## **Social Context Of Creolization:**

**The Social Context of Creolization** Ellen B. Woolford, William Washabaugh, 1983 Creolization and Pidginization in Contexts of Postcolonial Diversity, 2018-02-27 This book deals with creolization and pidginization of language culture and identity and makes use of interdisciplinary approaches developed in the study of the latter Creolization and pidginization are conceptualized and investigated as specific social processes in the course of which new common languages socio cultural practices and identifications are developed under distinct social and political conditions and in different historical and local contexts of diversity The contributions show that creolization and pidginization are important strategies to deal with identity and difference in a world in which diversity is closely linked with inequalities that relate to specific group memberships colonial legacies and social norms and values

**Creole Identity in Postcolonial Indonesia** Jacqueline Knörr, 2014-03 Contributing to identity formation in ethnically and religiously diverse postcolonial societies this book examines the role played by creole identity in Indonesia and in particular its capital Jakarta While on the one hand it facilitates transethnic integration and promotes a specifically postcolonial sense of common nationhood due to its heterogeneous origins creole groups of people are often perceived ambivalently in the wake of colonialism and its demise on the other In this book Jacqueline Knörr analyzes the social historical and political contexts of creoleness both at the grassroots and the State level showing how different sections of society engage with creole identity in order to promote collective identification transcending ethnic and religious boundaries as well as for reasons of self interest and ideological projects

**Gradual Creolization** Rachel Selbach, Hugo C. Cardoso, Margot van den Berg, 2009-04-08 Is creolization an abrupt or a gradual process In this volume leading scholars provide both comparative and case studies that outline their working definitions and their views on the particular or average time depth or key processes necessary for contact language formation providing a state of the art assessment of the theory of gradual creolization Authors scrutinize the roles of nativization demography initial settlement language composition koineization adstrate presence bilingualism as well as a variety of structural features in pidgins creoles and other contact languages world wide From Pacific to Atlantic French English Dutch Portuguese and other lexified restructured varieties are covered Syntactic lexical phonological historical and socio cultural studies are grouped into Part 1 Linguistic analysis and Part 2 Social reconstruction This volume provides the multi faceted groundwork and expert discussion that will help formulate further a model of gradual creolization as called for by the work of the late Jacques Arends

Word-Formation and Creolisation Maria Braun, 2009-12-23 This book explores a relatively little investigated area of creole languages word formation It provides the most comprehensive account so far of the word formation patterns of an English based creole language Sranan as found in its earliest sources and compares them with the patterns attested in the input languages One of the few studies of creole morphology based on historical data the book discusses the theoretical problems arising with the historical analysis of creole word formation and provides an analysis

along the lines of Booij's 2005/2007 *Construction Morphology* in which the assumed boundaries between affixation, compounding and syntactic constructions play a very minor role. It shows that Early Sranan word formation is characterised by the absence of superstrate derivational affixes, the use of free morphemes as derivational markers and of compounding as the major word formation strategy. The emergence of Early Sranan word formation involved multiple sources: the input languages, universals, language internal development and different mechanisms: reanalysis of free morphemes as derivational markers, adaptation of superstrate complex words transfer from the substrates and the creation of innovations. The findings render untenable theoretical accounts of creole genesis based on one explanatory factor such as superstrate or substrate influence.

**CREOLIZATION** Charles Stewart, 2007-03-31. Renowned scholars give the term creolization historical and theoretical specificity by examining the very different domains and circumstances in which the process takes place.

**Contact and Evolution in the History of Krio** Malcolm Awadajin Finney, 2025-06-16. Creolists acknowledge the critical role of Krio in furthering understanding of the emergence and development of Atlantic creoles. This book examines the development and restructuring of Krio linguistic properties from diachronic and synchronic perspectives and explores historical linguistic, social and demographic contexts under which Krio emerged, expanded and evolved. It appraises effects of language contact, historical and contemporary, on its phonological, lexical, lexico-semantic, morphophonological and morphosyntactic properties. It is a great resource for academic teaching and for scholars, researchers and practitioners engaged in comparative work of pidgin and creole languages.

**Pidgin and Creole Languages** Suzanne

Romaine, 2017-09-08. This book defines and describes the linguistic features of these languages and considers the dynamic developments that bring them into being and lead to changes in their structure.

**The History of English** Ishtia

Singh, 2013-09-05. The History of English provides an accessible introduction to the changes that English has undergone from its Indo-European beginnings to the present day. The text looks at the major periods in the history of English and provides for each a socio-historical context, an overview of the relevant major linguistic changes and also focuses on an area of current research interest, either in sociolinguistics or in literary studies. Exercises and activities that allow the reader to get hands-on with different stages of the language as well as with the concepts of language change are also included. By explaining language change with close reference to literary and other textual examples and emphasising the integral link between a language and its society, this text is especially useful for students of literature as well as linguistics.

**Contact Languages**

Peter Bakker, Yaron Matras, 2013-06-26. This volume deals with several types of contact languages: pidgins, creoles, mixed languages and multi-ethnolects. It also approaches contact languages from two perspectives: an historical linguistic perspective, more specifically from a viewpoint of genealogical linguistics, language descent and linguistic family tree models; and a sociolinguistic perspective, identifying specific social contexts in which contact languages emerge.

**International**

**The Sociology of Slavery** Orlando Patterson, 2022-04-27 Orlando Patterson's classic study of slavery in Jamaica reveals slavery for what it was a highly repressive and destructive system of human exploitation which disregarded and distorted almost all of the basic prerequisites of normal social life What distinguishes Patterson's account is his detailed description of the lives and culture of slaves under this repressive regime He analyses the conditions of slave life and work on the plantations the psychological life of slaves and the patterns and meanings of life and death He shows that the real life situation of slaves and enslavers involved a complete breakdown of all major social institutions including the family gender relations religion trust and morality And yet despite the repressiveness and protracted genocide of the regime slaves maintained some space of their own and their forced adjustment to white norms did not mean that they accepted them Slave culture was characterized by a persistent sense of resentment and injustice which underpinned the day to day resistance and large scale rebellions that were a constant feature of slave society the last and greatest of which partly accounts for its abolition This second edition includes a new introduction by Orlando Patterson which explains the origins of the book appraises subsequent works on Jamaican slavery and reflects on its enduring relevance Widely recognized as a foundational work on the social institution of slavery this book is an essential text for anyone interested in the role of slavery in shaping the modern world

*Friends and Strangers* John Smolenski, 2011-12-30 In its early years William Penn's Peaceable Kingdom was anything but Pennsylvania's governing institutions were faced with daunting challenges Native Americans proved far less docile than Penn had hoped the colony's non English settlers were loath to accept Quaker authority and Friends themselves were divided by grievous factional struggles Yet out of this chaos emerged a colony hailed by contemporary and modern observers alike as the most liberal tolerant and harmonious in British America In *Friends and Strangers* John Smolenski argues that Pennsylvania's early history can best be understood through the lens of creolization the process by which Old World habits values and practices were

transformed in a New World setting Unable simply to transplant English political and legal traditions across the Atlantic Quaker leaders gradually forged a creole civic culture that secured Quaker authority in an increasingly diverse colony By mythologizing the colony's early settlement and casting Friends as the ideal guardians of its uniquely free and peaceful society they succeeded in establishing a shared civic culture in which Quaker dominance seemed natural and just The first history of Pennsylvania's founding in more than forty years Friends and Strangers offers a provocative new look at the transfer of English culture to North America Setting Pennsylvania in the context of the broader Atlantic phenomenon of creolization Smolenski's account of the Quaker colony's origins reveals the vital role this process played in creating early American society

**Down by the Riverside** Charles Joyner, 2022-08-15 Charles Joyner takes readers on a journey back in time up the Waccamaw River through the Lowcountry of South Carolina past abandoned rice fields once made productive by the labor of enslaved Africans past rice mills and forest clearings into the antebellum world of All Saints Parish In this community and many others like it enslaved people created a new language a new religion indeed a new culture from African traditions and American circumstances Joyner recovers an entire lost society and way of life from the letters diaries and memoirs of the plantation whites and their guests from quantitative analysis of census and probate records and above all from the folklore and oral history of the enslaved Americans His classic reconstruction of daily life in All Saints Parish is an inspiring testimony to the ingenuity and solidarity of a people This anniversary edition of Joyner's landmark study includes a new introduction in which the author recounts his process of writing the book reflects on its critical and popular reception and surveys the past three decades of scholarship on the history of enslaved people in the United States

**Structure and Variation in Language Contact** Ana Deumert, Stephanie Durrleman-Tame, 2006-01-01 This volume presents a careful selection of fifteen articles presented at the SPCL meetings in Atlanta Boston and Hawai'i in 2003 and 2004 The contributions reflect from various perspectives and using different types of data on the interplay between structure and variation in contact languages both synchronically and diachronically The contributors consider a wide range of languages including Surinamese creoles Chinook Jargon Yiddish AAVE Haitian Creole Afro-Hispanic and Afro-Portuguese varieties Nigerian Pidgin Sri Lankan Malay Papiamentu and Bahamian Creole English Hackert A need to question and test existing claims regarding pidginization creolization is evident in all contributions and the authors provide analyses for a variety of grammatical structures VO ordering and affixation agglutination negation TMAs plural marking the copula and serial verb constructions The volume provides ample evidence for the observation that pidgin creole studies is today a mature subfield of linguistics which is making important contributions to general linguistic theory

**The Oxford Guide to the Atlantic Languages of West Africa** Friederike Lüpke, 2025-06-17 This volume presents the first book-length overview of the Atlantic languages a small family of languages spoken mainly on the Atlantic coast of West Africa Languages in this area have been used in diverse multilingual societies with intense language contact for the whole of their known history and their

genealogical relatedness and the impact of language contact on their lexicon and grammar have been widely debated The book is divided into four parts The first provides an introduction to language ecologies in the area and includes two accounts of the genealogical classification of Atlantic languages Chapters in the second part offer grammatical overviews of individual languages including the most important non Atlantic contact languages Casamance Creole and Mandinka while the third part explores Atlantic languages from a typological perspective with chapters that explore formal and semantic aspects of their nominal classification systems nominalization strategies their rich system of verbal extensions and the stem initial consonant mutation that is attested in a subset of languages The final part of the book investigates Atlantic languages in their social environments including the creation of creole identities secret languages Ajami writing practices language acquisition the spread and use of Fula as a lingua franca digital language practices and language ideologies The volume is an essential tool for linguists interested in the languages of West Africa language history and classification patterns of language use in Atlantic societies and typology and language contact more broadly Sentential Complementation in Sranan Ingo Plag,1993
