Military Social Work Around the Globe Mary Ann Forgey, Karen Green-Hurdle, 2022-11-14 This is the first book to focus on the scope of social work practice within military settings from an

international perspective and therefore addresses what has been a significant gap in the literature. Given the critical support needs of military personnel and their families worldwide and the expanding role of social work in responding to these needs, this book offers a comprehensive global understanding of the common military social work (MilSW) practices with active duty military service members and their families as well as the forms of practice and approaches that are unique or potentially transferable across nations. Based on a systematic inquiry conducted by the Editors, there are at least 25 countries that have social workers working directly within their country's military in either a civilian or uniformed capacity or both. This book includes contributions from experts in Australia, Canada, Denmark, Finland, Ireland, Israel, the Netherlands, New Zealand, South Africa, the UK, and the USA who describe various aspects of the MilSW role within their country and the research that informs what military social workers do. The MilSW similarities and differences among these countries are highlighted, including developmental milestones, practice settings, practice orientation, and approach, ethical dilemmas, military to veteran transition support, and past and current challenges. Experts from countries that do not yet have MilSW but are interested in developing it (Japan, Ukraine) or are in the process of establishing this area of practice (Slovakia) also contribute chapters about these developments and the evidence base that supports this direction. **Military Social Work Around the Globe** is a valuable resource for social work programs and essential reading for instructors and students in MilSW electives and specializations. It is also pertinent reading for occupational social work and international social work courses. In addition, this book is an important source of information for military social workers who would like to gain insights into existing programs and the possibilities for international collaboration and for countries interested in developing MilSW.

Addressing Anti-Asian Racism with Social Work Advocacy and Action Meirong Liu, Keith Chan, Keith T. Chan, 2024. This book is the first of its kind in examining how social work as a profession can address anti-Asian racism through our mission of providing clinical and community interventions impacting policy and advancing advocacy for Asian American and Pacific Islander populations. The contributing authors for this book represent many of the seminal social work scholars, activists, and educators on this topic, and we provide a comprehensive and in-depth investigation on how to address anti-Asian racism through social work action.

Pushing Boundaries in Social Work Around the World, Vol. 1 Mark Henrickson, Darla Spence Coffey, 2025-08-02. This book provides examples of how social workers have pushed back against civic and private corporate powers that attempt to control women, children, racialised and stigmatised groups, migrants, and indigenous peoples, and public policy agendas that continue to vulnerabilise and marginalise people. This is the first book of a two-volume set that focuses on how authors have pushed boundaries in a particular field of practice, research, or policy in social work. The books are culturally, gender, and geographically inclusive, with contributors from every inhabited continent. It is future-focused, hopeful, and inspiring; it focuses on solutions rather than merely elaborating problems. The book includes chapters from a continuum of experienced practitioners and early career researchers; this provides a nuanced and accessible view of boundaries from both

ends of the career path The global definition of social work says that the discipline promotes social change and development social cohesion and the empowerment and liberation of people but in many nations where social work exists social workers are expected to act as agents of social control ensuring that people particularly the poor conform to established political and social norms Most often social workers are initially attracted to the discipline because they want to empower and liberate vulnerabilised and marginalised people and communities In order to accomplish these high minded goals social workers must occasionally push boundaries that confine their practice This volume contains eight chapters from social workers who are pushing social work boundaries in their own social and national settings The contents are organised into two clusters pushing boundaries for women and children and pushing boundaries against isms and stigma Each chapter contains learnings that are applicable in different practice settings around the world Pushing Boundaries in Social Work Around the World Vol 1 Women Children and Isms inspires social workers to push against the boundaries we impose on ourselves and our discipline This book helps social workers rediscover the spark that initially drew them to their work

Contemporary Feminisms in Social Work Practice Sarah Wendt, Nicole Moulding, 2016-01-29 Contemporary Feminisms in Social Work Practice explores feminism as core to social work knowledge practice and ethics It demonstrates how gender neutral perspectives and practices obscure gender discourses and power relations It also shows feminist social work practice can transform areas of social work not specifically concerned with gender through its emphasis on relationships and power Within and outside feminism there is a growing assumption that equality has been won and is readily available to all women However women continue to dominate the ranks of the poor in developed and developing countries around the world male perpetrated violence against women and children has not reduced women outnumber men by up to three to one in the diagnosis of common mental health problems and women continue to be severely underrepresented in every realm of power decision making and wealth This worrying context draws attention to the ways gender relations structure most of the problems faced by the women men and children in the day to day worlds in which social work operates Drawing together key contemporary thinking about feminism and its place in social work this international collection looks at both core curriculum areas taught in social work programs and a wide range of practice fields that involve key challenges and opportunities for future feminist social work This book is suitable for all social work students and academics It examines the nuanced nature of power relationships in the everyday and areas such as working with cross cultural communities mental health interpersonal violence and abuse homelessness child protection ageing disability and sexuality

Critical Multicultural Practice in Social Work Charlotte Williams, 2020-07-16 Critical multicultural practice rather than being a specialism is integral to Australian social work Drawing on critical race theory critical multiculturalism intersectionality and critical reflection as practice theory this major new edited collection challenges many of the dominant assumptions of cross cultural social work and provides instead a new model of transformative engagement Key concepts are considered including identity culture diversity and superdiversity how power and privilege shape everyday interactions and what is meant by citizenship in the contemporary context Part One explores the changing nature of multicultural practice in Australia including our society s changing demographic profile the impact of asylum and refugee migrations race and racism and cultural identity Indigenous perspectives and the relationship with multicultural practice are examined together with the ethical and legal basis for multicultural practice This part concludes with an outline of the editors framework for critical multicultural practice Part

Two draws on contributions from a range of practitioners and offers new perspectives on diverse fields including child protection mental health disability ageing homelessness and rural and regional practice Featuring case studies and insights drawn from across the spectrum of practice this book is a vital resource for all social workers practising in Australia today A rich and nuanced analysis of what is happening at the interfaces of our work and the lives of Australian citizens it articulates ways forward that are genuine bold and empathetic From the foreword by Professor Kerry Arabena The University of Melbourne

Bibliometrics in Social Work Gary Holden, Gary Rosenberg, Kathleen Barker, 2013-01-11 Bibliometrics in Social Work examines the cross disciplinary field of bibliometrics including the multiple techniques and applications that have been described in the scholarly literature Moving beyond this general overview the authors examine applications of bibliometrics in social work Subsequent chapters detail how the technique can be used to demonstrate the eventual impact on the field of publications in selected journals These analyses are conducted using the bibliometric technique referred to as citation analysis The authors then move on to present what will be a controversial proposal to some in the field using bibliometrics techniques in making academic personnel decisions The authors propose that hiring retention tenure and promotion decisions could be made more uniform and fair by using citation analysis A series of experts in bibliometric analyses then critically respond to these initial chapters The authors conclude by weaving their responses to these commentators with new scholarship on bibliometrics that has recently appeared This unique book is a valuable aid for social work scholars Drawing on broad interdisciplinary streams of scholarship from around the world the collection illuminates a field that is not well known to social workers While cautiously advocating for a number of applications of the technique the authors balance this position by presenting a comprehensive summary of the criticisms of the technique and by the inclusion of a series of critical commentaries by the leading experts on these issues in the field of social work Bibliometrics in Social Work both summarizes what we know and pushes the field to think about how social work professionals can use this approach to improve our scholarship and the evaluation of scholars Bibliometrics in Social Work addresses theoretical and methodological issues pros and cons from the view of numerous bibliometric scholars bibliometrics outside of social work applications within social work previously reported in the literature estimates that have been reported in the literature of how much social workers publish and how much impact those publications have had how citation analysis can be used to analyze a selection of publications in a single journal and their subsequent impact how citation analysis might be used to improve academic employment decisions concerns regarding self citation and multiple authorship measurement issues in bibliometrics e g age adjustments concentration citedness and uncitedness the Price Index lag times persistence synchronous and diachronous self citations the Multiple Author Qualifier Bibliometrics in Social Work critically examines these methods and their applications in social work The book will be an enlightening read for social work scholars and those academic administrators involved in the evaluation of social work scholars as well as academic librarians that support social work

programs **Human Rights-Based Approaches to Clinical Social Work** S. Megan Berthold, 2014-12-12 This groundbreaking Brief brings a rights based perspective to social work as opposed to the charity and needs based formats traditional to the field Core principles for effective practice are discussed in the context of global human rights advocacy from addressing individuals immediate issues to challenging the structures that allow continued injustices to marginalized populations Focusing specifically on interventions with survivors and some perpetrators of torture human trafficking and domestic violence coverage explores and explodes myths about these issues some of which survivors themselves may believe and illustrates the immediate application and long term benefits of rights based therapy Case examples discussion questions resource links and a clinician self care section reinforce the salience of this approach modeling practice that is ethical in its outlook and empowering in its healing Clinician skills emphasized in Human Rights Based Approaches to Clinical Social Work Reframing client needs as human rights Cultural humility versus cultural competence Building the therapeutic relationship and reconstructing safety Developing trauma informed practice and avoiding re traumatization Forensic and activist roles for social workers Burnout prevention for practitioners Indigenous Social Work around the World John Coates, 2016-05-23

How can mainstream Western social work learn from and in turn help advance indigenous practice This volume brings together prominent international scholars involved in both Western and indigenous social work across the globe including James Midgley Linda Briskman Alean Al Krenawi and John R Graham to discuss some of the most significant global trends and issues relating to indigenous and cross cultural social work The contributors identify ways in which indigenization is shaping professional social work practice and education and examine how social work can better address diversity in international exchanges and cross cultural issues within and between countries Key theoretical methodological and service issues and challenges in the indigenization of social work are reviewed including the way in which adaptation can lead to more effective practices within indigenous communities and emerging economies and how adaptation can provide greater insight into cross cultural understanding and practice **Open Dialogue Around the World - Implementation, Outcomes, Experiences, and Perspectives** David Mosse, Raffaella Pocobello, Rob Saunders, Jaakko Seikkula , Sebastian von Peter, 2025-07-30 Open Dialogue OD is a low hierarchical mental health service model that originated in Finland in the 1980s following a change on two different levels First a culture of dialogical communication between staff users and caregivers was established Secondly community based multi disciplinary teams were organized to offer primarily outpatient services Immediate help in crisis continuity of support by the same team a low medication and primarily psychotherapeutically oriented approach are key principles of OD that have been further elaborated upon overtime during the past decades OD promotes mutual trust and open exchange between the involved stakeholders It is based on a mental health care epistemology that prioritizes human values everyday relationships and context bound understandings over symptoms and clinical diagnostics Transparency is of high value All information is shared and all voices are to be heard thereby recognizing

diversity and reflecting power differentials during the whole process of support OD is now practiced in various regions around the globe i.e. in several countries in Europe as well as in Australia Japan Latin America and the USA Studies in Western Lappland demonstrated various outcomes such as reducing the prevalence and incidence of so called chronic mental illness need for disability benefits and intake of neuroleptic medication while increasing functional remission and taking up work on the first labour market However these outcomes primarily originate in studies that have investigated the OD in countries of its origin leading to the question of whether they are transferrable to other healthcare contexts This question is crucial since OD varies internationally in its adaption to local health care systems and contingencies instead of representing a clearly demarcated intervention This Research Topic is interested in gaining an international perspective on OD It will assemble papers and contributions that report and comment on local OD practices describe and analyze their outcomes and impact and inform future directions worldwide Manuscripts that are co authored by peers survivors and user researchers are especially welcomed All manuscripts will be peer reviewed We are interested in Qualitative quantitative and mixed method original research on OD reporting on empirical research such as the results of intervention studies clinical or pilot trials Systematic reviews or mini reviews that summarize the results of empirical studies on OD Case reports that highlight an unexpected situation or outcome of an OD course of support Policy and practice reviews on local regulations and guidelines that are relevant for OD Hypotheses papers that present novel arguments interpretations or theoretical models in relation to OD Perspective articles that present a viewpoint on a specific area of investigation in relation to OD Conceptual analysis articles that explore the concepts and issues behind OD Papers on training and instructions that describe innovative curricula courses and teaching formats concerning OD Data report presenting a description or a research dataset on OD Brief research report that presents original research and or preliminary findings on OD with fewer detail Commentary and opinion papers that provide critical comments or contribute viewpoints on recent research findings
