The Persuasive Portrayal of David and Solomon in Chronicles Suk-Il Ahn,2018-02-01 This study examines the speeches and prayers in the David Solomon narrative in Chronicles and seeks to demonstrate that the Chronicler's portrayal of David and Solomon attempts to establish the Yehudite community's identity. Is the covenantal relationship still valid in the Persian period? The author asserts that as a commitment to YHWH involving the worship of YHWH through the Jerusalem temple, the covenantal relationship between YHWH and Israel continues even into the Persian period. This study employs Kennedy's rhetorical method with the new categories of the narrative situation and the Chronicler's situation being used to further delineate his concept of the narrative situation. The Chronicler's portrayal of David and Solomon through speeches and prayers serves to persuade his audience of the significance of the Jerusalem temple reformulating the Yehudite community identity as a cultic community in the Persian period.

Near Eastern Tribal Societies During the Nineteenth Century

Eveline van der Steen,2014-10-14 This volume provides an in-depth study of tribal life in the Near East in the 19th century, exploring how tribes shaped society, economy, and politics in the desert as well as in villages and towns. Until the First World War, Near Eastern society was tribally organized. Particularly in the Levant and the Arabian peninsula, where the Ottoman empire was weak, large and powerful tribes such as Anaze, Beni Sakhr, and Shammar interacted and competed for control of the land, the people, and the economy. The main sources for this study are travel accounts of 19th-century adventurers and explorers. Their travels on horseback, on camel, or on foot opened a fascinating window on a world with an ideology that was fundamentally different from their own, often Victorian, background. One chapter is dedicated to oral traditions in the region, from heroic epics to short poems, which let the tribes and tribe members themselves speak, giving a voice to the tribal frame of mind. Evidence of tribal organization as a driving force in society can be found in documents and sometimes in the archaeological record from the Bronze Age onwards. While a straight comparison between ancient and subrecent tribal communities is fraught with difficulties and must be treated with caution, a better understanding of 19th-century tribal ethics and customs provides useful insights into the history and the power relations of a more distant past. At the same time, it may help us understand some of the underlying causes for the present conflicts afflicting the region.
