Current Catalog National Library of Medicine (U.S.),1979 First multi year cumulation covers six years 1965 70

Monographic Series Library of Congress, Measurement of Subjective Phenomena ,1981 Special Demographic Analyses ,1980 *The Industrial Connection* Bernard Carl Rosen, Estudio que aborda el tema de como la industrializacion en los paises en desarrollo afecta al ambito de la familia La industrializacion refuerza el grupo de parientes en una sociedad en desarrollo que valora una familia extensa ademas la relacion entre maridos y esposas se vuelve mas comunicativa demostrativa e igualitaria las actitudes del rol sexual liberal aumentan el poder de la esposa dentro de la familia pero disminuye la fertilidad en la ciudad industrial Por otra parte la industrializacion democratiza las relaciones entre padres e hijos y aumenta la motivacion para lograr el exito en los chicos aunque como se lleve este a cabo depende de la cultura y la estructura social de cada uno Handbook of Survey Research Peter H. Rossi,James D Wright,Andy B. Anderson,2013-10-22 Handbook of Survey Research provides an introduction to the theory and practice of sample survey research It addresses both the student who desires to master these topics and the practicing survey researcher who needs a source that codifies rationalizes and presents existing theory and practice The handbook can be organized into three major parts Part 1 sets forth the basic theoretical issues involved in sampling measurement and management of survey organizations Part 2 deals mainly with hands on how to do it issues how to draw theoretically acceptable samples how to write questionnaires how to combine responses into appropriate scales and indices how to avoid response effects and measurement errors how actually to go about gathering survey data how to avoid missing data and what to do when you cannot and other topics of a similar nature Part 3 considers the analysis of survey data with separate chapters for each of the three major multivariate analysis modes and one chapter on the uses of surveys in monitoring overtime trends This handbook will be valuable both to advanced students and to practicing survey researchers seeking a detailed guide to the major issues in the design and analysis of sample surveys and to current state of the art practices in sample surveys **Library of Congress Catalogs** Library of Congress,1976 **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1971 First multi year cumulation covers six years 1965 70 Families and their Learning Environments Kevin Marjoribanks,2017-04-28 First published in 1979 this study is one of the first works of educational research to include detailed assessments of family environments in an analysis of performance of children at their schools Much of the research is based on data collected from families in Australia Canada and England and the findings have been integrated with results from other family environments research The study also explores social and psychological conceptual positions that will have relevance for further educational investigations This book will be of particular interest to those studying the relationship between family environments and education as well as the sociology of education Measurement, Design, and Analysis Elazar J. Pedhazur,Liora Pedhazur Schmelkin,2013-04-15 In textbooks and courses in statistics substantive and measurement issues

are rarely if at all considered Similarly textbooks and courses in measurement virtually ignore design and analytic questions and research design textbooks and courses pay little attention to analytic and measurement issues This fragmentary approach fosters a lack of appreciation of the interrelations and interdependencies among the various aspects of the research endeavor Pedhazur and Schmelkin's goal is to help readers become proficient in these aspects of research and their interrelationships and to use that information in a more integrated manner The authors offer extensive commentaries on inputs and outputs of computer programs in the context of the topics presented Both the organization of the book and the style of presentation allow for much flexibility in choice sequence and degree of sophistication with which topics are dealt

Political Violence, Crises and Revolutions (Routledge Revivals) Ekkart Zimmermann, 2013-04-15 First published in 1983 this extraordinary study provides a comprehensive systematic evaluation of cross national theorizing and quantitative empirical evidence on four interrelated phenomena Political violence Crises Military Coups D tat Revolutions Findings from social psychological research on aggression are integrated in this outstanding study as well as results reported in social historical studies of revolution The focus of the book is always on analytical perspectives and corresponding empirical evidence The author continually highlights the sociostructural and political conditions of political violence crises and revolutions This exceptionally detailed and systematic inventory of theories and research on a classic triad of political science political violence crises and revolutions also includes a remarkable bibliography encompassing over 3000 items Methods of Social Research Kenneth D. Bailey, 1994 An introduction for undergraduates to every stage of sociological research showing how to deal effectively with typical problems they might encounter The book is fully updated to include examples from the LA riots and the 1992 presidential elections **The Dark Side of Families** David Finkelhor, 1983-03 This series of articles portrays the state of the art on family violence and abuse research crystallizes the key interdisciplinary issues confronting family violence and abuse researchers and suggests a research agenda for the coming years Although the chapters cover a broad spectrum of issues and controversies in the areas of wife abuse child abuse the sexual abuse of children and marital rape a number of common themes and issues emerge First many chapters share the perspective that violence and abuse emerge from the nature of social arrangements Second even though many different forms of family violence and abuse are discussed several chapters explore their commonalities and important etiological differences A number of articles examine the common effects of victimization across various forms of family violence and abuse A third common theme of the papers is an expansion of research efforts to groups other than victims of family violence and abuse as there are chapters that examine the individual and social characteristics of male perpetrators of both wife abuse and child abuse as well as chapters that focus on the attitudes and behaviors of professional groups concerned with the treatment of victims of family violence and abuse The volume shows great methodological diversity and attention to theoretical detail the research presented reveals the possibility of a more comprehensive social science approach to the study of family violence

and abuse In work related to theory building one chapter explains a number of findings in the child abuse and neglect literature using propositions derived from evolutionary biology another paper distills propositions from several theoretical traditions In conjunction with these efforts several chapters report research designed to test competing propositions Chapter references and research data are provided **Typologies and Taxonomies** Kenneth D. Bailey,1994-06-13 How do we group different subjects on a variety of variables Should we use a classification procedure in which only the concepts are classified typology one in which only empirical entities are classified taxonomy or some combination of both In this clearly written book Bailey addresses these questions and shows how classification methods can be used to improve research Beginning with an exploration of the advantages and disadvantages of classification procedures including those typologies that can be constructed without the use of a computer the book covers such topics as clustering procedures including agglomerative and divisive methods the relationship among various classification techniques including the relationship of monothetic qualitative typologies to polythetic quantitative taxonomies a comparison of clustering methods and how these methods compare with related statistical techniques such as factor analysis multidimensional scaling and systems analysis and lists classification resources This volume also discusses software packages for use in clustering techniques

Longitudinal Field Research Methods George P. Huber,Andrew van de Ven,1995-08-02 Eleven papers some of which have appeared previously as contributions to the journal Organizational Science emphasize a range of methodological issues involved in longitudinal field research including ethnographic methods longitudinal and comparative case studies event history analysis and real time tracking of events as well as procedural **Methods of Social Research, 4th Edition** Kenneth Bailey,2008-06-30 An introduction for undergraduates to every stage of sociological research showing how to deal effectively with typical problems they might encounter The book is fully updated to include examples from the LA riots and the 1992 presidential elections **Courts of Appeals in the Federal Judicial System** J. Woodford Howard Jr.,2014-07-14 Courts of Appeals were designed to be a unifying force in American law and politics but they also contribute to decentralization and regionalization of federal law Woodford Howard studies three aspects of this problem first what binds the highly decentralized federal courts into a judicial system second what controls the discretion of judges in making law and policy and third how can quality judicial decisions be maintained under heavy volume pressure Originally published in 1981 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Surveying Subjective Phenomena** Charles Turner,Elizabeth Martin,1985-03-28 In January 1980 a panel of distinguished social scientists and statisticians assembled at the National

Academy of Sciences to begin a thorough review of the uses reliability and validity of surveys purporting to measure such subjective phenomena as attitudes opinions beliefs and preferences This review was prompted not only by the widespread use of survey results in both academic and non academic settings but also by a proliferation of apparent discrepancies in allegedly equivalent measurements and by growing public concern over the value of such measurements This two volume report of the panel s findings is certain to become one of the standard works in the field of survey measurement Volume I summarizes the state of the art of surveying subjective phenomena evaluates contemporary measurement programs examines the uses and abuses of such surveys and candidly assesses the problems affecting them The panel also offers strategies for improving the quality and usefulness of subjective survey data In volume II individual panel members and other experts explore in greater depth particular theoretical and empirical topics relevant to the panel s conclusions For social scientists and policymakers who conduct analyze and rely on surveys of the national state of mind this comprehensive and current review will be an invaluable resource

Sociological Human Ecology Michael Micklin,Harvey M

Choldin,2019-09-18 First published in This volume grew out of concerns raised by the contributors and a few others over the current status of human ecology within the field of sociology Stemming from conferences and subsequent discussions by a group of sociologist demographers on recent developments in sociological human ecology which started at the annual meeting of the Population Association of America in 1976 the original essays contained in this book are designed to review and assess the current state of knowledge in the field

Economic Decline and Political Change Harold D. Clarke,Marianne

C. Stewart,Gary Zuk,2010-11-23 In the 1970 s an age of affluence ended abruptly in Canada Great Britain and the United States Skyrocketing inflation persistent unemployment and sluggish growth became new oppressive realities for government and citizens alike This book examines the changes that occurred in economic policymaking on the governmental level and the public s response to such changes This timely collection of essays sheds light on the political economy of three of the world s oldest democracies in an era of economic distress and uncertainty
