Rethinking U.S. World Power Daniel Bessner, Michael Brenes, 2024-03-06 Since the late 1990s diplomatic historians have emphasized the importance of international and transnational processes flows and events to the history of the United States in the world *Rethinking U S World Power* provides an alternative to these scholarly frameworks by assembling a diverse group of historians to explore the impact of the United States and its domestic history on U S foreign relations and world affairs In so doing the collection underlines that even in a global age domestic politics and phenomena were crucial to the history of U S foreign policy and international relations more broadly **Integration of Ethical and Social Aspects into Precision Livestock Farming - Achieving Real-World Impact Responsibly** Oleksiy Guzhva, Janice Siegford, 2022-02-03

Annual Convention of the Southwestern Political and Social Science Association Southwestern Political and Social Science Association. Convention,1924 *Cry from the Cotton* Donald Grubbs,2000-07-01 The Southern Tenant Farmers Union was founded in eastern Arkansas in 1934 to protest the New Deal s enrichment of Southern cotton barons at the expense of suffering sharecroppers both black and white Their

courageous struggle in the face of determined and often violent resistance from their landlords is the subject of this thorough study from Donald H Grubbs which was published to critical acclaim in 1971 *Cry from the Cotton* was the first full scale look at the STFU and its leaders It discloses that although the union operated under noticeable socialist party sponsorship in its infancy it drew much more upon the native Southern evangelical and populist traditions much as the civil rights movement would do twenty five years later Grubbs convincingly demonstrates that while the STFU failed to gain immediate social justice for its members it resulted in the formation of the Farm Security Administration which even today continues to aid the rural poor and it played a large part in forcing the formation of the La Follette Civil Liberties Committee whose spotlight on management terrorism helped the CIO toward success The volume stands as a classic on labor issues and class struggle and still echoes with the haunting plea of the dispossessed for equity

Bygone Utopias and Farm Protest in the Rural Midwest Daniel Jaster, 2021-04-09 This book explores those who long for bygone utopias times before rapid culturally destructive social change stripped individuals of their perceived agency The case of the wave of foreclosure protests that swept through the rural American Midwest during the 1930s illustrates these themes These actions embodied a utopian understanding of agrarian society that had largely disappeared by the late 19th century hundreds to thousands of people fixed public auctions of foreclosed farms returning owners property and giving them a second chance to save their farm Comparisons to later movements including the National Farmers Organization and the protests surrounding the 1980s Farm Crisis highlight the importance of culturally catastrophic social change occurring at a breakneck pace in fomenting these types of bygone utopian actions These activists and movements should cause scholars to re think what it means to be conservative and how we view conservatism helping us better understand why we re seeing a contemporary resurgence in nationalist and reactionary movements across the globe
