*Social Problem* sets out to remedy the deficiency of serious research on mugging The work is based on a random sample of over 1000 muggings which occurred within the Metropolitan Police District in the mid 1970s and the author analyses the results not only in absolute and comparative terms but also against a background of social determinants such as ecology deprivation and race Dr Pratt s long term solution is not novel an all round improvement in housing employment and social conditions will eventually remove the circumstances which create muggers but there are steps he suggests which can be

taken in the short term to stop mugging by reducing opportunity However before any effective measures can be introduced more facts are needed about the background motives and methods of the typical mugger it is just such facts that this study sets out to provide This book will be of interest to students of sociology law urban studies and criminology      **Foundations of theory-formation in criminology** Catharina Irma Dessaur,2018-12-03 No detailed description available for Foundations of theory formation in criminology      **Document Retrieval Index** ,1974      **Hearings, Reports and Prints of the Senate Committee on the Judiciary** United States.
