Giving Comfort and Inflicting Pain Irena Madjar, 2016-09-17 This phenomenological study describes the lived experience of pain inflicted in the context of medically prescribed treatment and it explores the meanings of such pain for patients who endured it and for nurses whose actions contributed to its generation Thus it presents a thematic description of the phenomenon of clinically inflicted pain The dangers for both patients and nurses when clinically inflicted pain is ignored overlooked or treated with detachment are presented The study also points the way toward nursing practice that is guided by thoughtfulness and sensitivity to patients' lived experience and an awareness of the freedom and responsibility inherent in nursing actions including those involved in inflicting and relieving pain Questions are raised about nurses' knowledge attitudes and actions in relation to clinically inflicted pain The study highlights the need for nursing education and practice to consider the contribution of a phenomenological perspective to the understanding of the human experience of pain and the nursing role in its generation prevention and relief

Caring Peta Bowden, 2008-01-28 In *Caring* Peta Bowden extends and challenges recent debates on feminist ethics She takes issue with accounts of the ethics of care that focus on alleged principles of caring rather than analysing caring in practice *Caring* Bowden argues must be understood by working through examples Following this approach Bowden explores four main caring practices mothering friendship nursing and citizenship Her analysis of the differences and similarities in these practices their varying degrees of intimacy and reciprocity formality and informality vulnerability and choice reveals the practical complexity of the ethics of care *Caring* recognizes that ethical practices constantly outrun the theories that attempt to explain them and Bowden's unique approach provides major new insights into the nature of care without resorting to indiscriminate unitary models It will be essential reading for all those interested in ethics gender studies nursing and the caring professions

The Sorcerer's Apprentice Bruce Hillman, Jeff Goldsmith, 2010-10-29 Many will remember the segment of *The Sorcerer's Apprentice* in the Disney film *Fantasia* it is a perfect metaphor for medical imaging as it stands today The apprentice magician tests his nascent skills at sorcery by bringing common household items to life and putting them to work At first things go well but eventually he loses control and chaos ensues Medical imaging too could spin out of control The benefits of imaging are undeniable In the past thirty years

innovations like CT MRI and PET scanning have not only markedly reduced clinical risk for patients but have also transformed medical practice. Its costs however have grown explosively to the point where imaging expenses have become a political issue. The aggressive adoption of imaging technology has raised issues about the role of inappropriate economic incentives and the role of defensive medicine in driving up medical costs. Radiologists have utilized imaging technology to transform their practice from a pure diagnostic discipline into a curative one. Radiologists are among the most successful knowledge workers in the entire economy leveraging digital information technology and Internet connectivity to become the first global medical discipline. Imaging is poised to make a further quantum advance into the workings of the human cell and the molecular biology of complex disease. Where is this remarkable technology and the discipline which uses it headed? How can society make the most responsible use of this powerful new tool? How will imaging and radiologists reshape medical practice? These questions will be answered by *The Sorcerer's Apprentice* **A MIDWIFE'S TALE** LAUREL THATCHER ULRICH, 1990 **The Primacy of Caring** Patricia E. Benner, Judith Wrubel, 1989. The Primacy of Caring is unique and remarkable not only because it eludes classification within the curricular and practice arenas of professional nursing but also because it offers a totally new view of stress coping and caring. The authors define and describe the essence of nursing practice and make visible and powerful the hidden expertise of that practice **Clinical Wisdom and Interventions in Acute and Critical Care, Second Edition** Patricia Hooper-Kyriakidis, Daphne Stannard, 2011-03-28 2011. AJN Book of the Year Winner in Critical Care Emergency Nursing. This book is a lavishly detailed guide to the essence of becoming an expert nurse. Lynaugh PhD RN FAAN Professor Emeritus University of Pennsylvania School of Nursing. families **The Sorcerer's Apprentice** John Richardson, 2001-09-25 The Sorcerer's Apprentice is John Richardson's vivid memoir of the time he spent living with and learning from the deeply knowledgeable and temperamental art collector Douglas Cooper. For ten years the two entertained a circle of friends that included Jean Cocteau, W. H. Auden, Tennessee Williams, and most intriguingly Pablo Picasso. Compulsively readable and beautifully illustrated, this book is both a triple portrait of the author, Cooper, and Picasso and a revealing look at a crucial artistic period. **Devo Mannix the Sorcerer's Apprentice** Roland Boike, 2015-09-16 An accidental slip of the tongue while sitting in his magical 1925 Rolls Royce Phantom 1 automobile transports Devo on an unexpected adventure. Devo is accidentally struck on the head, suffers a temporary loss of memory, and forgets where he is, who he is, and how to return home. While still suffering from temporary loss of memory, Devo meets a young girl sitting on a bench in a cemetery. Devo helps the girl recover from the calamities that have occurred to her, and she in turn helps Devo regain his memory. A gift of a golden necklace and a diary from the girl starts Devo Mannix on a quest to solve a 120-year-old Civil War mystery in an attempt to clear her family name. Upon returning home, Devo finds he has inherited a 1,016-pound antique magical steamer trunk without the key to open it. In a search to find the key, Devo, his talking dog Speeler, and his friend Julie are held captive by an unscrupulous ex-convict. Speeler, the talking dog, comes up with a plan for escape that sends their captive to the hospital seeking medical attention. Eventually, the plan backfires, resulting in Devo being thrown into the magical steamer trunk and held prisoner. Devo's eventual escape from the trunk solves one of the mysteries of the trunk concerning its contents and the original owner. **Forthcoming Books** Rose Arny, 1988 *A Disease of Society* Dorothy Nelkin, 1991-02-22 This book, first published in 1991, argues that AIDS is a disease of society which is challenging and changing society profoundly. **Varieties of Hope** Gordon Barlow Dodds, 1993 A collection of prose writings which present the hopes and expectations of many different Oregonians from varied time periods and cultural backgrounds. **The Dolphin Reader** Douglas Hunt, Carolyn Perry, 1999 A thematically arranged composition reader. It incorporates high-interest reading material with creative, principled pedagogy, traditional concerns about correctness, coherence, and meaning, and step-by-step writing assignments that guide students in composing successful papers. A key objective of the anthology is to integrate reading and writing more closely and usefully than most other readers on the market today. **Reading Portland** John Trombold, Peter Donahue, 2006 Reading Portland is a literary exploration of the city's past and present.
