Populism and Key Concepts in Social and Political Theory ,2023-07-31

This volume aims to generate a dialogue between scholarship on populism and social and political theory. It focuses on citizenship, class, gender, cleavages, sovereignty, accountability, participation, leadership, and parties. The volume explores how classical and current theorists developed these categories, how they were used by scholars of populism, and what populism tells us about their heuristic advantages and limitations. The authors of this book have studied populism in Europe, the US, and Latin America from distinct perspectives. The chapters thus focus on experiences in both the Global North and South. Contributors are Cecilia Biancalana, Paula Diehl, Reinhard Heinisch, Klaudia Koxha, Alfio Mastropaolo, Oscar Mazzoleni, Enrique Peruzzotti, Kenneth M. Roberts, Luis Roniger, and Carlos de la Torre. *Populism and Key Concepts in Social and Political Theory* is now available in paperback for individual customers. [The SAGE Handbook of Political Science](#) Dirk Berg-Schlosser, Bertrand Badie, Leonardo Morlino, 2020-02-11. The SAGE Handbook of Political Science presents a major retrospective and prospective overview of the discipline. Comprising three volumes of contributions from expert authors from around the world, the handbook aims to frame, assess, and synthesize research in the field, helping to define and identify its current and future developments. It does so from a truly global and cross-area perspective. Chapters cover a broad range of aspects, from providing a general introduction to exploring important subfields within the discipline. Each chapter is designed to provide a state-of-the-art and comprehensive overview of the topic by incorporating cross-cutting global, interdisciplinary, and where this applies, gender perspectives. The Handbook is arranged over seven core thematic sections: Part 1 Political Theory; Part 2 Methods; Part 3 Political Sociology; Part 4 Comparative Politics; Part 5 Public Policies and Administration; Part 6 International Relations; Part 7 Major Challenges for Politics and Political Science in the 21st Century. *Handbook of Research on Politics in the Computer Age* Solo, Ashu M. G., 2019-08-30. Technology, and particularly the Internet, have caused many changes in the realm of politics. Aspects of engineering, computer science, mathematics, or natural science can be applied to politics. Politicians and candidates use their own websites and social network profiles to get their message out. Revolutions in many countries in the Middle East and North Africa have started in large part due to social networking websites such as Facebook and Twitter. Social networking has also played a role in protests and riots in numerous countries. The mainstream media no longer has a monopoly on political commentary as anybody can set up a blog or post a video online. Now political activists can network together online. The Handbook of Research on Politics in the Computer Age is a pivotal reference source that serves to increase the understanding of methods for politics in the computer age, the effectiveness of these methods, and tools for analyzing these methods. The book includes research chapters on different aspects of politics with information technology, engineering, computer science, or math from 27 researchers at 20 universities and research organizations in Belgium, Brazil, Cape Verde, Egypt, Finland, France, Hungary, Italy, Mexico, Nigeria, Norway, Portugal, and the United States of America. Highlighting topics such as online campaigning and fake news, the prospective audience includes, but is not limited to, researchers, political and public policy analysts, political scientists, engineers, computer scientists, political

This book explores Technological Human Enhancement Advocacy through ethnographically inspired participant observation across a range of sites James Michael MacFarlane argues that such advocacy is characterized by Techno centrism a belief grounded in today s world while being also future oriented and drawn from the imagination This blurring of real and imagined futures borrows from the materialist grounding of the scientific worldview while granting extended license to visions for technology as an enabler of forward facing action which include reviving humanist ideals associated with the modernization project While Techno centrism is arguably most pronounced in transhumanism where it is acted out in extreme almost hyperbolic ways it reflects more generally held deep seeded concerns around the future of science technology and human self identity in the new millennium Far from being new these emerging social forms capture unresolved ambivalences which have long cast a shadow over late modern society and culture Networks and Mobilization Processes: The Case of the Japanese Anti-Nuclear Movement after Fukushima Anna Wiemann,2018-05-14 Environmental disasters or other large scale disruptive events often trigger the emergence of social movements demanding social and or political change This study investigates mobilization processes at the meso level of the Japanese anti nuclear movement after the nuclear disaster at the Fukushima Daiichi nuclear power plant caused by the Great East Japan Earthquake and subsequent tsunami waves on March 11 2011 To capture such meso level movement dynamics which so far have played only a minor role in research on social movement mobilization the study presents an analytical model based on premises from political process theory network theory and relational sociology This model is then applied to the case of the Japanese anti nuclear movement after Fukushima by looking at the relational dynamics of two coalitional movement networks engaged in advocacy related activities in T ky The first case study is e shift a network coalition working for nuclear phase out and the promotion of renewable energy the other is SHSK Shienh Shimin Kaigi a coalition pushing for the rights of people affected by radioactive contamination and or evacuation from contaminated areas The study traces the mobilization processes of these two networks by analyzing data gathered in 2013 and 2014 in the form of participant observation of movement events semi structured interviews with movement organization representatives and documentary data *The Social Science Encyclopedia* Adam Kuper,Jessica Kuper,2004-10-14 The Social Science Encyclopedia first published in 1985 to acclaim from social scientists librarians and students was thoroughly revised in 1996 when reviewers began to describe it as a classic This third edition has been radically recast Over half the entries are new or have been entirely rewritten and most of the balance have been substantially revised Written by an international team of contributors the Encyclopedia offers a global perspective on key issues within the social sciences Some 500 entries cover a variety of enduring and newly vital areas of study and research methods Experts review theoretical debates from neo evolutionism and rational choice theory to poststructuralism and address the great questions that cut across the social sciences What is the influence of genes on behaviour What is the nature of consciousness and cognition What are the causes of poverty and wealth What are the roots of conflict wars

revolutions and genocidal violence This authoritative reference work is aimed at anyone with a serious interest in contemporary academic thinking about the individual in society
