

GROUP DYNAMICS

DEFINITION

Group dynamics refers to the patterns of behavior and interpersonal relationships within a group. It encompasses how group members interact, communicate, make decisions, and assume specific roles, ultimately shaping the group's overall performance and effectiveness.

EXAMPLES

- **Positive interdependence:** A good group has a sense of positive interdependence. This is a term used to describe a group dynamic wherein individual and group goals are aligned.
- **Shared purpose:** One of the first things a group lays out when it comes together is its purpose.

The Social Dynamics of Pronominal Systems Paul Bouissac, 2019-07-15 Personal pronouns have a special status in languages As indexical tools they are the means by which languages and persons intimately interface with each other within a particular social structure Pronouns involve more than mere grammatical functions in live communication acts They variously signal the gender of speakers as parts of utterances or in their anaphoric roles They also prominently indicate with a range of degrees the kind of social relationships that hold between speakers from intimacy to indifference from dominance to submission and from solidarity to hostility Languages greatly vary in the number of pronouns

and other address terms they offer to their users with a distinct range of social values Children learn their relative position in their family and in their society through the correct use of pronouns When languages come into contact because of population migrations or through the process of translation pronouns are the most sensitive zone of tension both psychologically and politically This volume endeavours to probe the comparative pragmatics of pronominal systems as social processes in a representative set from different language families and cultural areas

Coordination: Neural, Behavioral and Social Dynamics Armin Fuchs, Viktor K. Jirsa, 2007-12-11 One of the most striking features of Coordination Dynamics is its interdisciplinary character The problems we are trying to solve in this field range from behavioral phenomena of interlimb coordination and coordination between stimuli and movements perception action tasks through neural activation patterns that can be observed during these tasks to clinical applications and social behavior It is not surprising that close collaboration among scientists from different fields as psychology kinesiology neurology and even physics are imperative to deal with the enormous difficulties we are facing when we try to understand a system as complex as the human brain The chapters in this volume are not simply write ups of the lectures given by the experts at the meeting but are written in a way that they give sufficient introductory information to be comprehensible and useful for all interested scientists and students

Social Dynamics in Swiss Society Robin Tillmann, Marieke Voorpostel, Peter Farago, 2018-06-13 Using longitudinal data from the Swiss Household Panel to zoom in on continuity and change in the life course this open access book describes how the lives of the Swiss population have changed in terms of health family circumstances work political participation and migration over the last sixteen years What are the different trajectories in terms of mobility health wealth and family constellations What are the drivers behind all these changes over time and in the life course And what are the implications for inequality in society and for social policy The Swiss Household Panel is a unique ongoing longitudinal survey that has followed a large sample of Swiss households since 1999 The data provide the rare opportunity to go beyond a snapshot of contemporary Swiss society and give insight into the processes in people s lives and in society that lie behind recent developments

Textual Politics: Discourse And Social Dynamics Jay L. Lemke, 2005-10-18 Texts record the meanings we make in words pictures and deeds and politics chronicles our uses of power in shaping social relationships large and small Textual politics is about meaning the meaning we make with words and with the symbolic values of every object and action The book begins with an introduction which discusses the relationship between Discourse And The Notions Of Power And Ideology These Concepts Are Then applied to major issues the social construction of class gender and individuality the rhetoric of polarizing social controversies religious fundamentalism vs gay rights and the abuse of technical language in policy arguments educational research vs conservative politics The book ends with chapters which extend the theory to processes of large scale social change and apply it to the challenges facing education and political action in the new global information century
