Committee on Ways and Means. Subcommittee on Social Security, 1998      **Social Security and Its Discontents** Michael D. Tanner, 2004-02-25 Social Security is the largest government program in the world But it is also a deeply troubled one on the verge of financial collapse Within 15 years Social Security will begin running a deficit Overall the program is more than 26 trillion in debt Without fundamental reform it will not be able to pay the benefits it has promised to our children and grandchildren That has prompted the most far reaching discussion of the purpose and structure of Social Security since the program was enacted in 1935 Not so very long ago Social Security was rightly regarded as the third rail of American politics touch it and your career dies But no longer Polls today show that the vast majority of Americans support proposals that would allow younger workers to privately invest at least part of their Social Security taxes through individual accounts For more than 25 years the Cato Institute has led the debate for Social Security reform arguing that the program is fundamentally flawed and calling for greater freedom and choice for working Americans Social Security and Its Discontents represents the best of Cato's publications on the issue It includes essays by the nation's top economists and Social Security experts discussing Social Security's finances the urgent need for reform how the program treats women minorities and low income workers and the options for reform Edited by Michael D Tanner this collection is essential reading for anyone who cares about what kind of country we will leave to our children and grandchildren      **Viability of the Social Security Administration's (SSA) Computer Systems** United States. **Strike** Jenny Brown,2019-04-01 When House Speaker Paul Ryan urged U S women to have more children and Ross Douhat requested More babies please in a New York Times column they openly expressed what policymakers have been discussing for decades with greater discretion Using technical language like age structure dependency ratio and entitlement crisis establishment think tanks are raising the alarm if U S women don t get busy having more children we ll face an aging workforce slack consumer demand and a stagnant economy Feminists generally believe that a prudish religious bloc is responsible for the protracted fight over reproductive freedom in the U S and that politicians only attack abortion and birth control to appeal to those values voters But hidden behind this conventional explanation is a dramatic fight over women s reproductive labor On one side elite policymakers want an expanding workforce reared with a minimum of employer spending and a maximum of unpaid women s work On the other side women are refusing to produce children at levels desired by economic planners By some measures our birth rate is the lowest it has ever been With little access to childcare family leave health care and with insufficient male participation U S women are conducting a spontaneous birth strike In other countries panic over low birth rates has led governments to underwrite childbearing and childrearing with generous universal programs but in the U S women have not yet realized the potential of our bargaining position When we do it will lead to new strategies for winning full access to abortion and birth control and for improving the difficult working conditions U S parents now face when raising children     **Social Security Improvements for Women, Seniors, and Working**
