Patisserie Leonard J. Hanneman, 2009-11-03. This classic book, widely known and used by patissiers, is a professional text on the art of patisserie. In the twenty years that *Patisserie* has been published, there have been great changes in almost every aspect of this art, and the author has thoroughly updated this new edition to take account of these. Updated in paperback format, the revised edition of this classic text is now even more affordable, practical, and enjoyable. Complete with the original beautiful seventy-three colour photographs, each shows clearly how the finished product should be presented, and a wide range of diagrams demonstrate the more complex processes. New dishes have been added, for example, pavlova, sticky toffee pudding, blinis, pasta dough, frangipane, apple cheesecake, and sugar balls, while some of the existing ones have been amended or replaced. Additional information on fruits and on using eggs or egg substitutes in patisserie have been included. Of special interest are the chapters on equipment, commodities, and hygiene, which include the provisions of the Food Hygiene (Amended) Regulations 1990 as far as they affect the patisserie section of the catering industry.
