Liberating Rites Tom F. Driver,2019-03-13 This book shows how necessary ritual is to human freedom and to social processes of liberation It aims to reflect upon the deep human longing for ritual and to interpret it in the light of our physical social political sexual moral aesthetic and religious existence The Forest People Colin Turnbull,2012-12-04 The bestselling classic text on one anthropologist s incredible experience living among the African Mbuti Pygmies and what he learned from their culture customs and love of life In this bestselling book Colin Turnbull a British cultural anthropologist details the incredible Mbuti pygmy people and their love of the forest and each other Turnbull lived among the Mbuti people for three years as an observer not a researcher so he offers a charming and intimate firsthand account of the people and their culture and especially the individuals and their personalities The Forest People is a timeless work of academic and humanitarian significance sure to delight readers as they take a trip into a foreign culture and learn to appreciate the joys of life through the eyes of the Mbuti people **The Secret Tradition of the Soul** Patrick Harpur,2011-10-18 In The Secret Tradition of the Soul author Patrick Harpur argues that answers to life s most difficult questions the meaning of life the

nature of self and the existence of an afterlife can be met by a visionary tradition that runs through Western culture from Greek philosophy and Renaissance alchemy to Romantic poetry and modern depth psychology This hidden tradition according to Harpur places our soul at the center of the universe and emphasizes imagination the collective unconscious and an otherworld or afterlife above all it teaches us how to know ourselves and how to recover a sense of meaning largely lost today Harpur shows how this tradition drives the literature of otherworld journeys from the flights of shamans and the dreams of psychoanalysis to the mystic imagination of Romantic poets and the visions of those having near death experiences The Secret Tradition of the Soul is the first book to gather together all the threads of the soul tradition and weave them into a bigger clearer picture presenting a worldview at once ancient and revolutionary About the Imprint EVOLVER EDITIONS promotes a new counterculture that recognizes humanity s visionary potential and takes tangible pragmatic steps to realize it EVOLVER EDITIONS explores the dynamics of personal collective and global change from a wide range of perspectives EVOLVER EDITIONS is an imprint of North Atlantic Books and is produced in collaboration with Evolver LLC Wayward Servants Colin M. Turnbull,1966 **The Human Dilemma** Barbara Dole Larsen,2009-12 Who has never wondered why people behave the way they do They create glorious music art and literature They have uncovered the secrets of the universe and disease yet have not been able to figure out how to get along with each other without war The Human Dilemma sets out to find out why It describes how humans evolved how their wonderful brains work and what they are like when they are born The author explores the reasons individuals grow up with different personalities depending on the societies in which they mature from hunter gatherers in Africa to industrial Americans She then turns to relationships between the sexes the temptations of power and why religious differences lead to violence The Human Dilemma explains in simple readable language how human nature customs and beliefs interfere with mankind s ability to resolve the overwhelming problems facing the world today Violent conflicts between cultures have become more volatile over the years Many believe it is man s nature to fight yet ancient civilizations like Crete were peaceful and everyone was treated equally women as well as men The same is true of two hunting gathering tribes in Africa that have followed the same way of life for thousands of years Perhaps it is just as human to cooperate peacefully in solving problems as it is to fight over them and just as human to see our fellows as equal instead of superior or inferior Why then do men regard women as inferior in so many societies And why do so many nations plunge into battle especially since the invention of nuclear bombs makes it possible to wipe out our entire species The newest peril is global warming caused by the spewing of carbon into the atmosphere from burning fossil fuels which may eventually change our climate back to the days before mankind existed Some animals have already become extinct because they cannot adjust to warmer weather Humans may not survive such a drastic change Our magnificent brains are capable of inventing solutions to all the problems confronting us and entrepreneurs are eager to put these inventions into practice Why then don t we do it Is there some flaw in our nature that makes it easier to blame each other instead and find excuses for

relieving our frustrations in warfare As the author studied the sciences for answers to her questions she became convinced that only by fully understanding our nature and the reasons why it is difficult for us to confront our problems can we hope to resolve them and continue to survive Her conclusions are found in *The Human Dilemma* An original and thought provoking book which will appeal to a very wide audience Richard Edelman Psychoanalyst In her wonderfully wide ranging exploration of human nature Barbara Larsen has distilled her research into a lucid and absolutely fascinating book Richard Edelman Psychoanalyst The writer s style is open and exploratory warmly self sharing and it is an enjoyable as well as a searching and provocative learning experience Saul L Brown Emeritus Chairman Department of Psychiatry Cedars Sinai Medical Center Los Angeles CA Larsen skillfully weaves together current theory and research from an impressive variety of sources Arthur A Dole Emeritus Professor of Education University of Pennsylvania

A Modern Theory of Language Evolution Carl J. Becker, 2004-12 The discipline of linguistics is a perfect example of the

limitations of the modern academy The combination of social taboos that make certain subject matter unfit for general knowledge and discovery and the ever narrowing specialization of scientists leaves us with an intellectual institution that can no longer do anything but apply repair and justify the dogma of Victorian Cosmology that is the rule all must follow

Linguistics should be one of the most interesting subjects considering it is the study of our most valuable and revealing cultural asset language However recent publications from the linguistic department for public consumption have been some of the most trivial and boring intellectual expositions that have ever been put between two covers Using the entire database of science we look at the acquisition of language and how it forms our cultural perspective on life including theories of language evolution We develop the theory of the evolution of language from song one of the few suppositions that Charles Darwin actually got right From this basis we move on to the roots of Proto Indo European which we call Bhear Tongue Bhear Tongue is essentially the Eurasian language family dimly perceived by one of the greatest linguists of the twentieth century Joseph Greenberg From this perspective we can now retell the tribal stories from Iberia to Siberia showing a common origin and motivation for human science and religion **Cassell's Magazine** ,1906 Yearbook for Traditional Music ,1996 Includes record reviews The Unsettler Charles Joseph Albert, Javier must complete a hit to be accepted in his gang But before the eleven year old can pull the trigger he is abducted from the City by Childsnatchers and brought to their Village In a 23rd century America torn in two Javier goes from one extreme to the other born in the Dickensian Bayarea ruled by guns and the Church he comes of age in a Burning man inspired commune in the Desert As Javier reaches manhood and begins to see more clearly the flaws and strengths of each society he triggers a war that will shatter their separation and will threaten everyone he loves in both worlds **Politics and History in Band Societies** Richard Lee,1982-09-30 The papers collected in this volume present important information on the history and culture of contemporary gathering and hunting peoples from Canada India Africa Australia and the Philippines The volume focuses on two themes first on the techniques which band living foraging peoples employ to organise their social and economic lives and second on their fight for the right to their own lands and for a measure of cultural and political autonomy The contributors maintain that gatherer hunters are not examples of a disappearing way of life but peoples who have maintained their social and economic practices through long periods of contact with stratified societies The aim of this volume it to make known to as wide an audience as possible the daily lives the patterns of relations between the sexes and the political orientations of the world s contemporary foragers , Benita, an African romance H. Rider Haggard,2025-08-16 Reproduction of the original The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage
