**Practicing Critical Reflection in Social Care Organisations** Jan Fook, 2021-09-09 This book explores concrete examples of different strategies and activities aimed at creating and embedding critically reflective learning and working environments within organisations whose prime function is social care

Critical reflection has long been recommended as a general professional skill and is a core component of the practice capabilities in social work in countries across the Western world. However, despite unequivocal support for it in social work education, sustaining critical reflection within organisations as both an individual and collective practice supported by organisational cultures is problematic. With contributions from social work practitioners and educators who have sought to embed critical reflection into broader activities and cultures within their organizations, the book addresses common features of critical reflection and challenges and benefits in specific case studies. This book will inspire and develop new thinking and vision about being critically reflective in organisations and facilitate efforts to improve the learning and working experience in addition to that of service quality and delivery. It will be required reading for all undergraduate and postgraduate social work modules focusing on management, leadership, organizational change and professional education.

***Reflective Practice in Social Work*** Christine Knott, Terry Scragg, 2010-04-16 Reflective practice is a key element of learning and development on social work courses. This fully updated new edition explores a range of approaches to reflective practice and includes sections on gender, reflecting on emotion and using reflection as a catalyst for change, as well as asking the fundamental question: what is reflective practice? Written in three parts, this essential guide starts with a broad exploration of reflection, drawing on some key texts that have informed its development. It then moves on to real practice issues, including the management of social work practice and interprofessional working.

***Management and Organisations in Social Work*** Trish Hafford-Letchfield, 2009-04-17 This fully revised and updated second edition looks at the study of social work management and organisations, focusing on relationships with crucial partners such as central government agencies, local partners and other social care organisations. Through an examination of current research and practice, the author explores the relationships between ideology, professional and personal values and decision making in organisational culture. Included in the text are case studies, activities and further reading lists to aid learning.

***Professional Leadership for Social Work Practitioners and Educators*** Anna Fairtlough, 2016-11-03 Professional leadership is increasingly recognised as being vital to enhancing social work's reputation and effectiveness. Although professional leadership is one of the nine domains of the professional capability framework in England, sometimes leadership is assumed to be the prerogative of managers rather than the responsibility of all professional social workers. The participation of social workers and social work educators in shaping professional cultures within organisations through practice innovation, practitioner research and workforce

development is thus crucial Drawing on theories that challenge hierarchical concepts of leadership this book will enable experienced social work practitioners and educators to develop their professional leadership to more expert levels Throughout the book there are case examples illustrating examples of advanced professional leadership in action research highlights and exercises utilising self reflection action planning creative writing and imagery to provide practical support to the reader **Doing Relationship-Based Social Work** Mary McColgan, Cheryl McMullin, 2017-03-21 Highly practical and research informed this book describes a new model for implementing relationship based principles in social work practice
