Soul Of A Child 1922:

The Machine Has a Soul Katy Hull, 2025-06-17 A historical look at the American fascination with Italian fascism during the interwar period In the interwar years the United States grappled with economic volatility and Americans expressed anxieties about a decline in moral values the erosion of families and communities and the decay of democracy These issues prompted a profound ambivalence toward modernity leading some individuals to turn to Italian fascism as a possible solution for the problems facing the country *The Machine Has a Soul* delves into why Americans of all stripes sympathized with Italian fascism and shows that fascism's appeal rested in the image of Mussolini's regime as the machine which will run and has a soul a seemingly efficient and technologically advanced system that upheld tradition religion and family Katy Hull focuses on four prominent American sympathizers Richard Washburn Child a conservative diplomat and Republican operative Anne O Hare McCormick a distinguished New York Times journalist Generoso Pope an Italian American publisher and Democratic political broker and Herbert Wallace Schneider a Columbia University professor of moral philosophy In fascism's violent squads they saw youthful glamour and impeccable manners in the megalomaniacal Mussolini they perceived someone both current and old fashioned and in the corporate state they witnessed a politics that could revive addled minds They argued that with the right course of action the United States could use fascism to take the best from modernity while withstanding its harmful effects Investigating the motivations of American fascist sympathizers *The Machine Has a Soul* offers provocative lessons about authoritarianism's appeal during times of intense cultural social and economic strain **Book Bulletin**, 1920

Psychology and the Soul Otto Rank, 1998 In his last years Otto Rank turned his lifetime of thought and learning toward two of the most difficult topics in human history religion and the soul The result was this now classic work available in this new very accessible English translation Unlike many other intellectuals of the twentieth century Rank maintains a place for the soul rather than dismissing it as a fantasy The soul and the beliefs about it he argues set forth the foundation for psychology with its complex analyses of consciousness self consciousness and personality Rank's commentary is not limited to beliefs about individual souls but includes ideas about group souls sometimes encompassing nations or generations Rank suggests that it is in expression of group beliefs that the idea of the soul attains its greatest power Soul Economy Rudolf Steiner, 2003-03 13 lectures Nuremberg June 17 30 1908 CW 104 Initiation enables a person to see understand and

communicate what may be observed with spiritual eyes St John s text arises from such an initiation It addresses the fundamental questions of existence that every human being asks Where are we Where have we come from Where are we going And because it arises from esoteric Christian vision it emphasizes the task of the individual What am I and what is my purpose now in this era of cosmic and human evolution These talks by Rudolf Steiner unveil the mysteries of John s vision and show it to be a profound description of Christian initiation As Rudolf Steiner says The deepest truths of Christianity may be considered quite naturally in connection with this document for it contains a great part of the mysteries of Christianity that is the profoundest part of what may be described as esoteric Christianity Steiner shows that the messages to the seven churches and the unsealing of the seven seals must be understood as an initiation text Based on his initiation and on spiritual science Steiner interprets John s insights into cosmic and human history In this way the spiritual images of John s writing the twenty four elders the sea of glass the woman clothed with the sun the vials of wrath the lamb and the dragon the new heaven and the new earth and the number of the beast all take on new meaning Since the previous painful century has closed these important words have even greater meaning and significance Readers interested in contributing their moral will to future generations cannot afford to pass them by Includes images of the seven apocalyptic seals painted by G Rettich in 1907 following sketches by Rudolf Steiner This volume is a translation from German of Die Apokalypse des Johannes GA 104
