## **Societies Corporations And The Nation State:**

Societies, Corporations and the Nation State Erwin Scheuch, David Sciulli, 2000-09-12 Reconsidering the classics is the theme of this selection of papers from the 1997 Cologne conference of the International Institute of Sociology. This does not imply going back to their answers but to their topics. Some of the issues covered in this volume are freedom of societies, the privatisation of belief, ethnicity and globalisation, East West relations and institutional rehabilitation. The book includes articles by major contemporary sociologists including Raymond Boudon, Samuel Eisenstadt, William D. Antonio, Saskia Sassen, Pierpaolo Donati, Eugeen Roosens, Nikolai Genov, Mattei Dogan, Gisela Trommsdorff, Margaret Archer, Erwin Scheuch, Friedrich F. rstenberg, Takashi Usui, Erich Weede and M. Munakata. The International Institute of Sociology, the oldest sociological association in the world, was founded in 1893 and has had distinguished members like Ferdinand Tönnies, Thorstein Veblen, Georg Simmel, Piotr Sorokin and J. M. Schumpeter.

*Societies, Corporations and the Nation State* Erwin K. Scheuch, David Sciulli, 2000. These papers from the 1997 Cologne conference of the International Institute of Sociology are written by major contemporary sociologists. A number of issues are discussed, including freedom of societies, the privatisation of belief, ethnicity and globalisation, East West relations and institutional rehabilitation.

Muslim Laws, Politics and Society in Modern Nation States Ihsan Yilmaz, 2016-12-05 Drawing on theories of legal pluralism, this book tests whether and to what extent claims of the modern nation state's laws to exclusive dominance over other spheres are tenable and reassesses the operation of law in society. Incorporating a combination of legal theory, post-modern critique and socio-legal analysis of three current jurisdictions in which Muslims play an important role, the volume identifies Muslims' current socio-legal situation and attitudes from different perspectives and reconciles them with modern legal systems in three key countries. It analyzes the conflict between the assumptions of modern legal systems and plural legal realities and also examines attempts by modern legal systems to impose official laws in the face of resistance from unofficial Muslim laws and discusses possible responses to the challenge of dynamic Muslim legal pluralism. A valuable resource for students, researchers and academics with an interest in the areas of Islamic law and politics and the interplay between secular law and religious cultural traditions.

*Legal Pluralism and Empires, 1500-1850* Richard J. Ross, 2013-07-22 Historians used to imagine empire as an imperial power extending total domination over its colonies. Now, however, they understand empire as a site in which colonies and their constitutions were regulated by legal pluralism: layered and multicentric systems of law which incorporated or preserved the law of conquered subjects. By placing the study of law in diverse early modern empires under the rubric of legal pluralism, *Legal Pluralism and Empires 1500-1850* offers both legal scholars and historians a much needed framework for analyzing the complex and fluid legal politics of empires. Contributors analyze how ideas about law moved across vast empires, how imperial agents and imperial subjects used law, and how relationships between local legal practices and global ones played themselves out in the early modern world. The book's tremendous geographical breadth includes the British, French, Spanish, Ottoman

and Russian empires gives readers the most comparative examination of legal pluralism to date Lauren Benton is Professor of History Affiliated Professor of Law and Dean of the Graduate School of Arts and Science at New York University Her books include *A Search for Sovereignty Law and Geography in European Empires 1400 1900* and *Law and Colonial Cultures Legal Regimes in World History 1400 1900* Richard J Ross is Professor of Law and History at the University of Illinois Urbana Champaign and Director of the Symposium on Comparative Early Modern Legal History With Steven Wilf he is currently working on a book entitled *The Beginnings of American Law A Comparative Study*

**Society and Culture** Bryan S Turner, Chris Rojek, 2001-06-04 *Society and Culture* reclaims the classical heritage provides a clear eyed assessment of the promise of sociology in the 21st century and asks whether the cultural turn has made the study of society redundant Sociologists have objected to the rise of cultural studies on the grounds that it produces cultural relativism and lacks a stable research agenda This book looks at these criticisms and illustrates the relevance of a sociological perspective in the analysis of human practice The book argues that the classical tradition must be treated as a living tradition rather than a period piece It analyzes the fundamental principles of belonging and conflict in society and provides a detailed critical survey of the p

**The Associational Counter-Revolution:**

The Spread of Restrictive Civil Society Laws in the World's Strongest Democratic States Chrystie F. Swiney, 2022-06-07 In an increasing number of countries around the globe representing all regime types in all regions with all levels of economic and military strength civil society's autonomy from the state its defining feature is diminishing While a variety of tools are used to restrict civil society organizations CSOs independence from the state an increasingly popular and dangerously effective vehicle for accomplishing this goal is the law Through the passage of legislation that imposes new restrictions on the ability of CSOs to operate free from excessive government scrutiny and control governmental actors are gaining greater control over the non governmental sector and in ways that benefit from the veneer of legality Perplexingly such laws are not only appearing in countries where they might be expected Azerbaijan Burundi China Egypt Ethiopia Russia Zimbabwe and countries throughout the Middle East Indeed they are increasingly appearing in democratic states too including strong fully consolidated democratic states with historically strong and independent civil society sectors Canada India New Zealand Spain Israel Hungary Poland and the US to name just a few Restrictive CSO laws which are unsurprising in authoritarian leaning states are uniquely puzzling in the context of democratic ones which have been the primary defenders funders and champions of a robust and independent civil society This book explores this concerning and intriguing phenomenon by documenting its full scope and spread within the world's strongest democratic states and attempting to explain its occurrence Using a combination of mixed methods theory process tracing interviews and statistical analysis this timely analysis helps to shed light on a global phenomenon that seems to be fueling the democratic backsliding visible in an increasing number of democracies throughout the world This exploration which bridges comparative and international law international relations democratic theory and state civil society relations attempts to make sense of this global contagion the closing space phenomenon which threatens to undermine one of cornerstones of any democracy a free and independent civil society in the years and decades ahead

**The Role of Business in Fostering Peaceful Societies** Timothy L. Fort, Cindy A. Schipani, 2004-11-11 Originally published in 2004 this book offers a fresh approach to understanding responsible business practice Global protests against multinational companies often give the misleading impression that the interests of multinationals and of peaceful societies are at odds By contrast Fort and Schipani contend not only does business benefit from a peaceful environment but it can in fact effectively foster peace through adopting responsible and open working methods Firms that promote economic development that allow external evaluation of their affairs and that build a sense of community both within the company and in their local areas make a great contribution to building a more harmonious culture Relevant for academics and practitioners the book shows how companies can encourage collaborative working across borders discourage corruption and create citizenship and problem solving practices which tend to reduce violence and increase social harmony

*Cultural Identity and the Nation-state* Carol Gould, Pasquale Paquino, 2001 In this collection several distinguished political philosophers consider alternative models of the recognition of diverse cultures and the

significance of cultural and national identity within democratic societies The impact of this recognition for conceptions of citizenship and the supposed neutrality of the democratic state is examined in the framework of economic and political globalization on the one hand and the widespread assertion of cultural and ethnic differences on the other The tension between the recognition of diverse cultures and universal frameworks of human rights is discussed as are the idea of national self determination and the new forms of democratic and civic institutions that may be required in order to deal with present political conflicts

**The Zapatista Experience** Jérôme Baschet, 2024-09-24 An exploration of the Zapatista project from its conception to the present On the thirtieth anniversary of the Mayan Indigenous uprising in Chiapas The Zapatista Experience reconstructs the trajectory of the Zapatista struggle over the last three decades both in its concrete achievements and in its contributions to the renewal of critical and antisystemic thinking The Zapatista rebellion has become a reference and source of inspiration for many struggles around the world due to its major contribution in reformulating a credible and desirable path to emancipation a path that broke with previously dominant conceptions state centric productivist Eurocentric modernist and patriarchal Baschet demonstrates how the Zapatistas have succeeded in materializing on a massive scale the concrete experience of another way of living a forerunner of possible emerging worlds The autonomous rebel territories of Chiapas are among the most developed and radical of the real utopias that exist in the world today exceptional in their experiments in self governance and anti State political form argues Jérôme Baschet The Zapatista Experience orients readers in the profusion of Zapatista writings concerning for example the elaboration of a different understanding of politics the Zapatistas planetary conjunctural analysis of capitalism as a total war against humanity their conception of Indigeneity that breaks with both modernist individualism and identity politics and their notion of time and history All this in clear opposition to neoliberal capitalism

Justice, Society and Nature Brendan Gleeson, Nicholas Low, 2002-09-11 Justice Society and Nature examines the moral response which the world must make to the ecological crisis if there is to be real change in the global society and economy to favour ecological integrity From its base in the idea of the self through principles of political justice to the justice of global institutions the authors trace the layered structure of the philosophy of justice as it applies to environmental and ecological issues Philosophical ideas are treated in a straightforward and easily understandable way with reference to practical examples Moving straight to the heart of pressing international and national concerns the authors explore the issues of environment and development fair treatment of humans and non humans and the justice of the social and economic systems which affect the health and safety of the peoples of the world Current grass roots concerns such as the environmental justice movement in the USA and the ethics of the international regulation of development are examined in depth The authors take debates beyond mere complaint about the injustice of the world economy and suggest what should now be done to do justice to nature

**Economy and Society** Robert J. Holton, 2013-04-15 Economy and Society is a major landmark in the recent emergence of economic sociology Robert J Holton provides a major new synthesis of social scientific

thinking on the inter relationship between economy and society arguing for the importance of politics and culture to the functioning of the economy and drawing on the strengths but avoiding the weaknesses of economic liberalism and political economy

Corporate Power in Civil Society David Sciulli, 2001 The corporate mega mergers of the 1980s and 1990s raise questions about the influence of such globalism on the development of civil society This book maps the legal limits of corporate power in our democratic society and explores the role of the corporate judiciary in creating public policy

NGOs as Legitimate Partners of Corporations Dorothea Baur, 2011-08-21 The interaction between corporations and non governmental organizations NGOs has become an important topic in the debate about corporate social responsibility CSR Yet unlike the vast majority of academic work on this topic this book explicitly focuses on clarifying the role of NGOs not of corporations in this context Based on the notion of NGOs as political actors it argues that NGOs suffer from a multiple legitimacy deficit they are representatives of civil society without being elected the legitimacy of the claims they raise is often controversial and there are often doubts regarding the legitimacy of the behaviour they exhibit in putting forward their claims Set against an extended sphere of political action in the postnational constellation this book argues that the political model of deliberative democracy provides a meaningful conceptualization of NGOs as legitimate partners of corporations and it develops a conceptual framework that specifically allows distinguishing legitimate partner NGOs from two related actor types with whom they share certain characteristics but who differ with respect to their legitimacy These related actor types are interest groups on the one hand and activists on the other hand In conclusion it argues that a focus on the behaviour of NGOs is most meaningful for distinguishing them from interest groups and activists
