Critical Approaches to Death, Dying and Bereavement Erica Borgstrom, Renske Visser, 2024-10-03 This book is the first of its kind to examine key topics in death dying and bereavement through a critical lens highlighting how the understanding and experience of death can vary considerably based on social cultural historical political and medical contexts It looks at the complex ways in which death and dying are managed from the political level down to end of life care and the inequalities that surround and impact experiences of death dying and bereavement Readers are introduced to key theories such as the medicalisation of dying as well as contemporary issues such as social movements pandemics and assisted dying The book stresses how death is not only a biological process or event but rather shaped by a range of intersecting factors Issues of inequalities in health inequities in support and intersectional analyses are brought to the fore and each chapter is dedicated to an issue that has interdisciplinary resonance thus showcasing the wider sociocultural and political factors that impact this time of life This book is valuable reading for scholars in thanatology and death studies and for those in related fields such as sociology of health medical and social anthropology and interdisciplinary social science courses

Critical Theory and Social Transformation Gerard Delanty, 2020-02-24 Critical Theory and Social Transformation provides an exploration of the major themes in critical social theory of recent years Delanty argues that a critical theory perspective can offer much needed insights into the pressing socio political challenges of our time In this volume he advances the need to reconnect social theory and social research and to return to the foundational concerns of critical social theory Delanty engages with the key topics facing critical social theorists capitalism cosmopolitanism modernity the Anthropocene and legacies of history The connecting thread is that the topics are all contemporary challenges for critical theory and relate to major social transformations The notions of critique crisis and social transformation are central to the book Critical Theory and Social Transformation will be of interest to the broad readership in social and political theory It will appeal to those working in

sociology political sociology politics and international studies and to anyone with an interest in any of the chapter specific topics such as public space memory and neo authoritarianism Critical Approaches to Welcome to Night Vale Jeffrey Andrew Weinstock,2018-08-24 With well over one hundred episodes the podcast Welcome to Night Vale has spawned several international live tours two novels set in the Night Vale universe and an extensive volume of fan fiction and commentary However despite its immense popularity Welcome to Night Vale has received almost no academic scrutiny This edited collection of scholarly essays the very first of its kind on a podcast attempts to redress this lack of attention to Night Vale by bringing together an international group of scholars from different disciplines to consider the program s form themes politics and fanbase After a thorough introduction by the volume s editor Jeffrey Andrew Weinstock the eight contributors not only offer close analysis of Night Vale but use the program as the impetus for broader explorations of new media gender the constitution of identity the construction of place and the human relationship to meaning and the non human "Education Has Nothing to Do with Theology" Edward J. Newell,2006-08-01 Does education have any relation to theology How do the educator s worldview commitments speak to his or her practice of education James Michael Lee brought a definite answer to these questions a firm no to the relations question and an advocacy for empirical findings over and against any speculative or theoretical positions in reply to the commitments question Lee claimed to have a universal neutral metatheory for all religious education a theory that would apply to all religious educators in any and every religion But in proposing his theory he overlooked the way that empirical facts express worldviews This book is a detective story tracing commitments that lay underneath empirical neutrality In the process the reader will see avenues that unmistakably link education to theology Education turns out to be a thoroughly worldview conditioned process This new work is essential reading for professors and students in both religious and general education *Anxiety, Modern Society, and the Critical Method* Joel Michael Crombez,2021-03-08 Anxiety Modern Society and the Critical Method interrogates the historical intersections of political economy technology and anxiety By analyzing and building upon the tools developed by critical theorists to diagnose the symptoms of modern life such as alienation anomie the Protestant ethic and repression Joel Michael Crombez convincingly argues for a revitalization of critical social science to better confront the anxiety of life in modern societies With anxiety typically falling under the purview of psychology and its biomedical approach to treatment here anxiety is demonstrated to have origins in the totalizing logics of modern society As such Crombez provides an interdisciplinary roadmap to diagnose and treat anxiety which he calls critical socioanalysis that accounts for the psychosocial complexity of its production A Critical Introduction to Contemporary Social Theory Piotr Sztompka,2025-02-24 Examining the core sociological theories that have emerged in the first two decades of the current century A Critical Introduction to Contemporary Social Theory outlines their attempts to answer the most fundamental questions of the discipline from the nature of social order to the mechanisms of social change Through a careful exploration of the history of modern social theory Piotr Sztompka lays the critical

groundwork for investigating the development of contemporary social theory from its founding fathers in the 19th century through the rich contributions of the 20th century known as the golden age of theory up to the most recent developments and illuminates how it is both anchored in and a critique of previous attempts to theorize foundational questions to social being and action Contemporary theory the book argues is now moving toward analysis of action interpersonal relations social and epistemological realism and multivalent mechanisms at the root of social phenomenon Major social theoretical thinkers like Anthony Giddens Pierre Bourdieu Jeffrey Alexander Randall Collins Jonathan Turner Hans Joas Ulrich Beck Erving Goffman and others are presented and evaluated as significant contributors to contemporary social theory while pointing toward future possibilities for social theory in the current century This will be a key resource for undergraduate and graduate students in sociology social theory and contemporary cultural studies
