In clear and accessible language Mark Ringer examines this vast output of masterpieces as the great musical dramatic creations that they. Bach's sacred cantatas represent an almost superhuman artistic and spiritual achievement, arguably the richest investment by a great composer within a single genre. But outside of a handful of pieces they remain a closed book to a majority of serious listeners already familiar with Bach's large-scale religious works. Nevertheless, the same musical dramatic genius of Bach's Passions is fully evident in virtually all of the composer's sacred cantatas. Ringer approaches the sacred cantatas as sermons in musical dramatic form, un-staged operas planned for each occasion of the church year. Bach's era relished dramatic contrast and his use of the human voice offers a constantly changing pallet of vocal colors. The singers play roles throughout the cantatas from penitent sinner to ardent believer to Christ himself. This book is accompanied by online audio tracks of select Bach cantatas from the Naxos music library. It will be of use to readers interested in opera and vocal music who have already come to love Bach's Passions and who want to familiarize themselves with this wide array of masterpieces.

The Human Soul: Essays in Honor of Nalin Ranasinghe Predrag Cicovacki, 2022-02-01 This collection of essays is dedicated to a recently deceased philosopher and humanist Nalin Ranasinghe. His central philosophical and humanistic preoccupation was with the human soul. Not surprisingly, his greatest inspiration was Socrates' credo: Care for your soul. The title of his first book was *The Soul of Socrates*. In this and his later writings, Ranasinghe expressed his growing concern over the idea that the human soul has been hijacked due to the way our civilization has developed. The highest and noblest aspirations of our civilization have been replaced by our obsession with money, pleasure, and power. We now live in a time where we do not know who we are nor who the people around us are. Despite all of the technical gadgets connecting us virtually, this is the age of disconnect and loneliness, as well as of the degradations of humanity. Ranasinghe insisted that the two keys for recovery are the self-knowledge of the soul and a continuous dialogue with others. We need to relearn how to relate to ourselves and others as unique individuals, not as objects for the satisfaction of our needs. Following his ideas, the twenty essays presented here are divided into two parts: the soul in reflection and the soul in dialogue. The contributors come from various countries around the globe and work in different disciplines, and their chapters aim to revive our interest in the soul and the obscured core of our humanity. This book will appeal to undergraduate and graduate students of philosophy; however, the essays are written in a non-technical language, also making them accessible to the general audience.
