New Social Connections J. Burnett, S. Jeffers, G. Thomas, 2010-04-09 Offering a fresh approach to new explorations of the reconfigurations of sociological thought this book provides a mix of literature review original theory and autobiographical material in order to understand formations of sociological knowledge

Goffman's Legacy Javier A. Treviño, 2003-07-28 Erving Goffman 1922 82 was arguably one of the most influential American sociologists of the twentieth century A keen observer of the interaction order of everyday life Goffman's books which have sold in the hundreds of thousands continue to be widely read and his concepts have permanently entered the sociology lexicon This volume consists of ten original essays all written by prominent Goffman scholars that critically assess Goffman's many contributions to various areas of study including functionalism social psychology ethnomethodology and feminist theory

Autobiographies of Transformation Mike Keen, Janusz Mucha, 2013-05-24 Autobiographies of Transformation is a completely unique history of sociology in Central and Eastern Europe in the post Communist era Through the autobiographies of ten key sociological witnesses from the region the sociological imagination is turned upon itself resulting in a compelling and revealing account of the struggles triumphs and continuing challenges faced The sociologists examined fall into three cohorts early mid and late career As participants each of the sociologists included has witnessed the intersection of history and biography in Central and Eastern Europe As sociologists they have tried and continue to try to connect the two so that they and their fellow citizens may better understand their circumstances and the futures that may follow This revealing book ideal for students and researchers of sociology and Central and Eastern Europe studies provides powerful and compelling autobiographical accounts relating them to the current interest in this area's transformation

Biography, Identity, and Schooling Ivor Goodson, Rob Walker, 1991 In this book the authors relate their work on curriculum reform to the succession of changes in the sociology of education using it as a starting point for setting new directions The book is a restatement of the central role of people in educational systems

Beyond Sociology's Tower of Babel Bernard S. Phillips, 2001 To look outside the discipline of sociology is to find little credibility given to the field as science Bernard Phillips argues that we are learning to see ever more clearly the contradiction between scientific standards and what in fact has been achieved by sociology Instead of knowledge based on the full range of our findings we have separate pieces of knowledge located within the diverse areas of the discipline and fads and fashions in the ideas and terms we use with relatively little cumulative development This has led many to question whether any scientific method can be applied to human behavior If the arguments and alternative interpretations in this book on the problematic nature of

sociology's use of scientific method prove to be credible and fruitful then the implications are profound. For example, the conclusions drawn for every single social science study that has ever been conducted would be open to reinterpretation because they fail to take into account systematically the enormous complexity involved within any given instance of human behavior. Our present approach assumes implicitly that the pieces of the human jigsaw puzzle can at some point be put together so as to yield a coherent picture. Yet as Phillips shows, if each piece is itself deficient, then no coherent picture emerges when we attempt to put the pieces together. Refusing to take the current fragmentation of sociology as inevitable, Phillips offers a clear vision through a series of heuristic web images of how sociologists might achieve the cumulative development and credibility that are the hallmarks of any science. His research draws heavily on the works of classical and contemporary theorists, philosophers, and historians of science, as well as on postmodernist critiques and responses to postmodernism. This reconstruction will be useful for courses in method in the study of the classical tradition of sociology.

Bernard Phillips was introduced to sociology at Columbia University by C. Wright Mills. A former professor of sociology at Boston University, cofounder of the ASA Section on Sociological Practice, and founder of the Sociological Imagination Group, his publications emphasize methodology and theory. [Handbook of Classical Sociological Theory](#) Seth Abrutyn, Omar Lizardo, 2021-11-01. This is the first handbook focussing on classical social theory. It offers extensive discussions of debates, arguments, and discussions in classical theory and how they have informed contemporary sociological theory. The book pushes against the conventional classical theory pedagogy which often focused on single theorists and their contributions and looks at isolating themes capturing the essence of the interest of classical theorists that seem to have relevance to modern research questions and theoretical traditions. This book presents new approaches to thinking about theory in relationship to sociological methods.

Nation-state and Minority Rights in India Tanweer Fazal, 2014-08-01. The blood-laden birth pangs of the Indian nation state undoubtedly had a bearing on the contentious issue of group rights for cultural minorities. Indeed, the trajectory of the concept minority rights evolved amidst multiple conceptualizations, political posturing, and violent mobilizations and outbursts. Accommodating minority groups posed a predicament for the fledgling nation state of post-colonial India. This book compares and contrasts Muslim and Sikh communities in pre and post-Partition India. Mapping the evolving discourse on minority rights, the author looks at the overlaps between the Constitutional and the majoritarian discourse being articulated in the public sphere and poses questions about the guaranteeing of minority rights. The book suggests that through historical ruptures and breaks, communities oscillate between being minorities and nations. Combining archival material with ethnographic fieldwork, it studies the identity groups and their vexed relationship to the ideas of nation and nationalism. It captures meanings attributed to otherwise politically loaded concepts such as nation, nation state, and minority rights in the everyday world of Muslims and Sikhs and thus tries to make sense of the patterns of accommodation, adaptation, and contestation in the life world. Successfully confronting and illuminating the challenge of reconciling
