are in return for so much of his wages and he analyzes nothing but shoes The baker and watchmaker receive their shoes in the same way and analyze nothing but bread and clocks Too many gentlemen and ladies analyze nothing at all If better taught and introduced at an early age into the world of analysis
