Stoning the Keepers at the Gate Lawrence N. Blum, 2002 In *Stoning the Keepers at the Gate* police psychologist Lawrence N Blum Ph D looks at the role of law enforcement in modern times and argues that while bad cops need to be rooted out blanket condemnation of the police threatens the very liberties that make such condemnation possible as well as the safety of the American public in their homes and lives Blum argues that the enormous stresses officers experience from violent physical attack to unrewarded or misunderstood acts of heroism require special understanding an understanding that is often missing from police departments themselves Blum provides a unique insight into the dynamics practices and activities within police agencies that influence police officers actions and that often hide the real sources of police behaviors that are thought of as faulty insensitive or inappropriate A passionate call not only for understanding but a reappraisal of whose actions are scrutinized within and outside of police agencies police accountability and the nature of policing itself in the twenty first century *Stoning the Keepers at the Gate* is a dynamic and fascinating analysis of the role of law enforcement today

Blum, 2001-08 In *Force Under Pressure* Dr Lawrence Blum who has devoted his life's work to the survival and wellness of those who serve describes the sources of danger injuries and victory to police officers in a down to earth readable style Blum argues that there are missing ingredients in the training and socialization of police officers These ingredients include techniques and tools to condition the officer's decision making and concentration during conditions of emergency internal controls necessary to maintain the will to survive and aids that will prevent officers being defeated by any threat Distressing and or disturbing physical and psychological reactions are common in a police officer's workday and the officer must be prepared for them Blum's work has uncovered many of the causes of compromise to officer safety and wellness and he contends that police officers will be well prepared to cope with unanticipated or rapidly changing encounters if they possess the right tools and the know how to command and control field encounters and life's pressures Here Blum provides practical tools for survival in law enforcement by combining his clinical knowledge with true
