Social Structure Of Attention:

The Social Structure of Attention Michael Robin Alexander Chance, Ray R. Larsen, 1976 **The Social Structure of Attention** Michael Robin Alexander Chance, 1976 *The Many Faces of Social Attention* Aina Puce, Bennett I. Bertenthal, 2015-09-09 social neuroscience social psychology developmental psychology social cognition vision research and clinical psychology social neuroscience social psychology developmental psychology sThis comprehensive volume reviews current developments in our evolving knowledge of social attention and its processes In doing so it examines the brain behavioral bases of social attention from diverse complementary fields including disordered and healthy adult findings infant and developmental studies and social neuroscience The studies explored in this volume reflect the ongoing shift toward naturalistic context based experiments and integrative scientific approaches and away from relying solely on standardized tasks in laboratory settings In keeping with this proactive perspective the authors pose critical questions throughout the book to point readers toward the potential next wave of research developments and interventions Included in the coverage The development of social attention in human infants Neural bases for social attention in healthy humans Social attention social presence and the dual function of gaze Early departures from normative processes of social engagement in infants with Autism Spectrum Disorder Aberrant social attention and its underlying neural correlates in adults with ASD The future of social attention research The Many Faces of Social Attention will interest researchers in social neuroscience social psychology developmental psychology social cognition visual attention and cognition and clinical psychology and inspire new advances in this increasingly important area of study ocial cognition vision research and clinical psychology **Social Structures** John Levi Martin, 2009-07-27 Social Structures is a book that examines how structural forms spontaneously arise from social relationships Offering major insights into the building blocks of social life it identifies which locally emergent structures have the capacity to grow into larger ones and shows how structural tendencies associated with smaller structures shape and constrain patterns of larger structures The book then investigates the role such structures have played in the emergence of the modern nation state Bringing together the latest findings in sociology anthropology political science and history John Levi Martin traces how sets of interpersonal relationships become ordered in different ways to form structures He looks at a range of social structures from smaller ones like families and street gangs to larger ones such as communes and ultimately nation states He finds that the relationships best suited to forming larger structures are those that thrive in conditions of inequality that are incomplete and as sparse as possible and thereby avoid the problem of completion in which interacting members are required to establish too many relationships and that abhor transitivity rather than assuming it Social Structures argues that these patronage relationships which often serve as means of loose coordination in the absence of strong states are nevertheless the scaffolding of the social structures most distinctive to the modern state namely the command army and the political party **On Social Structure and Science** Robert K. Merton, 1996-09-15 Robert K Merton

is unarguably one of the most influential sociologists of his time A figure whose wide ranging theoretical and methodological contributions have become fundamental to the field Merton is best known for introducing such concepts and procedures as unanticipated consequences self fulfilling prophecies focused group interviews middle range theory opportunity structure and analytic paradigms This definitive compilation encompasses the breadth and brilliance of his works from the earliest to the most recent Merton s foundational writings on social structure and process on the sociology of science and knowledge and on the discipline and trajectory of sociology itself are all powerfully represented as are his autobiographical insights in a fascinating coda Anchored by Piotr Sztompka s contextualizing introduction Merton s vast oeuvre emerges as a dynamic and profoundly coherent system of thought a constant source of vitality and renewal for present and future sociology

Social Structure Charles Crothers,2013-12-16 Crothers s book provides a thorough introduction to the idea of social structure He examines the meanings of the term the history of its usage within sociology and looks at the more recent developments in thinking on social structure

Dynamic Probabilistic Models and Social Structure Guillermo L. Gómez M.,2012-12-06 Mathematical models have been very successful in the study of the physical world Galilei and Newton introduced point particles moving without friction under the action of simple forces as the basis for the description of concrete motions like the ones of the planets This approach was sustained by appropriate mathematical methods namely infinitesimal calculus which was being developed at that time In this way classical analytical mechanics was able to establish some general results gaining insight through explicit solution of some simple cases and developing various methods of approximation for handling more complicated ones Special relativity theory can be seen as an extension of this kind of modelling In the study of electromagnetic phenomena and in general relativity another mathematical model is used in which the concept of classical field plays the fundamental role The equations of motion here are partial differential equations and the methods of study used involve further developments of classical analysis These models are deterministic in nature However it was realized already in the second half of last century through the work of Maxwell Boltzmann Gibbs and others that in the discussion of systems involving a great number of particles the deterministic description is not by itself of great help in particular a suitable weighting of all possible initial conditions should be considered

The Pursuit of Attention Charles Derber,2000-06-15 Enough about me goes the old saying what about you What do you think about me Hence the pursuit of attention is alive and well Even the Oxford English Dictionary reveals a modern coinage to reflect the chase in our technological age ego surfing searching the Internet for occurrences of your own name What is the cause of this obsessive need for others recognition This useful and popular volume now in a second edition that features major new introductory and concluding essays entertainingly ponders this question Derber argues that there is a general lack of social support in today s America one which causes people to vie hungrily for attention and he shows how individuals will often employ numerous techniques to turn the course of a conversation towards themselves Illustrating this conversational narcissism with sample

dialogues that will seem disturbingly familiar to all readers this book analyzes the pursuit of attention in conversation as well as in politics and celebrity culture and demonstrates the ultimate importance of gender class and racial differences in competing for attention Derber shows how changes in the economy and culture such as the advent of the Internet have intensified the rampant individualism and egotism of today And finally in a new afterword he focuses on solutions how to restructure the economy and culture to humanize ourselves and increase the capacity for community empathy and attention giving

Social Structure and Aging K. Warner Schaie, Carmi Schooler, 2013-05-13 This volume presents a systematic examination of the impact of social structures on individual behaviors and on their development in adulthood and old age These papers and responses attempt to improve the reciprocal relationship between changes in social macro and micro structures and the process of psychological development in relation to issues of human aging Using and combining concepts and data from various fields this research promotes a better understanding of the effects of demographic patterns and social structures on the psychological development of adults

Advances in Military Sociology Giuseppe Caforio, 2009-12-01 A selection of the papers presented at RC01 s international conference in Seoul July 2008 It offers an overview of the panorama of social studies on armed forces and conflict resolution in a context of fast moving change It presents studies that move beyond the very concept of globalization

Structure and Social Action John Scott, 2022-01-28 The book shows the falsity of the opposition between action and structure by setting out a sophisticated view of social structure at two levels The figurational structures of interaction orders mapped through methods of social network analysis can be seen as partitioned by underlying formational structures such as class and gender

Food and the Status Quest Polly Wiessner, Wulf Schiefenhövel, 1996 This book brings together contributions from different disciplines to investigate from ethological and anthropological perspectives behaviour that appears to have biological roots such as the tendency to seek status through the medium of food

Ageing, Meaning and Social Structure Jan Baars, Joseph Dohmen, Amanda Grenier, Chris Phillipson, 2014-08-20 Ageing meaning and social structure is a unique book advancing critical discourse in gerontology and makes a major contribution to understanding key social and ethical dilemmas facing ageing societies It confronts and integrates approaches that have been relatively isolated from each other and interrelates two major streams of thought within critical gerontology analyses of structural issues in the context of political economy and humanistic perspectives on issues of existential meaning The chapters from a wide range of contributors focus on major issues in ageing such as autonomy agency frailty lifestyle social isolation dementia and professional challenges in social work and participatory research This volume should be valuable reading for scholars and graduate students in gerontology and humanistic studies as well as for policy makers and practitioners working in the field of ageing

Invisible Crisis of Contemporary Society Bernard S Phillips,Louis C. Johnston,2015-12-03 Is there a growing gap in today s world between cultural aspirations and their fulfillment a gap that is increasing social problems of all kinds If so what forces are producing that gap How can these forces be changed To answer these questions Phillips and Johnston employ a very broad approach to the scientific method drawing evidence from a wide variety of data and sources including sociologists psychologists political scientists historians philosophers educators psychiatrists and novelists They find substantial evidence for a widening gap suggesting an invisible crisis throughout contemporary society They also find substantial evidence that a simplistic and static metaphysical stance or worldview is largely responsible for that gap and that an alternative worldview can work to close that gap

Primitive Economics of the New Zealand Maori (Routledge Revivals) Raymond Firth,2011 First published in 1929 Raymond Firth s original and insightful study offers an incredibly detailed account of the social and economic organisation of the Maori people before their contact with Western civilisation Bridging the gap between anthropology and economics the work covers the class structure land system industry methods of co operative labour exchange and distribution and the psychological foundations of Maori society This reissue will be welcomed by all students of anthropology and anyone interested the history of the Maori people

The Marketplace of Attention James G. Webster,2014-09-05 How do media find an audience when there is an endless supply of content but a limited supply of public attention Feature films television shows homemade videos tweets blogs and breaking news digital media offer an always accessible apparently inexhaustible supply of entertainment and information Although choices seems endless public attention is not How do digital media find the audiences they need in an era of infinite choice In The Marketplace of Attention James Webster explains how audiences take shape in the digital age Webster describes the factors that create audiences including the preferences and habits of media users the role of social networks the resources and strategies of media providers and the growing impact of media measures from ratings to user

recommendations He incorporates these factors into one comprehensive framework the marketplace of attention In doing so he shows that the marketplace works in ways that belie our greatest hopes and fears about digital media Some observers claim that digital media empower a new participatory culture others fear that digital media encourage users to retreat to isolated enclaves Webster shows that public attention is at once diverse and concentrated that users move across a variety of outlets producing high levels of audience overlap So although audiences are fragmented in ways that would astonish midcentury broadcasting executives Webster argues that this doesn't signal polarization He questions whether our preferences are immune from media influence and he describes how our encounters with media might change our tastes In the digital era's marketplace of attention Webster claims we typically encounter ideas that cut across our predispositions In the process we will remake the marketplace of ideas and reshape the twenty first century public sphere **From Nazareth**

to Skid Row: The Real Reality of Skid Row: Systemic and Homiletic Insights Rev. Jeffrey R. Thomas, PhD, 2014-08-28

The Real Reality of Skid Row A Practical Theology Perspective looks with an unblinking eye at the details of the lives of homeless people and uses the portraits that emerge as the perspective from which to think theologically about the challenges they face and calling the church hears to offer its witness to them Rev Jeffrey R Thomas PhD drawing upon his time serving as a pastor of a congregation in Skid Row Los Angeles sketches out the contours of individuals lives analyzes the personal and societal factors that contribute to their circumstances and suggests approaches for shaping the church's responses in both word and deed Constructing the Social System Bernard Barber, 2021-10-29 Barber constructs a provisional generalized substantive theory of the social system which he uses as the starting point and focus of his specialized researches In this collection of his major writings in social system theory Barber shows how he has used and developed such a framework over the last fifty years and demonstrates the application o
