## **Social Provision In Low Income Countries New Patterns And Emerging Trends:**

**Social Provision in Low-income Countries** Germano Mwabu, Cecilia Ugaz, Gordon White, UNU / WIDER, 2001

Social Provision in Low-income Countries World Institute for Development Economics Research, 2001 During recent years provision of key social services in low income countries has been affected by adverse macroeconomic conditions and by radical changes in economic thinking For example the welfarist approach which gives prominence to the state in delivering and financing social services has been challenged by the neoliberal approach which limits the role of the government to that of residual provider for the very poor According to the neoliberal approach the private sector could by relying on price mechanisms achieve more efficient provision However this approach relies on a rather narrow definition of efficiency which ignores social externalities in the delivery and use of services Social Provision in Low Income Countries analyses the merits and limitations of both welfarist and neoliberal approaches to the provision of key social services in terms of the outcomes and sustainability of the two approaches The volume proposes an alternative model of social provision characterized by multiplicity in service delivery and financing The new model in which households civil society and government play important roles avoids the inefficiencies of state provision and the exclusion and fragmentation of market based systems The authors argue for an integrative approach which encourages the equity and efficiency gained from a synergistic relationship between various service providers They further argue that the well known market and government failures in social provision are due to undesirable extremes in policy design rather than to inherent characteristics of market or government institutions The strengths of this new approach are illustrated with case studies from Chile China Tanzania and Zimbabwe The volume also describes how social services in Finland were organized in the early stages and draws policy lessons for present day developing countries

chapter Notes on Contributors      **Reclaiming Social Policy** Arjan de Haan, 2007-07-31 This book re evaluates the importance of social policies in shaping well being and combating exclusion and enhances understanding of how these policies are formed in a globalizing world It emphasises the context and path dependence of patterns and policies of inclusion and exclusion and provides a framework for supporting social policy making      **Eliminating Human Poverty** Santosh Mehrotra, Enrique Delamonica, 2013-07-04 This book focuses on the provision of basic social services in particular access to education health and water supplies as the central building blocks of any human development strategy The authors concentrate on how these basic social services can be financed and delivered more effectively to achieve the internationally agreed Millennium Development Goals Their analysis which departs from the dominant macro economic paradigm deploys the results of broad ranging research they led at UNICEF and UNDP investigating the record on basic social services of some 30 developing countries In seeking to learn from these new data they develop an analytical argument around two potential synergies at the macro level between poverty reduction human development and economic growth and at the micro level between interventions to provide basic social services Policymakers they argue can integrate macro economic and social policy Fiscal monetary and other macro economic policies can be compatible with social sector requirements They make the case that policymakers have more flexibility than is usually presented by orthodox writers and international financial institutions and that if policymakers engaged in alternative macro economic and growth oriented policies this could lead to the expansion of human capabilities and the fulfillment of human rights This book explores some of these policy options The book also argues that more than just additional aid is needed Specific strategic shifts in the areas of aid policy decentralized governance health and education policy and the private public mix in service provision are a prerequisite to achieve the goals of human development The combination of governance reforms and fiscal and macro economic policies outlined in this book can eliminate human poverty in the span of a generation      **Social Protection for Older Persons** Sri Wening Handayani, Babken Babajanian, 2012-07-01 The rising number of older persons in Asia has accentuated the importance of strengthening the systems of social protection in the region This book examines the effectiveness and relevance of noncontributory or social pensions in supporting older persons in Asia It discusses the political economy and financial sustainability of social pension reform implications for gender equity and social rights and design and implementation challenges Case studies from Bangladesh Nepal Thailand Viet Nam and South Caucasus and Central Asia provide key lessons for informing development policy and practice in Asia and the Pacific      **International Perspectives on Social Work** Karen Lyons, Kathleen Manion, Mary Carlsen, 2017-09-16 As social work is fundamentally being altered by the Internationalization of social problems this book examines the implications for students and practitioners Arguing that social professionals working locally need an understanding of global mechanisms and cross cultural issues it includes both local level and international examples      **China's Urban Health Care Reform** Chack-kie Wong, Vai Io Lo, Kwong-Leung

Tang,2006-01-01 One way to describe the importance of social policy is to say it's about what is and what might be. This ethos is the driving force behind Chack Kie Wong Vai Lo Lo and Kwong leung Tang's *China's Urban Health Care Reform*. Based on a study of a mid level city in China, these three scholars provide analysis and offer theory based recommendations on health care development. Using a comparative policy framework supported by a legal expert's knowledge of regulatory specifications, *China's Urban Health Care Reform* argues that a strategy with priority in economic growth as in the case of China does not bring forth cost efficiency and equity in health care for the whole nation. Ultimately Wong Lo and Tang strive to offer direction for health care reform that will lead to better health care in China's cities. As a result, this is a work of great significance to anyone involved in public health, social work, public policy, medicine or law. *Analyzing the Distributional Impact of Reforms: A practitioner's guide to trade, monetary and exchange rate policy, utility provision, agricultural markets, land policy, and education* World Bank,2005 This publication is a practitioner's guide for analyzing the distributional impact of reforms to trade, monetary and exchange rate policy, utility provision, agricultural markets, land policy, and education. These six areas of policy reform are the ones most likely to have an impact on distribution and poverty. Such analysis helps in policy formulation and development and for implementing poverty reduction strategies in developing countries. Each chapter in this volume provides an overview and guidance on the specific issues arising in the analysis of the distributional impacts of policy and institutional reforms in selected sectors.

**Contesting Moralities** Nanette Redclift,2017-08-16 Questions of public and private morality, values and choices have become important areas of collective discussion. A key feature of this book is that it takes an ethnographic rather than a philosophical or speculative approach to moral debates. This study examines the contemporary explosion of ethical discourse in the public domain and the growing importance of moral rhetoric as an aspect of social relations.

**Financing Social Policy** Katja Hujo,Shea McClanahan,2009-10-09 Moving beyond the post Washington consensus, this book shifts the focus of development policy debates away from expenditures and austerity and towards revenues and resources. The book explores the potential and the developmental impact of different categories of resources for financing social policy in a development context.

**Challenges in Health and Development** Sandy A. Johnson,2010-11-25 At the turn of the 21st century, human health and economic growth are inextricably linked components of international development. *Challenges in Health and Development* is a primer on the changing configurations of population health and economic growth in development policy. It examines strategies of investing in human health and investing in economic growth as distinct approaches to development, explores the symbiotic relationship of these tactics, and considers the applications and outcomes from a global, national, and community level perspective. Each chapter introduces concepts of economic development and population health and uses case studies to illustrate the same. These case studies include program and policy examples from Bangladesh, Chile, Haiti, Rwanda, South Africa, and Sri Lanka. This text examines the impact of macroeconomic adjustment programs, health care restructuring, investment in primary health care, public-private partnerships,

and the challenges of program coordination and up scaling in stable and conflict ridden countries Discussion questions are provided at the end of each chapter to facilitate classroom activities health and economic growth are inextricably linked components of international development Challenges in Health and Development is a primer on the changing configurations of population health and economic growth in development policy It examines strategies of investing in human health and investing in economic growth as distinct approaches to development explores the same from a global national and community level perspective Each chapter introduces concepts of economic development and population health and uses case studies to illustrate the same These case studies include program and policy examples from Bangladesh Chile Haiti Rwanda South Africa and Sri Lanka This text examines the impact of macroeconomic adjustment programs health care restructuring investment in primary health care public private partnerships and the challenges of program coordination and up scaling in stable and conflict ridden countries Discussion questions are provided at the end of each chapter to facilitate classroom activities

Global Health Watch 4 Bloomsbury Publishing, 2014-11-13 Global Health Watch now in its fourth edition is widely perceived as the definitive voice for an alternative discourse on health and healthcare It covers a range of issues that currently impact on health including the present political and economic architecture in a fast changing and globalized world a political assessment of the drive towards Universal Health Coverage broader determinants of health such as gender based violence and access to water stories of struggles actions and change and a scrutiny of a range of global institutions and processes It integrates rigorous analysis alternative proposals and stories of struggle and change to present a compelling case for a radical transformation of the way we approach actions and policies on health

**Democratic Accountability and International Human Development** Kamran Ali Afzal, Mark Considine, 2014-11-27 Scholars and policymakers have long known that there is a strong link between human development and spending on key areas such as education and health However many states still neglect these considerations in favour of competing priorities such as expanding their armies This book examines how states arrive at these decisions analysing how democratic accountability influences public spending and impacts on human development The book shows how the broader paradigm of democratic accountability extending beyond political democracy to also include bureaucratic and judicial institutions as well as taxation and other modes of resource mobilisation can best explain how states allocate public resources for human development Combining cross country regression analysis with exemplary case studies from Pakistan India Botswana and Argentina the book demonstrates that enhancing human capabilities requires not only effective party competition and fair elections but also a particular nesting of public organisational structures that are tied to taxpaying citizens in an undisturbed chain of accountability It draws out vital lessons for institutional design and our approach to the question of human development particularly in the less developed states This book will be of great interest to postgraduate students and researchers in the fields of political economy public policy governance and development It also provides valuable insights for those working in

the international relations field including inside major aid and investment organisations      *Rigged Rules and Double Standards* Kevin Watkins, Penny Fowler, 2002 A critical and detailed analysis of inequalities of world trade systems

Policies for Happiness Stefano Bartolini, Ennio Bilancini, Luigino Bruni, Pier Luigi Porta, 2016-03-11 In recent years debates on the economics of happiness have shown that over the long term well being is influenced more by social and personal relationships than by income This evidence challenges the traditional economic policy paradigm that has emphasized income as the primary determinant of well being This volume brings together contributions from leading scholars to ask What should be done to improve the quality of people s lives Can economic and social changes be made which enhance well being What policies are required How do policies for well being differ from traditional ones targeted on redistribution the correction of market inefficiencies and growth Are there dimensions of well being that have been neglected by traditional policies Is happiness a meaningful policy target The volume presents reflections and proposals which constitute a first step towards answering these questions      **Global Health Watch 2005-2006** , 2005 This alternative world health report offers a comprehensive survey of the key areas that influence the health of poor and vulnerable groups in all countries They range from climate change water and nutrition to national health policies and services and the brain drain of health professionals from South to North      American Book Publishing Record , 2001      *User Charges and Utilization of Health Services in Kenya* , 2004      **Handbook of Latin American and Caribbean Studies in the UK**.
