## **Socialization Sexism And Stereotyping:**

**Socialization, Sexism, and Stereotyping** Janet Muff, 1988      **Daring to Care** Susan Gelfand Malka, 2022-08-15

Beginning in the 1960s second wave feminism inspired and influenced dramatic changes in the nursing profession Susan Gelfand Malka argues that feminism helped end nursing's subordination to medicine and provided nurses with greater autonomy and professional status She discusses two distinct eras in nursing history The first extended from the mid 1960s to the mid 1980s when feminism seemed to belittle the occupation in its analysis of gender subordination but also fueled nursing leaders drive for greater authority and independence The second era began in the mid 1980s when feminism grounded in the ethics of care appealed to a much broader group of caregivers and was incorporated into nursing education While nurses accepted aspects of feminism they did not necessarily identify as feminists Nonetheless they used passed on and developed feminist ideas that brought about nursing school curricula changes and the increase in self directed and specialized roles available to caregivers in the twenty first century      **Nursing History Review, Volume 14, 2006** Patricia D'Antonio, RN, PhD, FAAN, 2005-11-21 Nursing History Review an annual peer reviewed publication of the American Association for the History of Nursing is a showcase for the most significant current research on nursing history Regular sections include scholarly articles over a dozen book reviews of the best publications on nursing and health care history that have appeared in the past year and a section abstracting new doctoral dissertations on nursing history Historians researchers and individuals fascinated with the rich field of nursing will find this an important resource      **A History of Nursing Ideas** Linda Andrist, Patrice Nicholas, Karen Wolf, 2006 This text is a comprehensive coverage of concepts critical to the development of the nursing role philosophy nature of nursing ways of knowing influences on the development of the nursing profession history and nature of nursing science evolution of nursing practice and education      **The Dynamics of Feminist Therapy** Doris Howard, 1986 Valuable information on feminist issues is provided in this book which focuses on particular groups of women that are frequently overlooked in feminist literature A Guide to Dynamics of Feminist Therapy takes an exciting look at the power effectiveness and forcefulness of psychotherapy designed for women a therapy of change and enrichment The effectiveness of therapy and its liberating feeling is fully explored The authors focus on the feminist therapy process that deals with the equality assertiveness and empowerment of women with the elevation of consciousness about sex roles and sex typing Special emphasis is placed on matters important to women of color and other groups other than Caucasian      Historical Dictionary of Feminism Janet K. Boles, Diane Long Hoeveler, 2004 This Second Edition is an essential resource for librarians scholars and students This succinct handbook includes more than 1 000 entries covering the persons organizations campaigns and court cases goals and achievements and current and future directions of the feminist movement 75 percent of which are new and revised from the first edition This second edition also features a more internationally focused introduction that provides an overview of the history and development of feminism as a movement

and as a philosophy Rounding out this new edition are an expanded chronology and an updated bibliography that brings attention to many feminist online resources and periodicals and emphasizes global and third wave feminism both new developments in the field since the publication of the first edition Paying tribute to the struggles of the women and men who have worked to change and to improve the living conditions for women in the world this book promises a comprehensive historical overview for readers of all interest levels

*Conflicted Health Care* Ester Carolina Apesoa-Varano, Charles S. Varano, 2014-09-19 Anyone who has spent time in a hospital as a patient or family member of a patient hopes that those who attend to us or our loved ones are at their professional best and that they care for us in ways that console us and preserve our dignity This book takes an intimate look at how health care practitioners struggle to live up to their professional and caring ideals through or during twelve hour shifts on the hospital floor From 3 200 hours of participant observation and 500 hours of follow up interviews with twenty one doctors thirty registered nurses twenty one respiratory therapists twenty medical social workers and eighteen occupational physical and speech therapists the authors create a complex picture of the workplace conflicts that different types of health care practitioners face Though all these groups espouse caring ideals professional interests and a curative orientation dominate in patient care and interoccupational relations Because emotive caring is not supported by the organization of health care in the hospital it becomes an individual virtue that overworked staff find hard to perform and it takes on an ideological form that obscures the status hierarchy among practitioners Conflicts between practitioners rest upon the ranking of each group's knowledge base They manifest in efforts to work as a team or set limits on practitioner responsibilities and in differing views on unionization

### **What Causes Men's Violence Against Women?**

Michele Harway, James M. O'Neil, 1999-09-09 Carefully organized and tightly edited this insightful book considers potential causes of men's violence against women utilizing a variety of theoretical perspectives. It summarizes what is known about the multiple causes of men's violence against women and the importance of identifying men's risk factors in order to prevent future violence. The editors' approach is unique but systematic. In chapter 2 the editors present a preliminary multivariate model that explains men's violence against women by identifying four content areas: macrosocietal, biological, gender role socialization, and relation factors. Within these four areas the editors develop thirteen preliminary hypotheses about the causes of men's violence against women. In the subsequent chapters the contributing authors critique or react to specific parts of the multivariate model and address one or more of the 13 hypotheses in the presentation of their own ideas about the causes of men's violence against women. In the concluding chapter the editors summarize the contributors' reactions to the original hypotheses by creating a revised multivariate model of risk factors for men's violence against women. The final model includes biological, socialization, psychological, psychosocial, relational, and macrosocietal factors. Furthermore, the model is explained through 13 theoretical propositions, 40 research hypotheses, and over 60 risk variables related to men's violence against women. The book closes with a discussion of men's protective resiliency and vulnerability factors as well as future directions for theory development, advocacy, and the prevention of violence against women. *Congressional Record*

*Encyclopedia of Sex and Sexuality* Heather L. Armstrong, 2021-03-01

Providing a comprehensive framework for the broad subject of human sexuality, this two-volume set offers a context of historical development, scientific discovery, and sociopolitical and sociocultural movements. The broad topic of sex encompassing subjects as varied as sexuality, sexual and gender identity, abortion, and such crimes as sexual assault is one of the most controversial in American society today. This two-volume encyclopedic set provides readers with more than 450 entries on the subject, offering a comprehensive overview of major sexuality issues in American and global culture. Themes that run throughout the volumes include sexual health and reproduction, sexual identity and orientation, sexual behaviors and expression, the history of sex and sexology, and sex and society. Entries cover a breadth of subjects such as the major contributors to the field of sexology, the biological, psychological, and cultural dimensions of sex and sexuality, and how the modern-day political climate and the government play a major role in determining attitudes and beliefs about sex. Written in clear, jargon-free language, this set is ideal for students as well as general readers. *Current Issues in Nursing* Helen K. Grace, 1990

On the Job

Heather Akou, 2024-02-22 Through a variety of archival documents, artifacts, illustrations, and references to primary and secondary literature, *On the Job* explores the changing styles, business practices, and lived experiences of the people who make, sell, and wear service industry uniforms in the United States. It highlights how the uniform business is distinct from the fashion business, including how manufacturing developed outside of the typical fashion

hubs such as New York City and gives attention to the ways that various types of employers small business corporate government and others differ in their ambitions and regulations surrounding uniforms On the Job sheds new light on an understudied yet important field of dress and clothing within everyday life and is an essential addition to any fashion historian s library appealing to all those interested in material culture the service industry heritage and history Taking Sexism Out of Education National Project on Women in Education,1978 **Officer, Nurse, Woman** Kara Dixon

Group,Joan I. Roberts,2001-10-03 Nursing Physician Control and the Medical Monopoly Historical Perspectives on Gendered Inequality in Roles Rights and Range of Practice Thetis M Group and Joan I Roberts A history of physicians efforts to dominate the healthcare system Nursing Physician Control and the Medical Monopoly traces the efforts by physicians over time to achieve a monopoly in healthcare often by subordinating nurses their only genuine competitors Attempts by nurses to reform many

aspects of healthcare have been repeatedly opposed by physicians whose primary interest has been to achieve total control of the healthcare system often to the detriment of patients health and safety Thetis M Group and Joan I Roberts first review the activities of early women healers and nurses and examine nurse physician relations from the early 1900s on The sexist domination of nursing by medicine was neither haphazard nor accidental but a structured and institutionalized phenomenon Efforts by nurses to achieve greater autonomy were often blocked by hospital administrators and organized medicine The consolidation of the medical monopoly during the 1920s and 1930s along with the waning of feminism led to the concretization of stereotyped gender roles in nursing and medicine The growing unease in nurse physician relations escalated from the 1940s to the 1960s the growth and complexity of the healthcare industry expanding scientific knowledge and increasing specialization by physicians all created heavy demands on nurses Conflict between organized medicine and nursing entered a public open phase in the late 1960s and 1970s when medicine unilaterally created the physician s assistant countered by nursing s development of the advanced nurse practitioner But gender stereotypes remained central to nurse physician relations in the 1980s and into the 1990s Finally Group and Roberts examine the results of the medical monopoly from the impact on patients health and safety to the development of HMOs and the current overpriced poorly coordinated and fragmented healthcare system Thetis M Group is Professor Emerita at Syracuse University where she was Dean of the College of Nursing for 10 years and an adjunct faculty member at the University of Utah College of Nursing She is co author of *Feminism and Nursing* and has published numerous articles in professional nursing journals Joan I Roberts social psychologist is Professor Emerita at Syracuse University A pioneer in women s studies in higher education she is co author of *Feminism and Nursing* and author of numerous books and articles on gender issues and racial and sex discrimination June 2001 352 pages 6 1 8 x 9 1 4 index append cloth 0 253 33926 X 29 95 s 22 95
