Social Issues In Hong Kong:

Social Issues in Hong Kong Geoffrey H. Blowers, 1990 **Social Issues in Hong Kong** Benjamin K. P. Leung, 1990 This collection of essays critically examines the major social issues in Hong Kong. The topics covered include the distribution of power in society, political development and democratization, community politics, poverty, sexual inequality and the working environment, collective violence, ageing, pornography and mental illness. The authors, all members of the teaching staff at the University of Hong Kong, bring to the discussion of these topics their expertise in a variety of fields: psychology, sociology, social work and psychiatry.

Social Issues and Public Policy Amelie Novak, 2024-07-29 Unveil the intricate political landscape of Hong Kong with *Political Structure and Governance*, a comprehensive guide to understanding the city's unique political framework. This book is an essential resource for anyone interested in the complex interplay between Hong Kong's legal system, its Basic Law, and the innovative One Country Two Systems framework that underpins its governance. At the heart of Hong Kong's political structure is the Basic Law, a constitutional document that delineates the city's legal and administrative functions. This book offers an in-depth analysis of the Basic Law, exploring its origins, its provisions, and its role in shaping Hong Kong's legal landscape. Readers will gain a nuanced understanding of how this vital document operates as the cornerstone of Hong Kong's autonomy within the People's Republic of China. The One Country Two Systems principle is another critical element discussed in detail. This framework, designed to maintain Hong Kong's economic and administrative systems distinct from those of mainland China, presents a unique governance model. The book examines how this principle has been implemented, its successes, and the ongoing challenges it faces. Through a detailed exploration, readers will appreciate the delicate balance required to maintain this dual system of governance. *Political Structure and Governance* also delves into the legal system of Hong Kong, renowned for its robustness and adherence to the rule of law. The book provides insights into the judiciary's role, the structure of the courts, and the legal traditions inherited from its British colonial past. This section elucidates how Hong Kong's legal system functions as a guardian of rights and freedoms, ensuring justice and maintaining public confidence. Furthermore, the book addresses the political dynamics that influence governance in Hong Kong. It explores the roles of the Executive, Legislative, and Judicial branches of government, offering a detailed examination of their interplay. Readers will learn about the Chief Executive's responsibilities, the Legislative Council's legislative process, and the judiciary's independence. The challenges facing Hong Kong in maintaining its autonomy are also a focal point. This includes the pressures from mainland China, the socio-political movements advocating for greater democratic freedoms, and the international community's reactions.

In this way, it functions as an accessible reader for final year undergraduates as well as postgraduate students.

The Public Sector in Hong Kong, Second Edition Ian Scott, 2022-09-21. This book describes and analyses the role of the public sector in the often charged political atmosphere of post 1997 Hong Kong. In this second edition, Ian Scott explores public sector accountability in terms of Hong Kong's constitutional framework and the structure, functions and personnel policies of its civil service system. He examines critical issues facing the administration of the public sector and the formulation and implementation of public policy with particular attention to the political challenges confronting the Hong Kong government over the past decade. A concluding chapter assesses how contested values in a changing political environment have affected the public sector in recent years. This edition has been fully updated to incorporate the latest statistics and research, including Scott's work in such areas as integrity management, corruption prevention and policing. This book is an essential resource for scholars and students of public administration and public policy in Hong Kong and more broadly for those who are interested in how a particular jurisdiction deals with common administrative problems such as centralisation, the role of statutory bodies, corruption prevention and the redress of citizens' grievances. Professor Ian Scott's book *The Public Sector in Hong Kong* now in a second, much expanded and up to date edition, offers a thorough and rigorous analysis of contemporary governance in Hong Kong, focusing on all the key stakeholders. The book is essential reading for government officials, politicians, journalists, academics, students and the general public. John P. Burns, The University of Hong Kong. The second edition not only updates the development in the public sector of Hong Kong but also provides an important perspective to help readers understand the contexts that navigate its latest developments. This edition, along with Ian Scott's earlier work, will be judged by many in the field to be among the best books on Hong Kong politics. Hon S. Chan, City University of Hong Kong.

Politics and Government in Hong Kong Ming Sing,2009 This book examines the government of Hong Kong since its handover to mainland China in 1997 focusing in particular on the anti government mass protests and mobilisations in the years since 2003 It argues that Hong Kong has been poorly governed since transferring to Chinese rule and that public frustration with governmental performance including anti subversion laws and slow democratisation has resulted in the regular and massive protests which have been rare in Hong Kong s past political development The book then assesses different explanations for Hong Kong s government problems including lack of social cohesion incomplete economic restructuring structural budgetary

deficit severe social inequality intensifying cronyism and deficiencies within the political system itself It goes on to discuss the implications of poor governance for legislative elections civil society and constitutional development and considers the prospects for the future It argues that although in the short term the Hong Kong government has managed to maintain its popular support ratings in the longer run it is unlikely to be able to maintain its legitimacy in dealing with the fundamental challenges of government unless the current system is replaced by popular election of the government with appropriate institutional capacity and political powers

Capital Choices Juergen Braunstein, 2019-07-09 Sovereign wealth funds are state controlled pools of capital that hold financial and real assets including shares of state enterprises and manage them to grow the nation's base of sovereign wealth The dramatic rise of sovereign wealth funds SWFs in both number and size this group is now larger than the size of global private equity and hedge funds combined and the fact that most are located in non OECD countries has raised concern about the direction of capitalism Yet SWFs are not a homogenous group of actors Why do some countries with large current account surpluses notably China create SWFs while others such as Switzerland and Germany do not Why do other countries with no macroeconomic justification such as Senegal and Turkey create SWFs And why do countries with similar macroeconomic features such as Kuwait and Qatar or Singapore and Hong Kong choose different types of SWFs *Capital Choices* analyzes the creation of different SWFs from a comparative political economy perspective arguing that different state society structures at the sectoral level are the drivers for SWF variation Juergen Braunstein focuses on the early formation period of SWFs a critical but little understood area given the high levels of political sensitivity and lack of transparency that surround SWF creation Braunstein's novel analytical framework provides practical lessons for the business and finance organizations and policymakers of countries that have created or are planning to create SWFs
